You love staying at home watching TV, being on FB and playing games? In this issue, we learn about a brother-sister team that stays at home playing games. And they are the best.

Speaking of the best, the OA team congratulates all of you for your hard work! We are very proud of the graduates and this issue is our present to you. In here, we have a lot of new anime, interesting mangas and hot games (like steamy hot~)

We also have a tutorial on the female anatomy. Then Perkee teaches us how the Sochii-kun doll was made and how the business is run. Photographer LMKusanagi will be talking about cosplay photography while The Sword Master, Miko Garcia tells all in an epic interview (of sorts)

Just like Ayaka from Witch Craft works, this issue is burning with passion. What are you waiting for? Flip the page to celebrate and enjoy summer with us!

## Contributor's Question

**When you heard the word "summer", item comes into your mind and why?**

The first word that came into my mind was "bikini". I want to wear one but sadly I don't have a hot body. :P  
-Dhanliza Cellona

To me, summer means one thing - the beach. Crystal seas, white sands, blue skies, towering palms, hot sun, cool breeze and lovely ladies - the true meaning of summer  
-James Bayot

Watermelons! We usually get watermelons around summer, and most of anime series with beach episodes have the "Smash the watermelon" game.

Ice cream, ice candy! and time for a swim because we need to relax and cool our bodies off!

# OFFICIAL TITLE OF NEXT POKÉMON FILM AND NEW POKÉMON DIANCIE ANNOUNCED

The seventeenth feature length film for the anime series of Pokémon will be released on July 19, 2014 nationwide in Japan.

Last February 15th, the official title has been announced, which is Pokémon the Movie XY: Cocoon of Destruction and Diancie. Diancie, a newly revealed mythical Pokémon, is also the princess of Diamond Ore Country, the setting for the film.

Diamond Country is located deep underground, relatively unknown by humans, and is inhabited by Carbink. The country runs on an energy source which is a large diamond called the "Sacred Diamond", and unfortunately, the diamond's power has been nearly depleted. Diancie has the ability to create such diamonds, but is still currently unable to. Thus, she joins Ash and friends on a quest to find the Life Pokémon Xerneas. However, their journey is marked with danger, and the greatest one is the Destruction Pokémon Yveltal.

The franchise, known for its promotional activities that include theater gifts, advanced purchase gifts, and pre-release events, will have a lot in store for the fans.

For more info, you may visit the official website (<http://www.pokemon-movie.jp/>).

## ESO CONSOLE VERSIONS TO BE RELEASED ON JUNE

While PC and Mac gamers can already embark on epic adventures on Tamriel this month, console gamers will have to wait until June 2014 to get their fair share of questing.

Bethesda's first venture into MMORPG territory, The Elder Scrolls combines the open world approach of The Elder Scrolls series with multiplayer adventuring, something that has long been sought after by the fans.

The game is set a millennium before the events of the previous installment, The Elder Scrolls V: Skyrim. A time of great crisis, the three main factions – the Aldmeri Dominion, the Daggerfall Covenant, and the Ebonheart Pact – are locked in conflict, while the Daedric Prince Molag Bal seeks to cause chaos.

# FAIRY TAIL RETURNS THIS APRIL

People of Earthland, REJOICE! After a wait that seemed like eons, it is due time that our favorite dragon slayer wizard and his true companions to ride the airwaves once again.

The sixth issue of 2014's Kodansha's Weekly Magazine has announced that the anime adaptation of Fairy Tail will return this April on Tokyo TV and its affiliated channels. The show will be continuing where it last left off, which is at the Grand Magic Games.

Director Shinji Ishihara has expressed his joy in having brought back for the series in April for the fans, and has announced that most of the original cast and production staff have made a comeback, except the character designer, which is now Shinji Takeuchi, who is also the character designer of Gintama. Aside from that, Bridge has replaced Statelight as one of the animation studios for the series.

The official website for the new anime, <http://www.fairytail-tv.com/>, has been released last January 7.

## NEW DRAGON BALL Z KAI ANIME SERIES TO PREMIERE ON APRIL 6

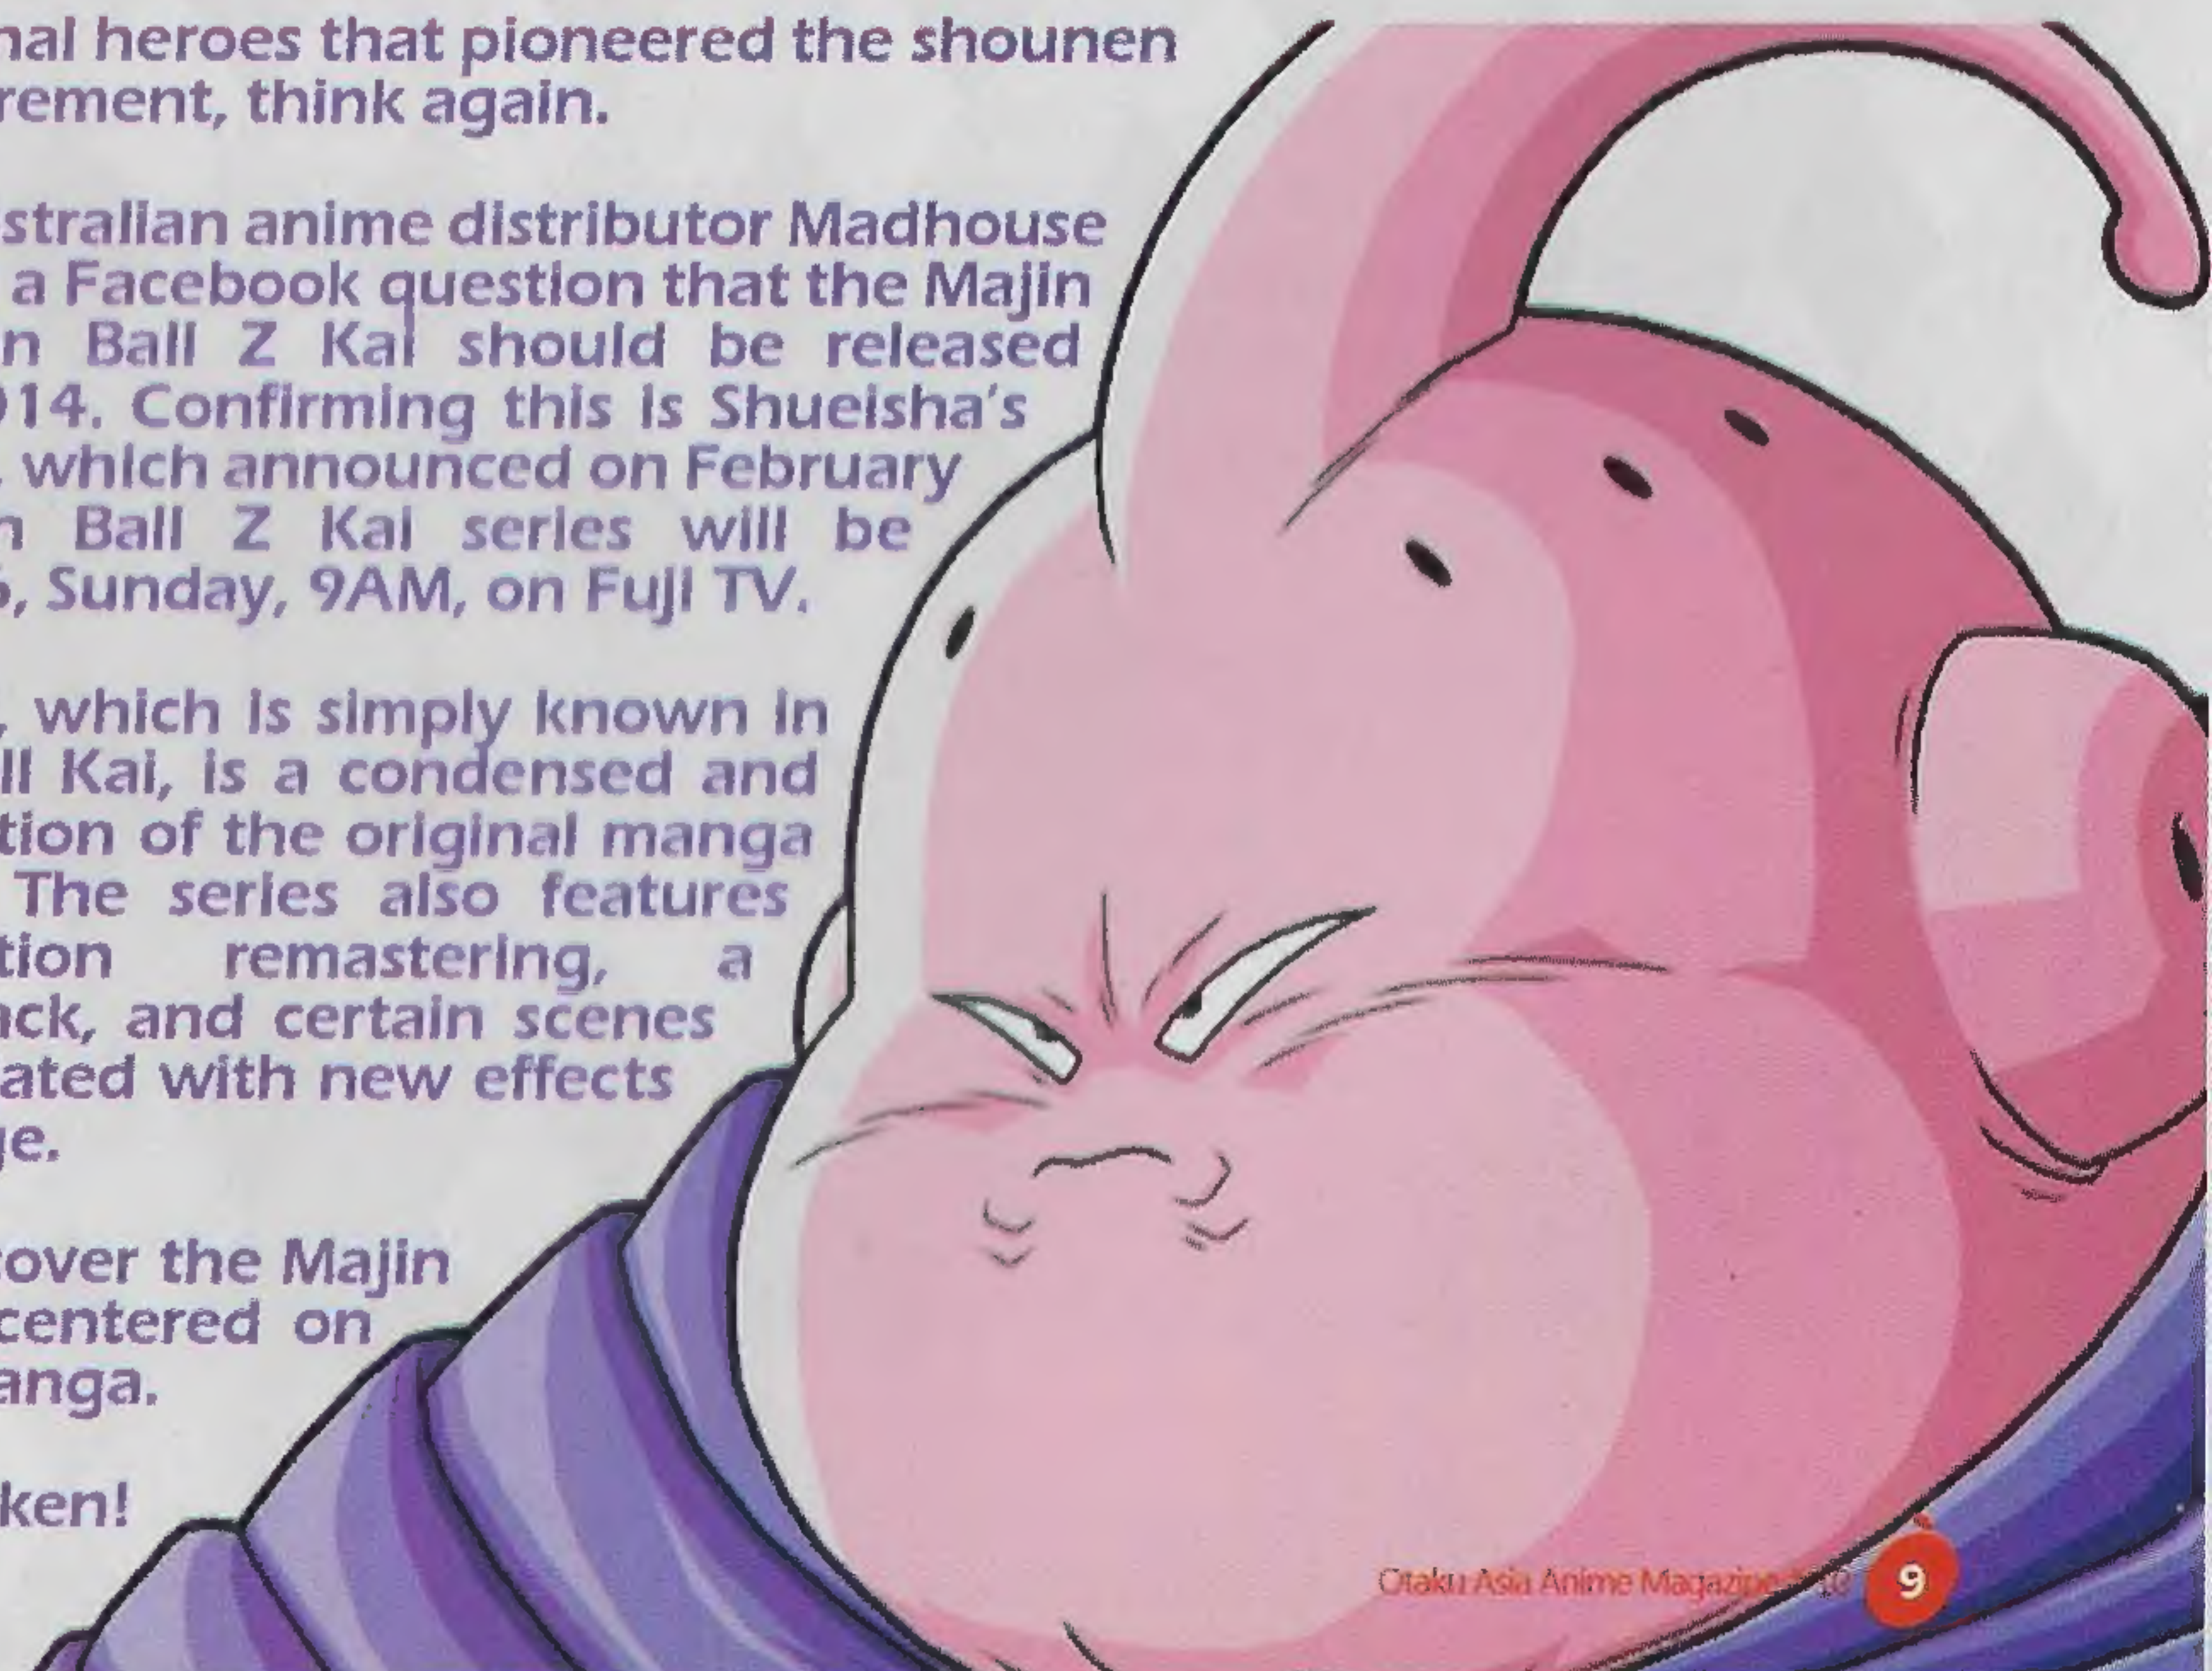

If you think the original heroes that pioneered the shounen genre are still on retirement, think again.

Last November, Australian anime distributor Madhouse stated in response to a Facebook question that the Majin Buu saga of Dragon Ball Z Kai should be released sometime around 2014. Confirming this is Shueisha's April issue of V Jump, which announced on February that a new Dragon Ball Z Kai series will be premiering on April 6, Sunday, 9AM, on Fuji TV.

Dragon Ball Z Kai, which is simply known in Japan as Dragon Ball Kai, is a condensed and more faithful adaptation of the original manga by Akira Toriyama. The series also features digital high-definition remastering, a re-recorded soundtrack, and certain scenes that were either updated with new effects or reanimated footage.

Said new series will cover the Majin Buu saga, which is centered on the final arc of the manga.

Dragon Ball fans awaken!

# JAPAN'S FAMOUS BEEF BOWL IN THE PHILIPPINES

Nihonbashi was a humble fish market Chuo-ku, Tokyo, on the outskirts of Edo Castle. Here, Eikichi Matsuda created the delicious recipe of beef and rice we now know as Gyudon (beef bowl). He started a restaurant and named it after his birthplace, Yoshino-Cho, Osaka that featured affordable and fast meals. This was then a new concept in the Japanese culture and the fishermen and market visitors embraced it. However, in 1923, Japan was hit by the Great Kanto Earthquake and the restaurant, Yoshinoya had to move to Tsukiji where it continued to serve the original beef bowl.

Eikichi Matsuda's son turned the business into a 24-hour restaurant and in 1958, it became a corporate company operating on a chain store system. Yoshinoya has grown to be one of the biggest fast food chains in Japan. To date, there are now more than 1200 outlets around the world.

December 2001, Yoshinoya Century Pacific, Inc., started its first store operation in the Philippines. Currently, there are seven (7) mall stores in Metro Manila and is still growing. Ihanat Foods Corporation's President/ General Manager, Mr. Timothy James G. Tang told Otaku Asia that they are actually planning to have a stand-alone store in Makati and Ortigas.

Yoshinoya in the Philippines has grown to delicious modern Japanese comfort food, from fresh salads, delectable seafood, noodles and great selection of Japanese rice bowls. The Gyudon is available for Php 119. Since 2001, the company with the vision to be the most preferred Japanese restaurant in the country has offered high quality food at affordable prices.

Over the years, Yoshinoya's menu changed to reflect the Philippine consumer. Even the favorite Japanese staple, the classic ramen is now available and is getting attention. With its brighter and orange new interiors, the restaurant is even more welcoming and interesting.

Why don't you head on out to Yoshinoya today and grab some tempura, maybe some kani salad? How about some ramen? Better yet, a super bowl of Gyudon. Like the official Yoshinoya Facebook fan page [www.facebook.com/YoshinoyaPhilippines](http://www.facebook.com/YoshinoyaPhilippines), or call 288-2888 for delivery.

## Welcome to the Club!

Kenji Kazama, a student of Kujou High, believes that he is one of the delinquents in school. He's the leader of the Kazama gang with Yokoshima and Hiroshi Nagayama. Even by being notorious in school, people often forget his name. As the gang was strolling around the school, they saw a smoke in a classroom. They rushed to kill the fire. They find out that the fire was caused by fireworks. It was set off by the Game Development Club.

## D-FRAGMENTS

Suddenly, the members of the club started to attack them, attempting to erase their memories of what happened in the classroom using their elemental abilities. However it was ineffective to Kenji and the members forced him to join the club... violently.

The Game Development Club consists of five members, Roka Shibasaki: the fire and darkness element, Sakura Mizukami: the water element, Chitose Osawa: the mentor of the club and the lightning element.

D-Fragments is an ongoing comedy manga and anime series written by Tomoya Haruno and directed by Seiki Sugawara.

What could be Kenji's element? Let's find out as we follow his adventures as the new member of the Game Development Club and as secrets and revelations about the club will be revealed.

I happen to enter the cosplay community in 2008 and met friends who were into cosplay photography.

I pretty much liked how they took photos of cosplayers, so I decided to try it for myself. Another reason was that cosplaying wasn't really for me.

My earliest photography education came from my friends who were into this genre. They thought me the basic camera settings (ISO, aperture and shutter speed) and basic composition. At first it was pretty tedious. Especially if you haven't read your camera manual (like I did! lol). From then on, I was pretty much on my own. I started to look up in the internet for tips on how to take good portraiture (there are heaps of them in Google!). I also started collecting some photography magazines which contain tips on how to direct your subject/model; best time to shoot outdoors; lenses that work best with portraiture work; and post-process software that can help enhance photos as well as tips and tricks on using them. I did attend some photography workshops and events, and also joined various photography groups. I still do most of the things I written above whenever I have free time! There's always a few new bits and pieces of new information out there! XD

**Tips in photography and cosplay photography, here are some that I think are useful (assuming you already know your basic camera settings and composition rules).**

**1. Do your homework.** It is important to research what cosplay are you shooting. It gives you a better idea how you light your subject and also the appropriate location for the shoot (if you are shooting on location).

**2. Build rapport with your model/ subject.** Your shoot can be more productive if you and the model are comfortable with each other. Small talks are helpful, but know your boundaries. If you aren't "close" with the model, avoid personal topics. You don't want to regret it later. XD

**3. Get it right in camera!** As much as possible, get your composition and exposure right in camera. It's a good way to hone your skills in manipulating the light. It also saves you time in post-processing your photos... XP

**4. Keep on shooting!** Practice makes you better if not perfect! If you learn something from a workshop or from the web, try to apply it in a shoot. You may get it right or wrong the first time, but it will still be a learning opportunity to you all the same. I think experience is very invaluable when it comes to photography.

ESSENTIAL BOX

# Cool down on sun up

by Ann Flores

The best way to get through the summer heat is none other than having a bite of refreshing food and drinks. Why not try these Japanese favorites for a start?

## HIYASHI CHUKA

This is another cold noodle dish made with ramen noodles. With vegetables, omelette strips, and chicken or ham, this dish becomes a colorful attraction to your taste buds. It is also topped with vinegar or sesame soy sauce.

## HIYAYAKKO

If you think you've had enough cold noodles for a summer day, why not try hiyayakko for a side dish? It's a chilled tofu typically topped with green onion, ginger and katsuobushi (bonito fish flakes), plus soy sauce.

奴

## UNAGI NO KABAYAKI

The best part about summer are the grilled food and one of the Japanese grilled favorites for summer is unagi no kabayaki, or glaze-grilled eel. It is famed because it can give a lot of stamina. Unagi refers to the eel that is grilled and steamed, and kabayaki refers to how it is deboned and grilled again after being seasoned with kabayaki or sweet sauce. It is most often served with rice.

The more you know:

The red symbol on the kakigori cup/flag means "ice"

## KAKIGORI

Ever wonder where the Philippine halu-halo came from? It was inspired by no other than kakigori or simply shaved ice with syrup, sweet azuki beans and condensed milk. It can come with different flavors of syrup such as strawberry and (of course) green tea.

There's definitely more food to explore in a Japanese summer, especially those that can be found in festivals such as takoyaki (ball-shaped Japanese pancake with octopus filling) and taiyaki (fish-shaped pastry with hot, sweet filling). Enjoy the summer heat with good and refreshing eat!

# No Sweat Japanese Natsu!

by Ann Flores

Got that sticky and sweaty hot summer feeling? Why not make it fun and worthwhile like the Japanese do?

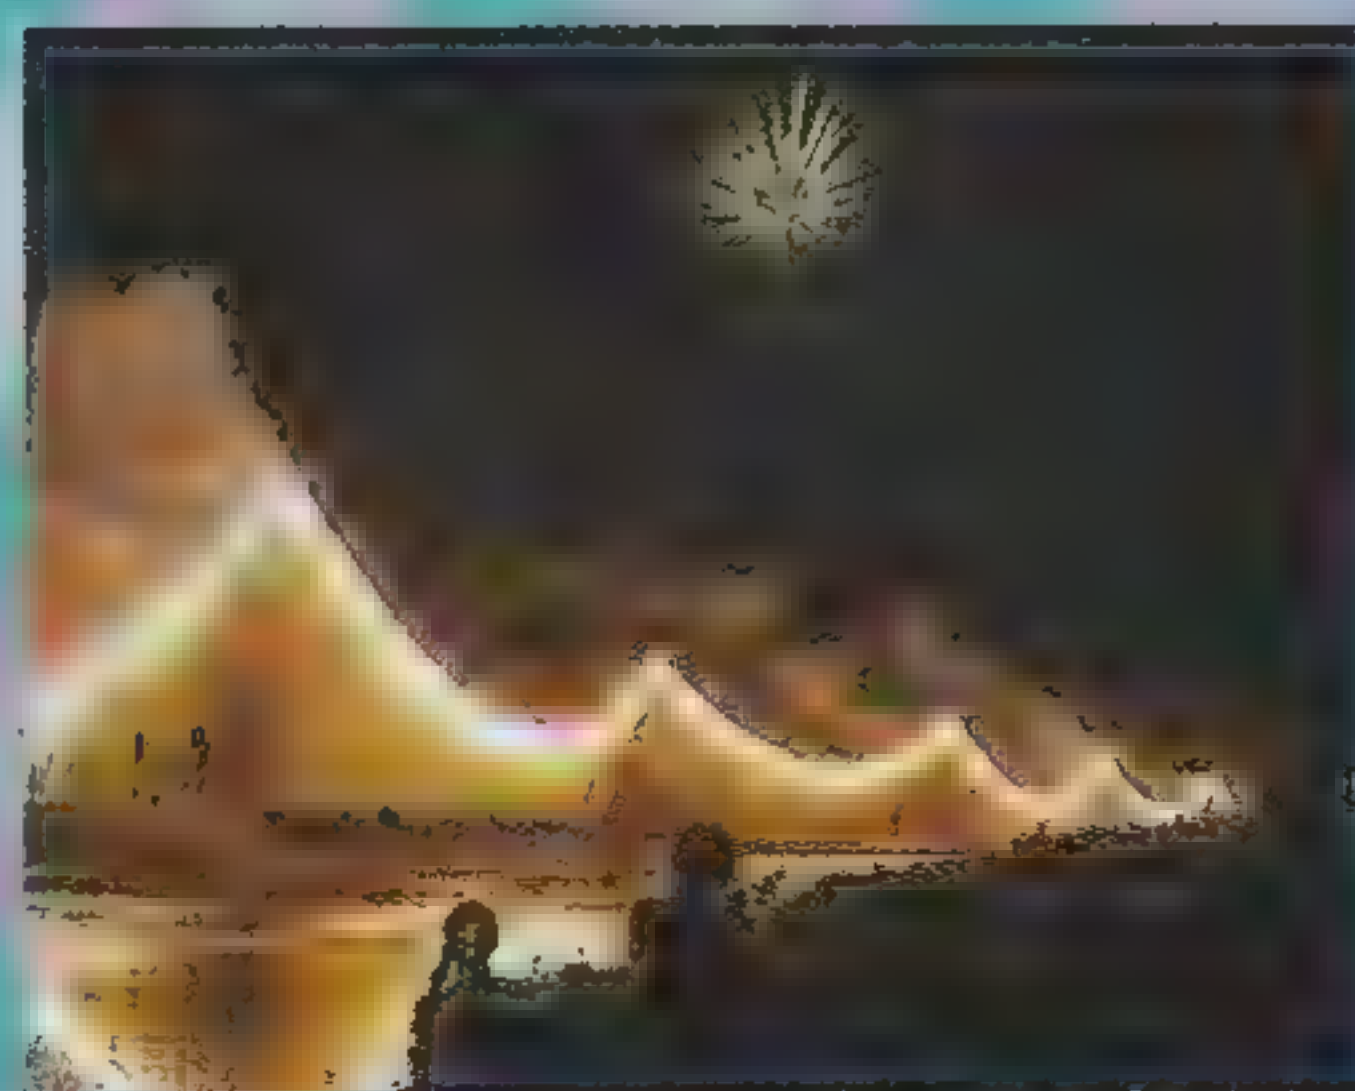

Osaka to the river.

If you don't like to join the processions, you'd probably enjoy having a picnic in parks while witnessing flower festivals like Nakafurano Lavender Festival.

Summer or natsu in Japan happens during June to August, and is the season where festivals or matsuri are found left and right. Kyoto's Gion Matsuri is a festival of the Yasaka Shrine where the main highlight is the traditional procession of floats that resemble temples. Then, there's also Tenjin Matsuri, a festival of the Tenmangu Shrine where they offer a feast of loud-beating drums during the parade of their deity of scholarship, Sugawara Michizane from the streets of

No matsuri or natsu is ever complete without the fireworks or hanabi. Expect the night sky to be painted with colorful lights during summer. Enjoy this scenic view after satisfying your senses with the food and souvenirs, as well as festival games found all over the place.

Aside from festivals, summer also means dipping into the cool water! In Japan, many water parks are open to gratify your body's need to cool down and get rid of the sticky feeling. Or why not go to the beach to swim and build sand castles?

An action figure hobbyist gave some tips how to modify and personalize your old action figure. There were KPOP dance battle and JPOP singing contest and of course, lots of cosplayers and toy collectors. Even Alodia Gosiengfiao was spotted interviewing guests wearing a paperbag on her head.

Now on it's 8th year, TAGCOM featured a collection of personalized action figure.

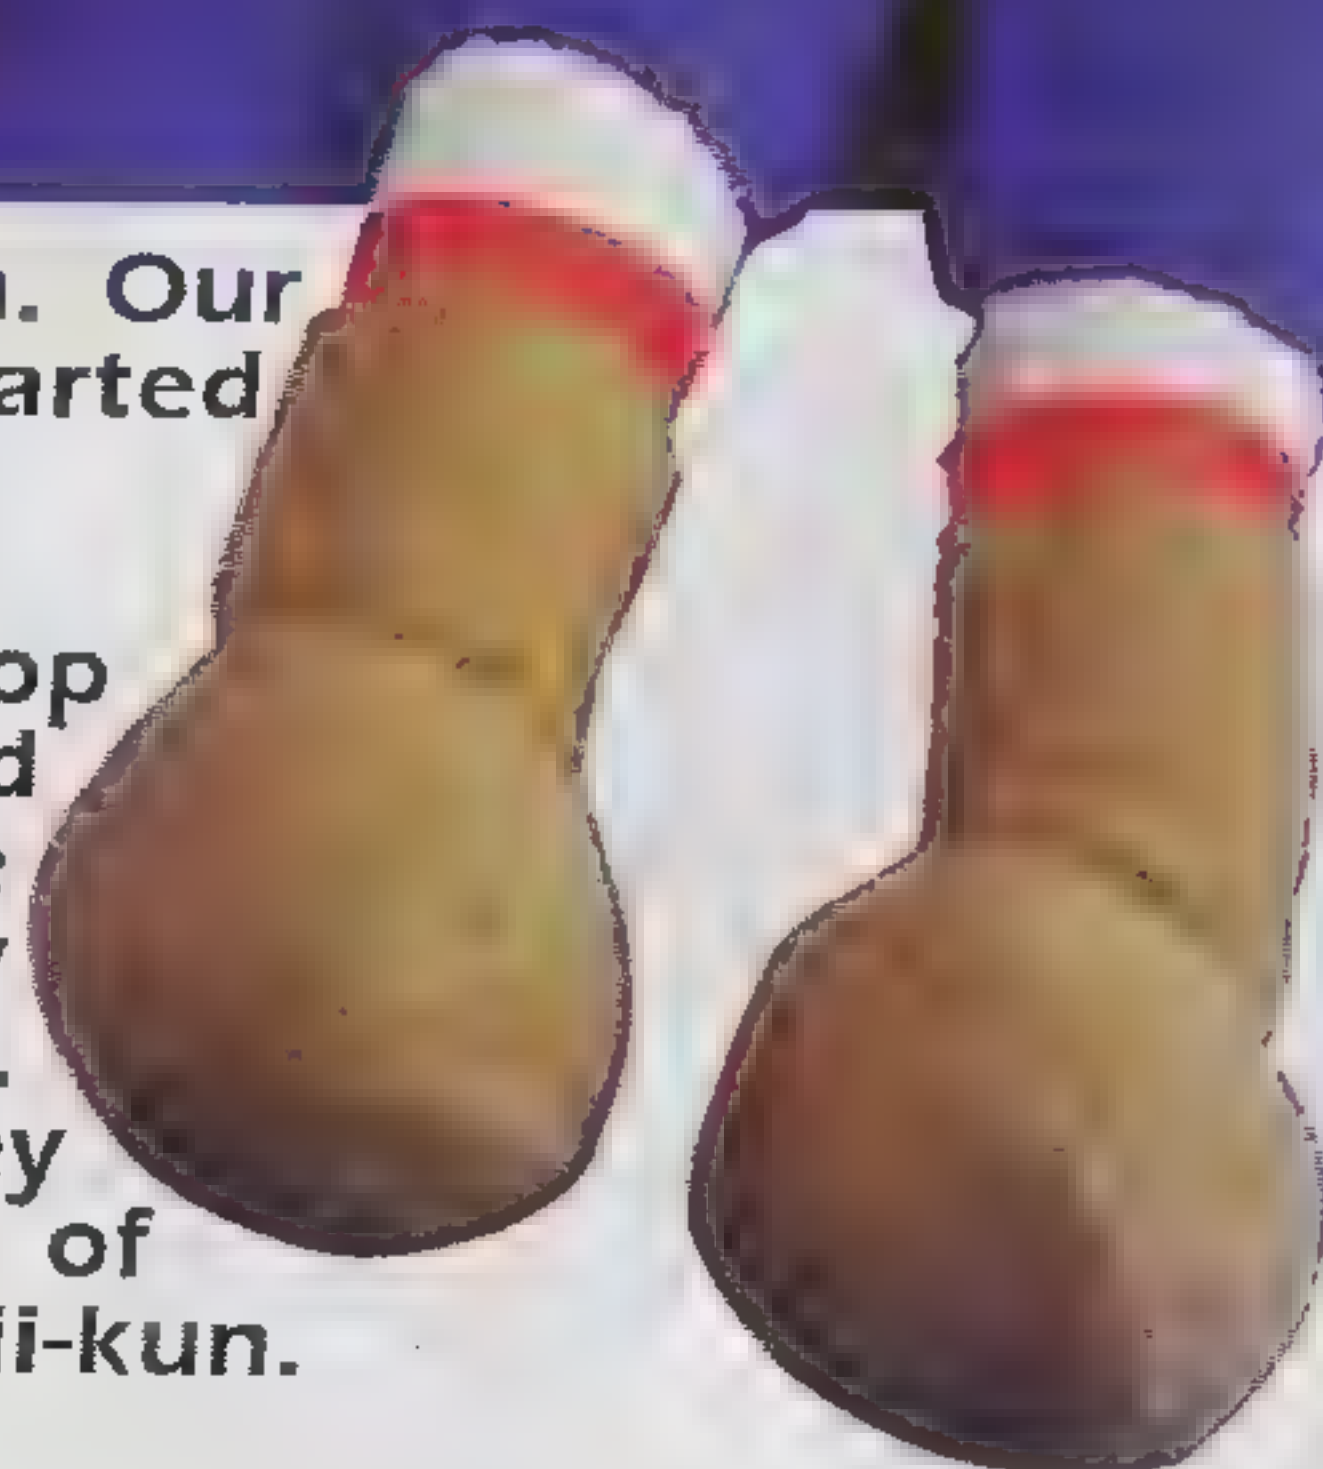

**perkEE**  
personalized items

A year ago, Otaku Asia was born. Our journey truly took off when we started joining and attending events.

In one of those events we saw a shop with felt plushies, beanies and cellphone cases. We searched the shop online and we saw that they can customize any of their products. From bags to hats! We saw that they made a dolls too and we thought of our mascots, Ochibi-sama and Sochii-kun.

The shop was PERKEE Personalized Items. We asked for them to make the dolls. They happily agreed and we got to meet the awesome owner and artist of PerkEE, Yanna Marie P. Polidario and we asked her a few questions while she made the dolls for us.

The dolls were raffled away on our FB page, [facebook.com/otakuasiaanimemagazine](https://www.facebook.com/otakuasiaanimemagazine)

## how Sochii-kun was made (+ dialogue between Yanna and Kanddy)

### 1. Prepare materials

**materials:**  
fleece cloth  
felt cloth  
doll pattern  
pair of scissors  
needle and thread  
marker  
fiber fill  
fabric glue

I started the shop after I graduated from TUP with a degree in Fine Arts. We started with gameboy wallets, t-shirts. What's special in PerkEE is that we can personalize anything for you. Write your name on a shirt.

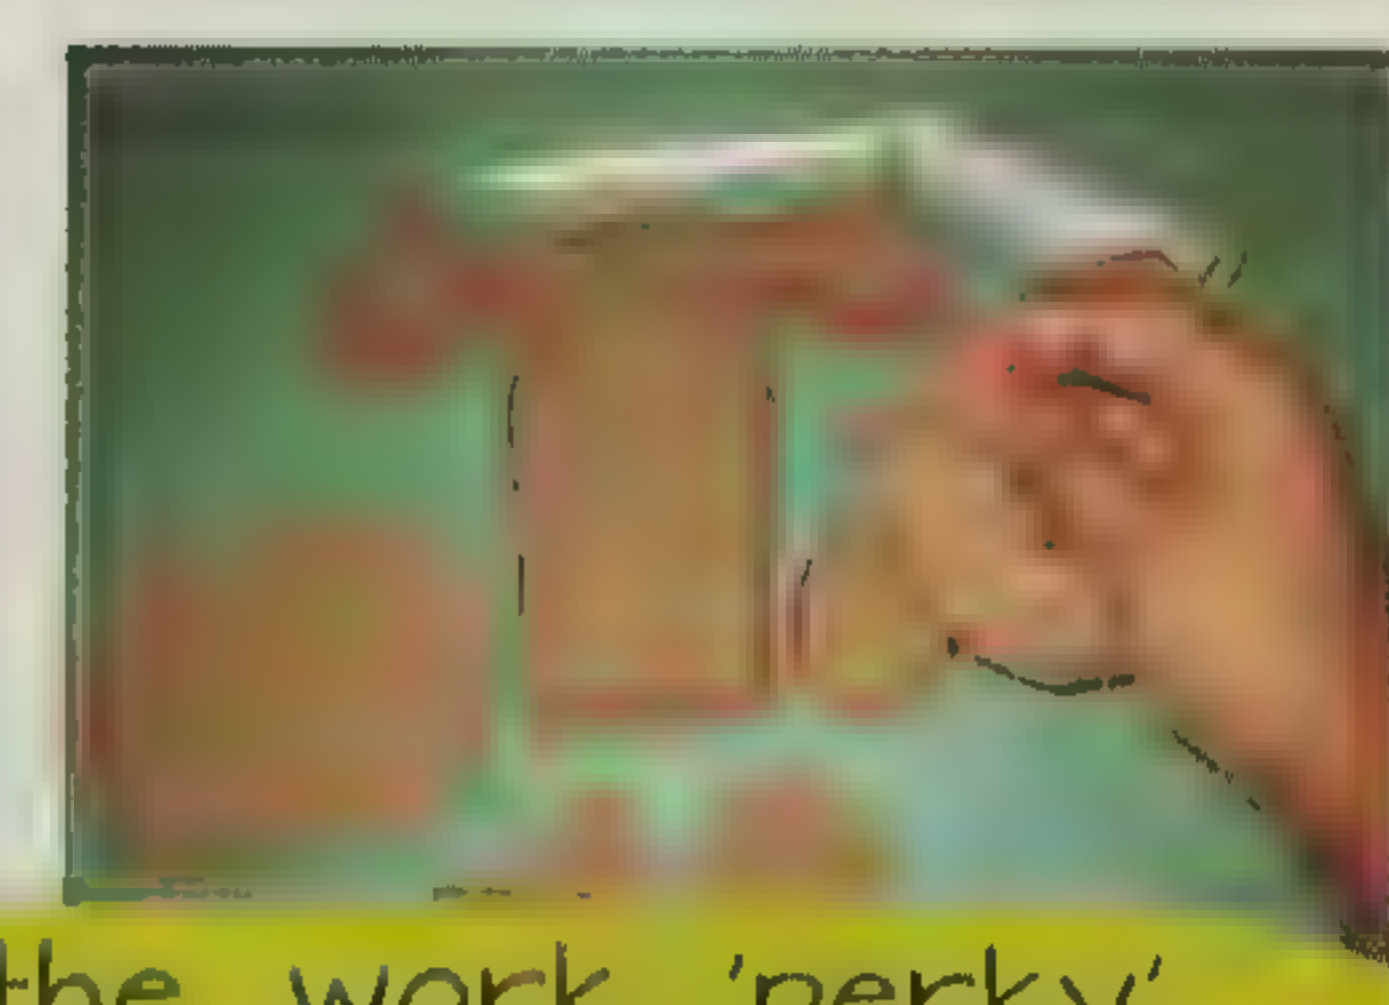

How about your name? PerkEE is a really cute name but does it mean something?

kanddy

2 & 3. Trace your doll pattern on the negative side of a Skin Tone Fleece Cloth and cut it all out.

4. A. Arrange your Cut outs. Put the Positive sides face to face and start sewing the edges. (Sew your fabric on the negative side)

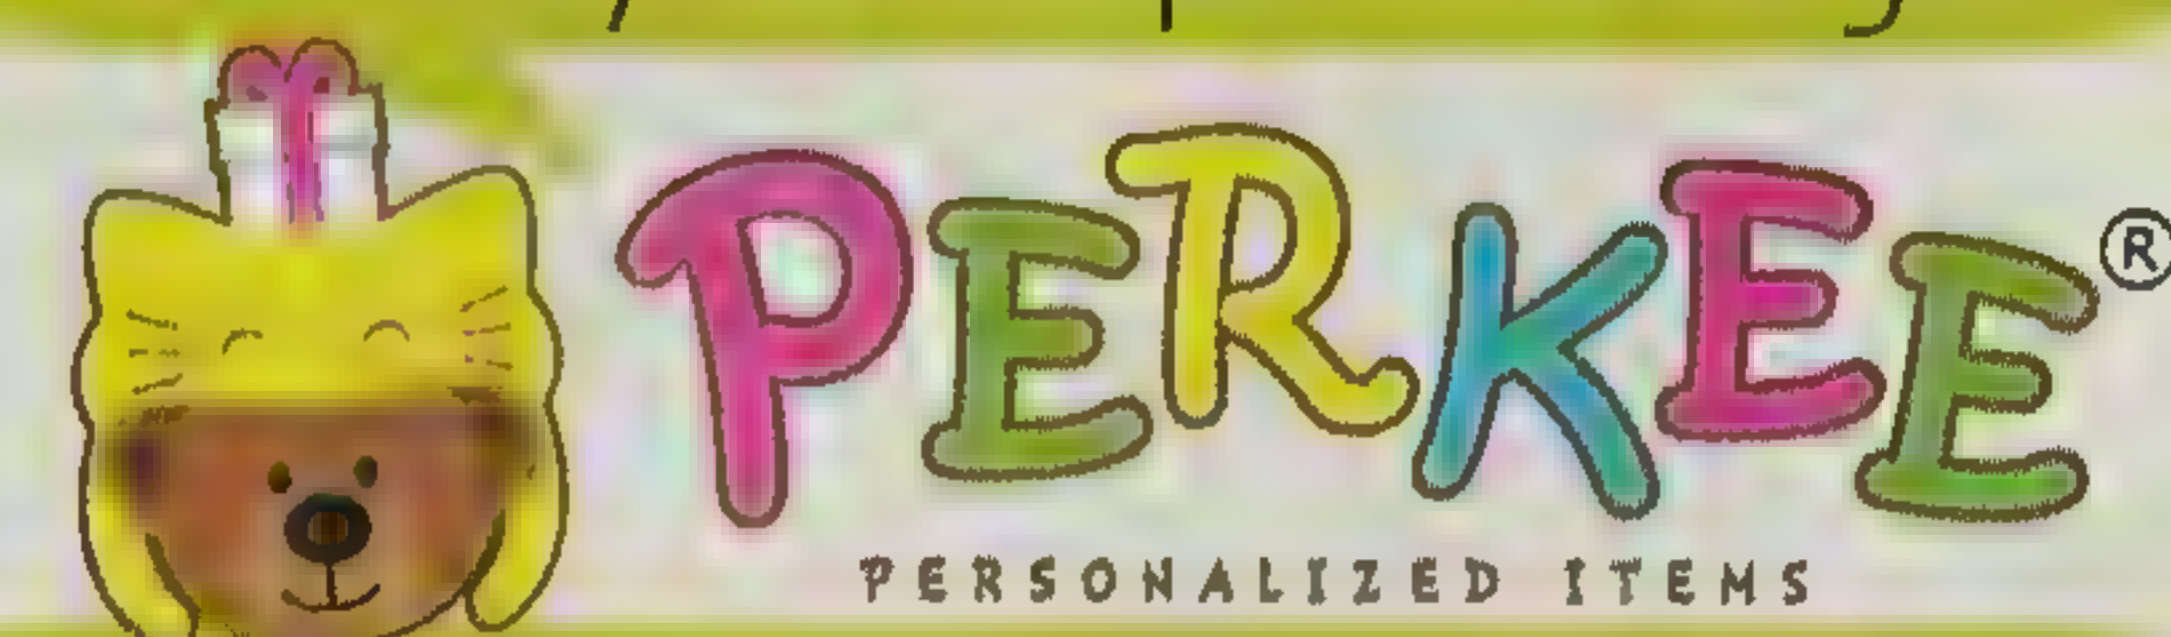

4. B. Put Fiber Fill before you close the entire doll, and there you go, have your Doll Base :D

Awesome! BJ looks like he's having fun with that beannie

We'll continue the tutorial + interview on page 26-27 of this magazine :D

It's from the work 'perky' meaning lively. I just changed the spelling. Changing the y to ee. We recently revamped the logo

The bear mascot's name is BJ

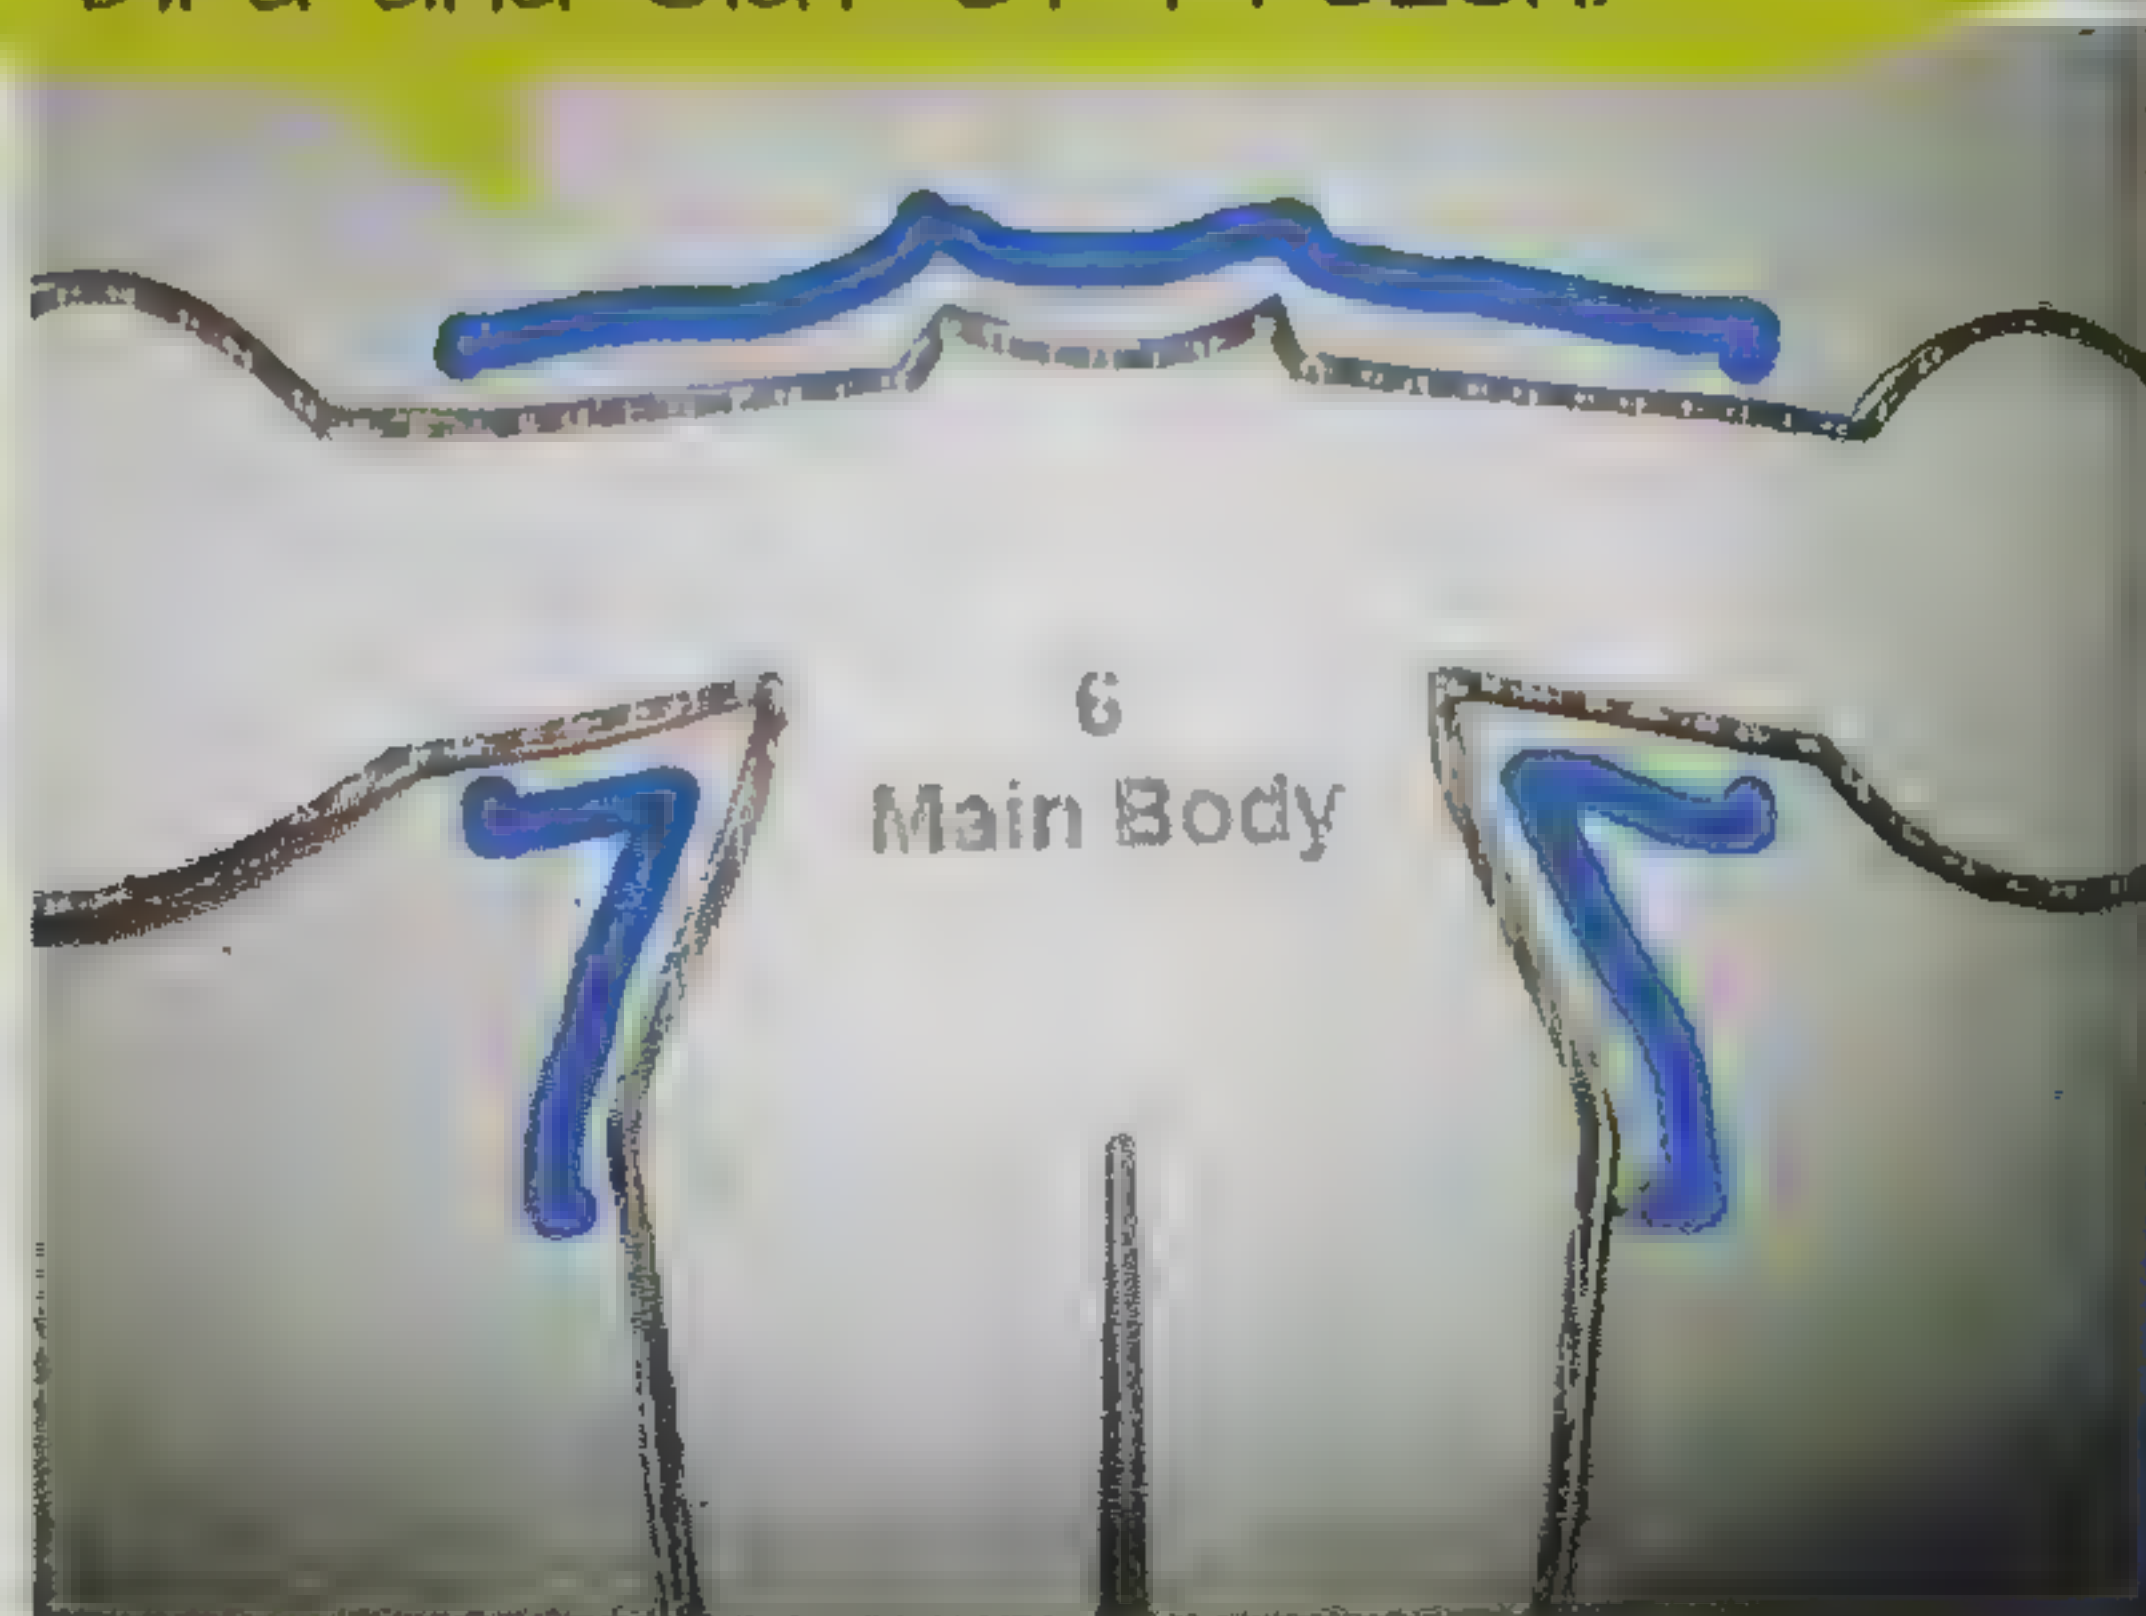

Perkee personalized items have grown and changed through the years. We still accept personalization but we offer more choices. Bags, hats, plushies, purse, cellphone cases!

Our products are 80% felt and fleece products.

That's great, Miss Yanna!

How do you choose which to make into hats, bags and plushies?

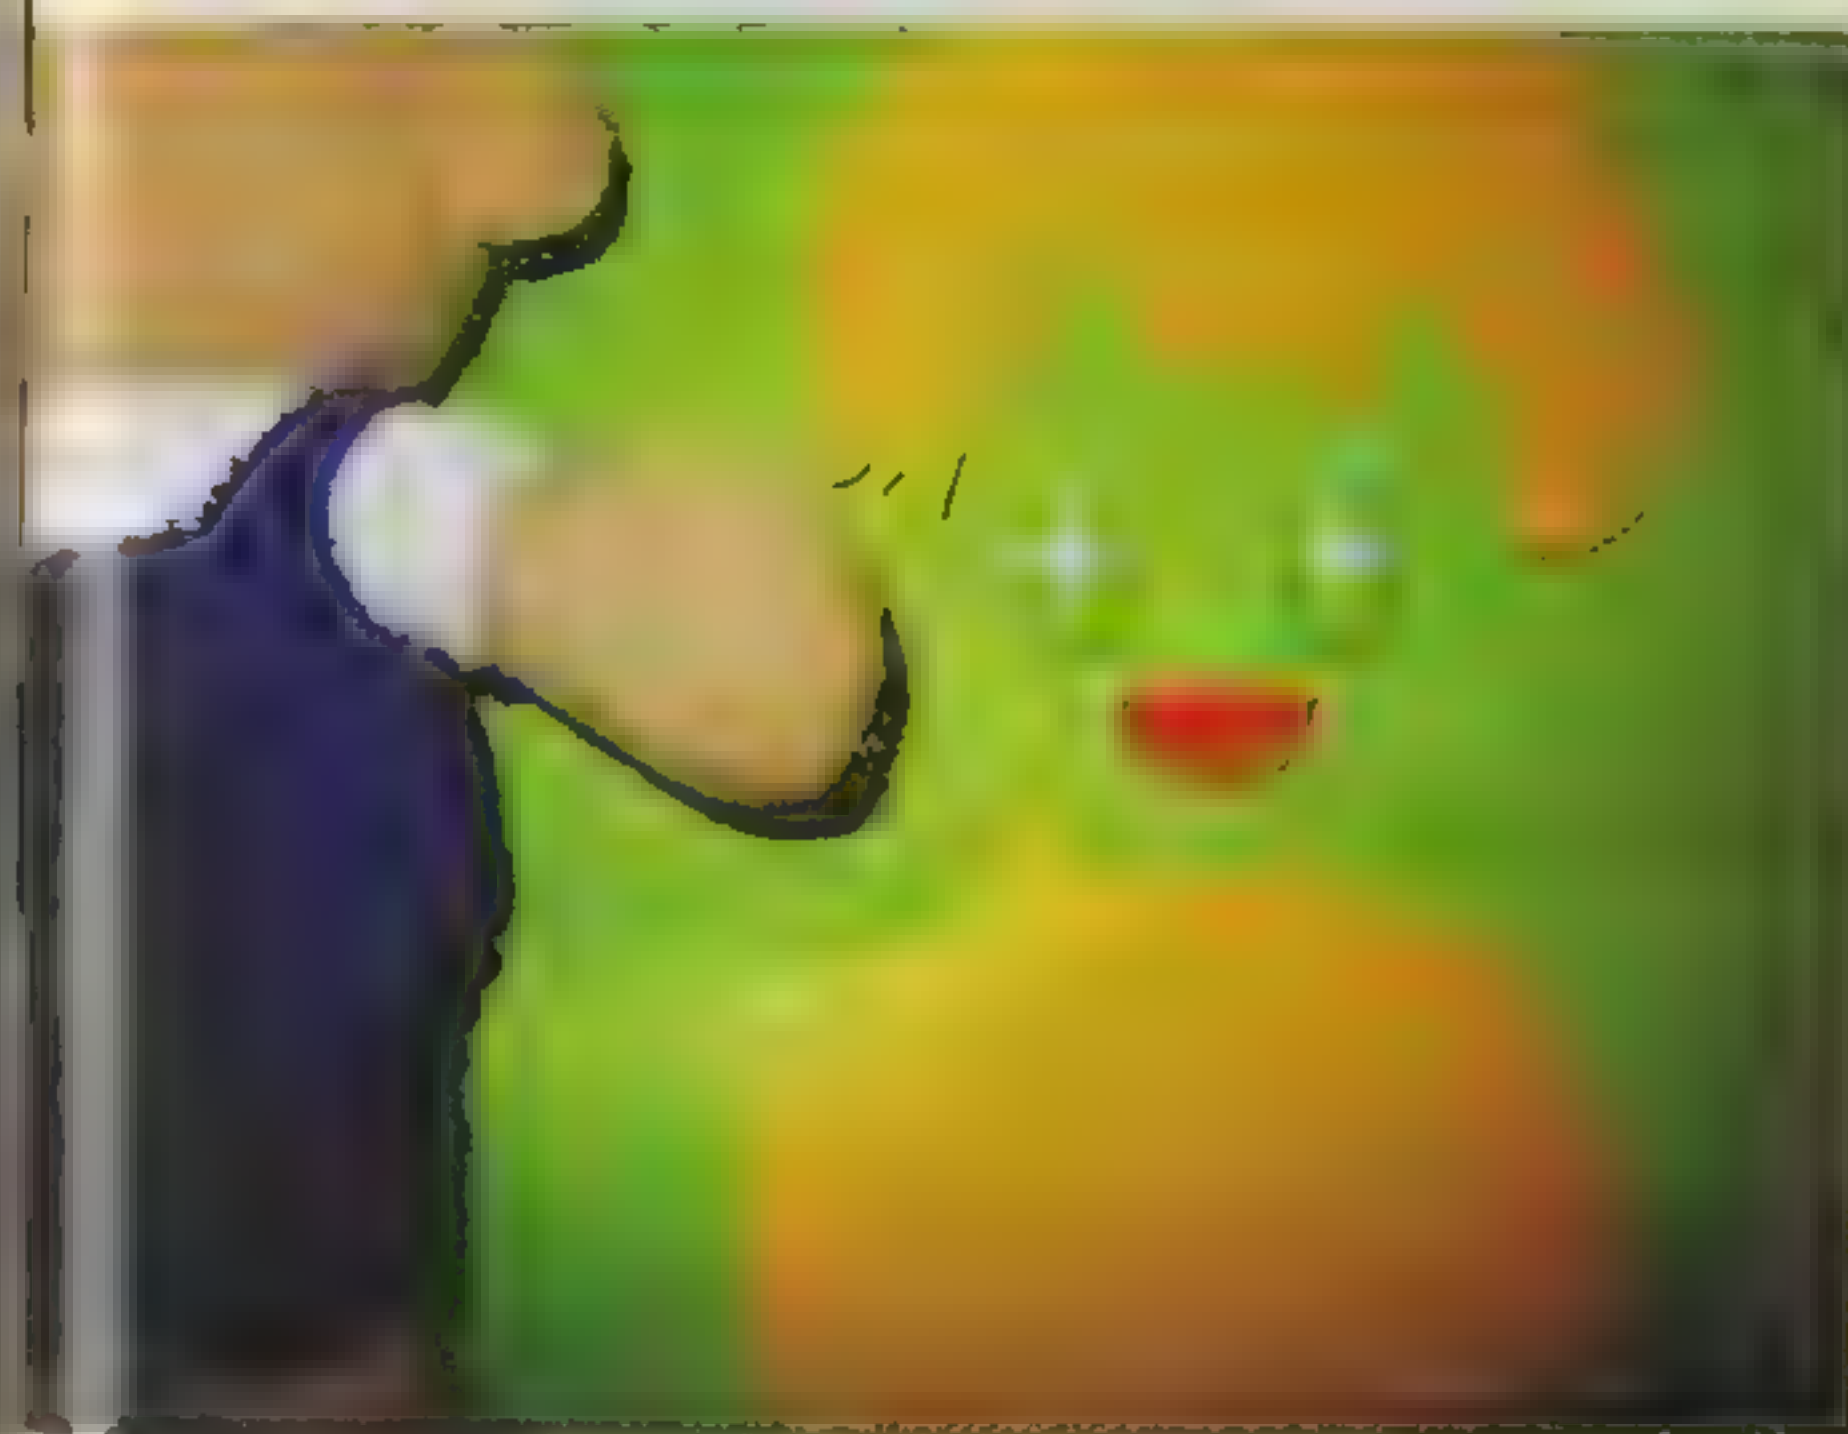

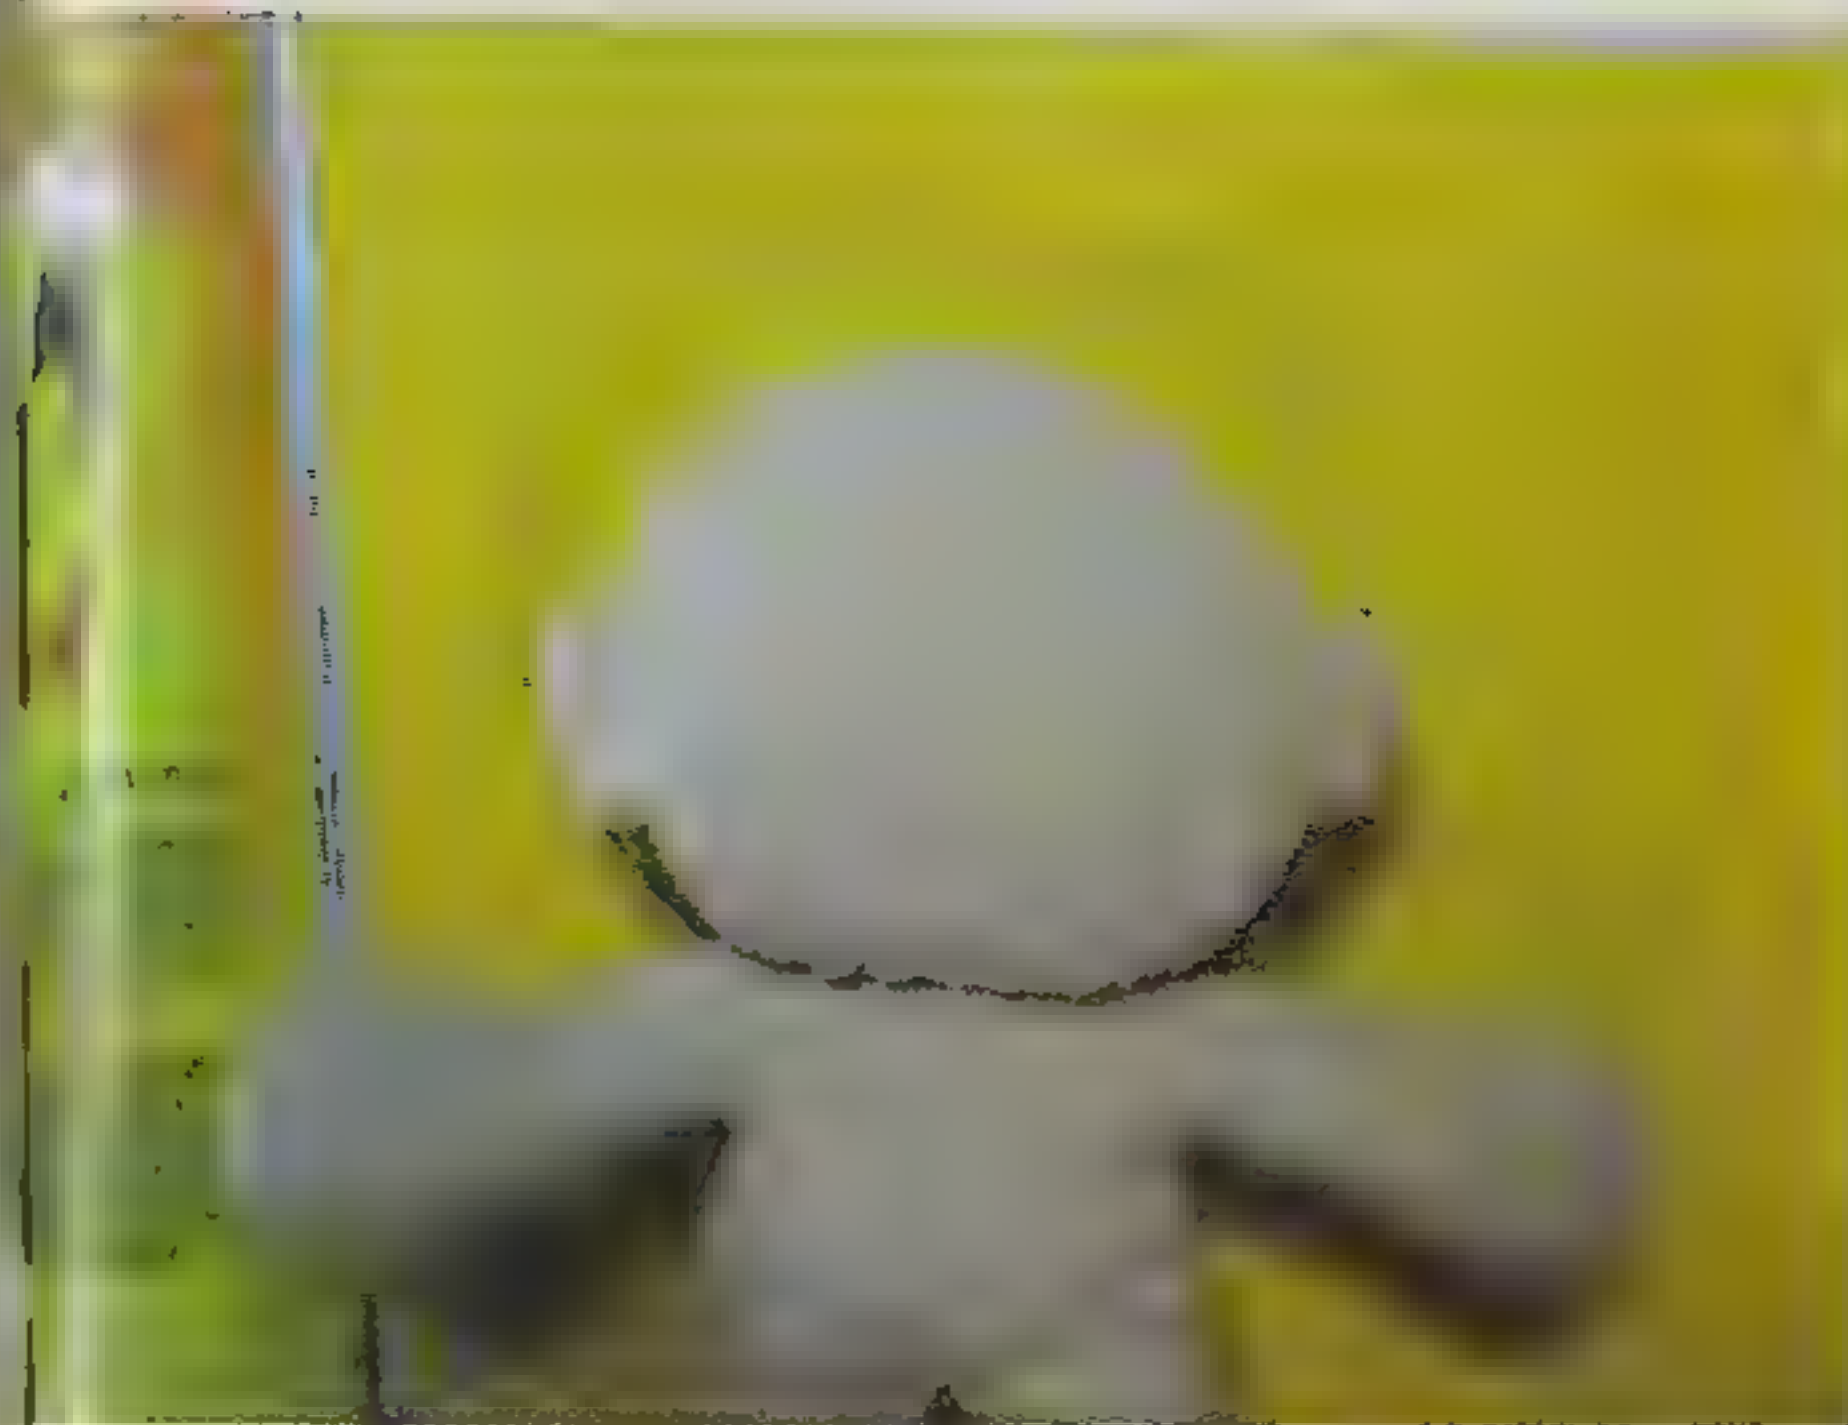

At first it was based on the orders and requests, but now with Facebook and media, we know what's popular. Like Flappy bird and Olaf of Frozen.

5. A. Pick the colors of your Character's clothes. It is advisable to use Fleece Cloth also so the clothes will be a bit stretchable.

5. B. You can use your Doll Pattern to make your doll's clothes. But make sure you put at least 0.5 to 1 centimeter allowance from the pattern. This is because your doll is already stuffed, that makes it a little bigger now.

6-7. Cut out your doll's clothes and start sewing it to your doll.

8. For finale, let's work on your doll's details! :D (Hair, Eyes, Mouth, and even other details of its clothes..) You can use felt cloth in here.

On its hair, Draw at least 1 centimeter bigger than your doll's head.

9. Cut the details.

The day that I've decided that I want to portray Zoro.

**How long have you been doing cosplay props?**

I started last September 2012, so it has been 1 year and 6 months already.

What is the most challenging and difficult cosplay prop commission you have done and why?

The most challenging is my own Zero (Megaman) costume.

Comparing from when you started cosplaying and now, what changes happened to you?

Many!!! Some of them is to be known among cosplayers and I have gained many friends in the cosplay community.

Who is your favorite character that you have cosplayed and why?

My All Time Favorite is Zoro from One Piece because Zoro's Attitude is similar to me :) People mostly see me as simple and quiet person but once you get to know the real me, I'm really friendly and a joker.

# CAVITE CITY COSFEST

Cosplay has become a very popular hobby in the Philippines and even though Manila is the place where most events were held, we musn't forget the ones outside Manila.

Cavite City Cosfest and ultimately known as C3 was presented by Subsonic Forge and Anime Carousel though the efforts of Solido Caviteño,

Since Cavite City is a peninsula, it really takes time to get in there in land if you're from Manila.

There was a photobooth, battle of the bands and cosplay competitions. The cosplay competition focuses on Garena's Elsword (1st day) and League of Legends (2nd day).

# DON'T HATE THE GAME LOVE THE PLAYERS!

The world is considered a "worthless game" to a very famous online gamer who always prioritizes gaming and does nothing on his life but to play online games. But if this gamer is always on the top, what kind of life can you imagine this guy has? Maybe you're thinking of a hikikomori. **No Game No Life** is a story of a famous online gamer who will engage on an thrilling life of an online game that would be put to reality.

Urban legend speak of a person who has been topping the rankings of hundreds of online games. His name is [ ]. Yes, just a spacebar.

[ ] is neither a he nor just a person. You see, [ ] is actually a sibling duo: an eleven year-old girl, **Shiro** and her eighteen year-old brother, **Sora**. Shut-ins abandoned by their parents at a young age, they hate reality with a passion, so much so that they believe that they are born into the wrong world.

One day, they received an email asking them if they want to be in a new and exciting realm. They're invited to by a young boy who claimed himself as "**God**" and engaged them into a fantasy world where violence and all conflict would be decided through a game – and the two consider it the perfect world that they want to have.

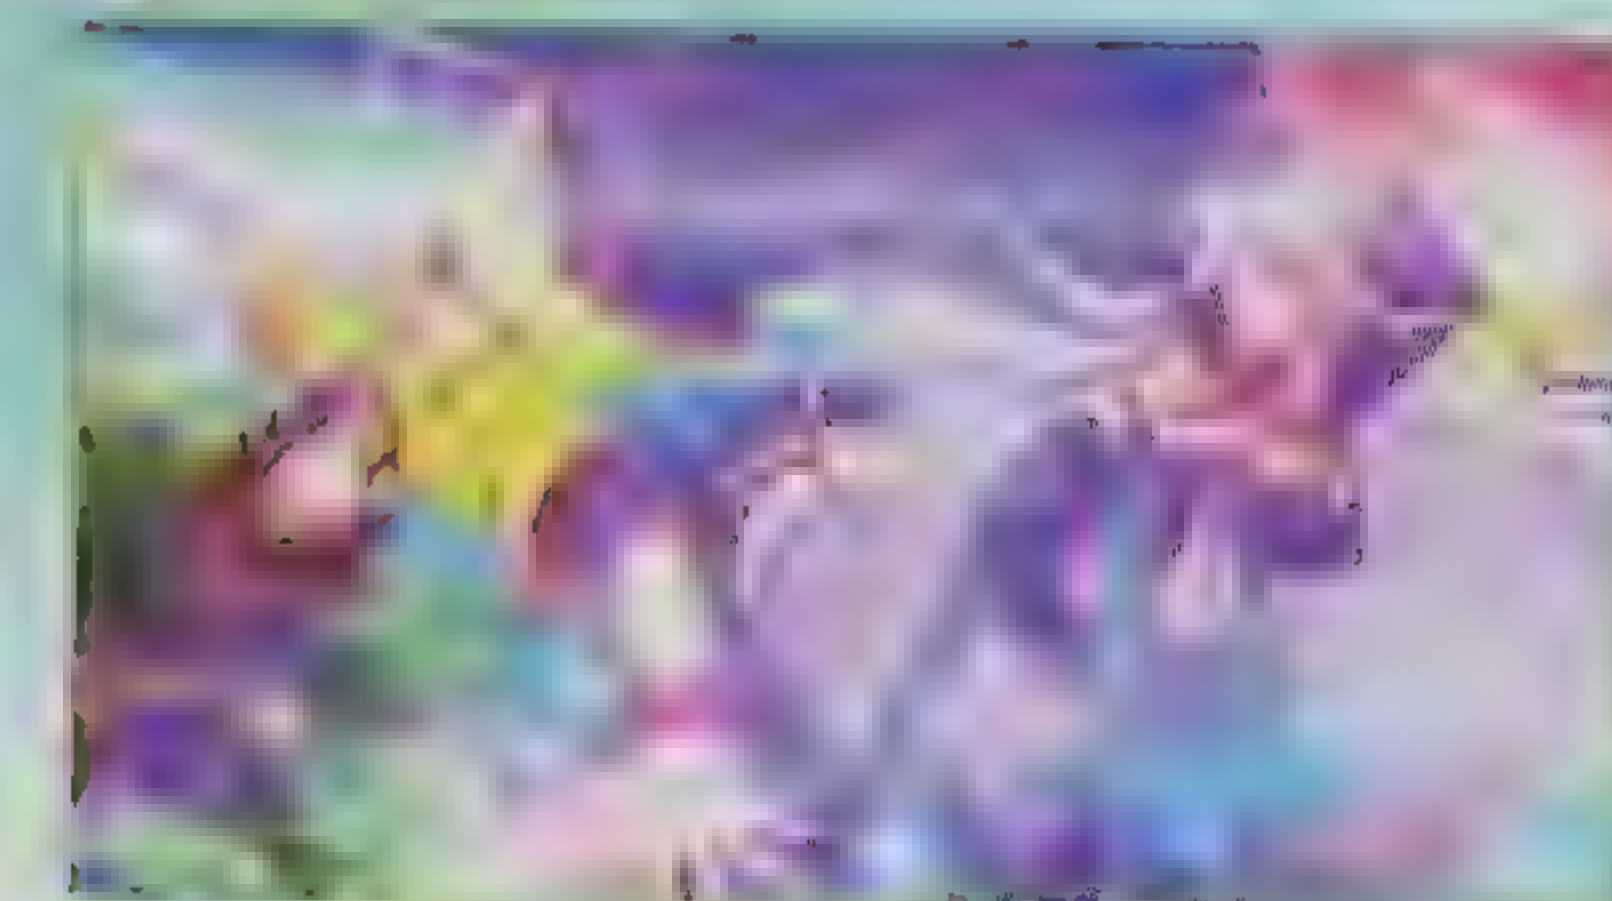

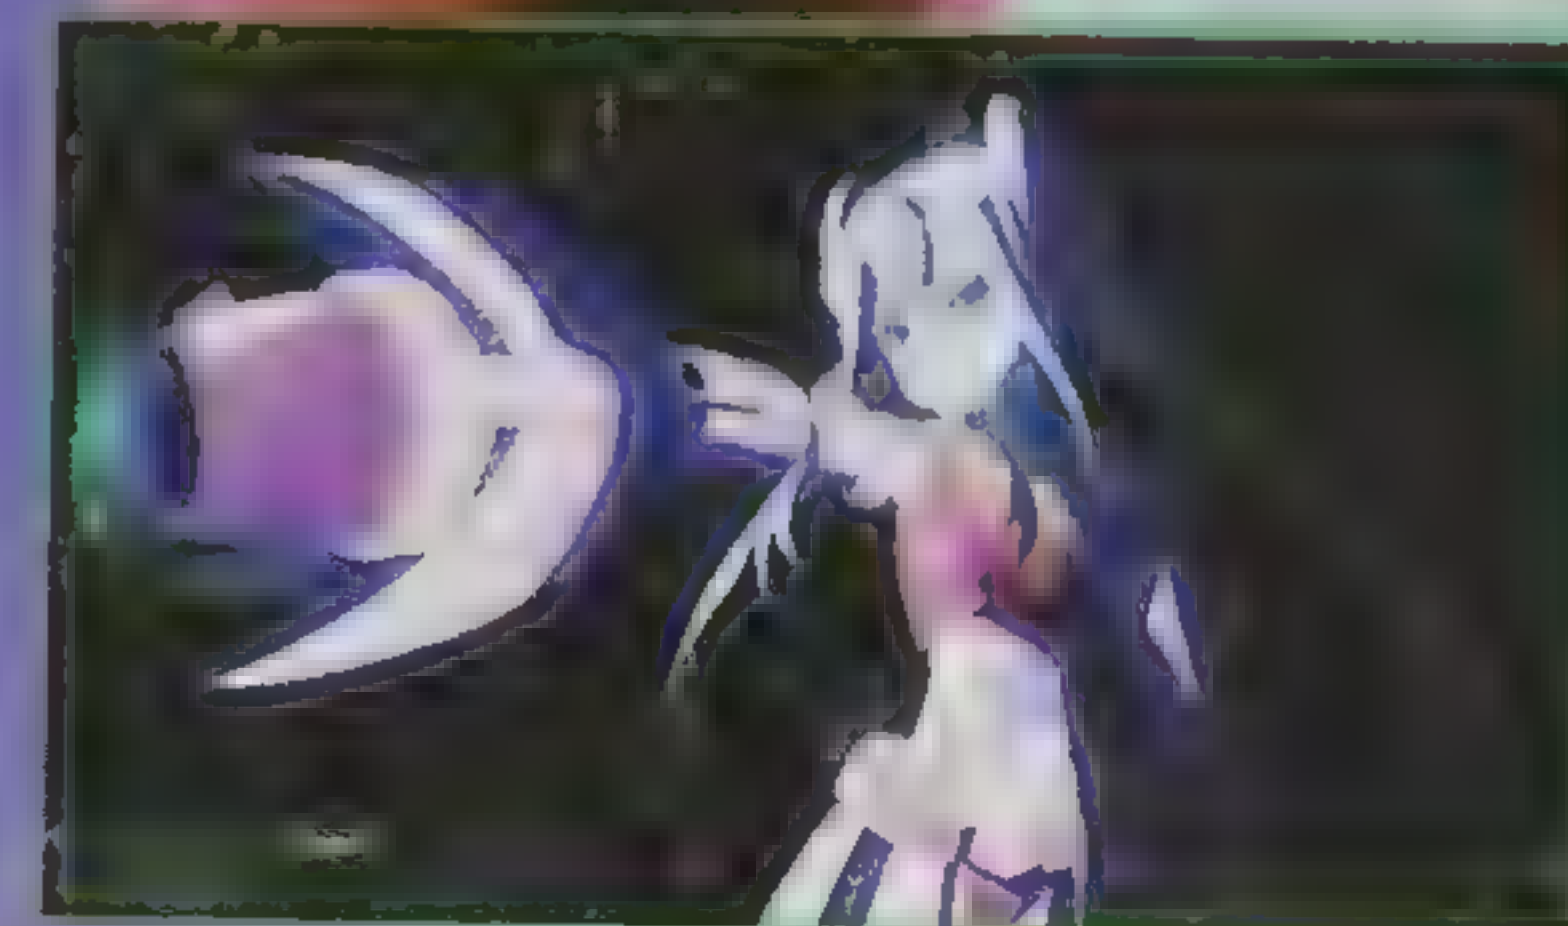

However, it's not as peachy as it sounds, for humans in this new world, known as Imanity, are on a horrible losing streak against other races to occupy **Elcrae**, the smallest territory in all the land. Sounds like a bad deal for the two of them, right?

Well, if you're [ ], there's no such thing as bad deals, only challenging games. And the greater the challenge, the greater the glory.

The art is just mesmerizing, as it gives a surreal feel not only of its characters but also of its world. The colors, always vivid and bright that it's almost neon, adds a sense of excitement to its viewers. The characters have very fluid movement, making their actions very natural and believable. Nothing less from **Madhouse Animation Studios**.

The premise is definitely not new, but the show gives the overused "stuck in a new world" plot a new light thanks to its two protagonists and setting. Instead of the nice dumb hero who's trying to save the world, we get two not-so-nice super-smart siblings who are just playing games for the love of it, as well as to prove they are the best in the business. In fact, they are so good that it's actually safe to assume that they'll win most of the time because of their own skill, not because of plot armor. Instead, the show makes the audience guess on how the two will win. In the anime playing games would cease to become a mere form of entertainment and instead become a serious matter.

However, despite putting a heavier tone on the game-playing part of the plot, it doesn't really take away the fun and excitement of seeing our heroes outplay and outwit their opponents in their own game with style and flair.

As an additional bonus, through Shiro and Sora's awesome analytical skills and high-level intelligence, different game theories, techniques, concepts, and other cool trivia are explained and broken down. With this, the viewer gets additional knowledge.

Another plus for the anime is the complexity of its two leads and their relationship with each other, as Shiro and Sora aren't exactly who they project themselves to be. Even though they always seem cool and collected on the outside, Sora is socially inept, while Shiro is dependent on her older brother to a fault. However, said flaws also highlight the pair's need for symbiotic relationship, as they have to cover each other's weaknesses not only in the games they play, but also in the life they live.

With stylish animation that will leave you hyped beyond belief, awesomely colorful and multi-faceted leads, a well-built world that serves as not only a setting but also an analysis of how life run by games would be like, and exciting games that will blow you away and make you put on your thinking cap, No Game No Life will be your life this month.

# PLAYER SELECT

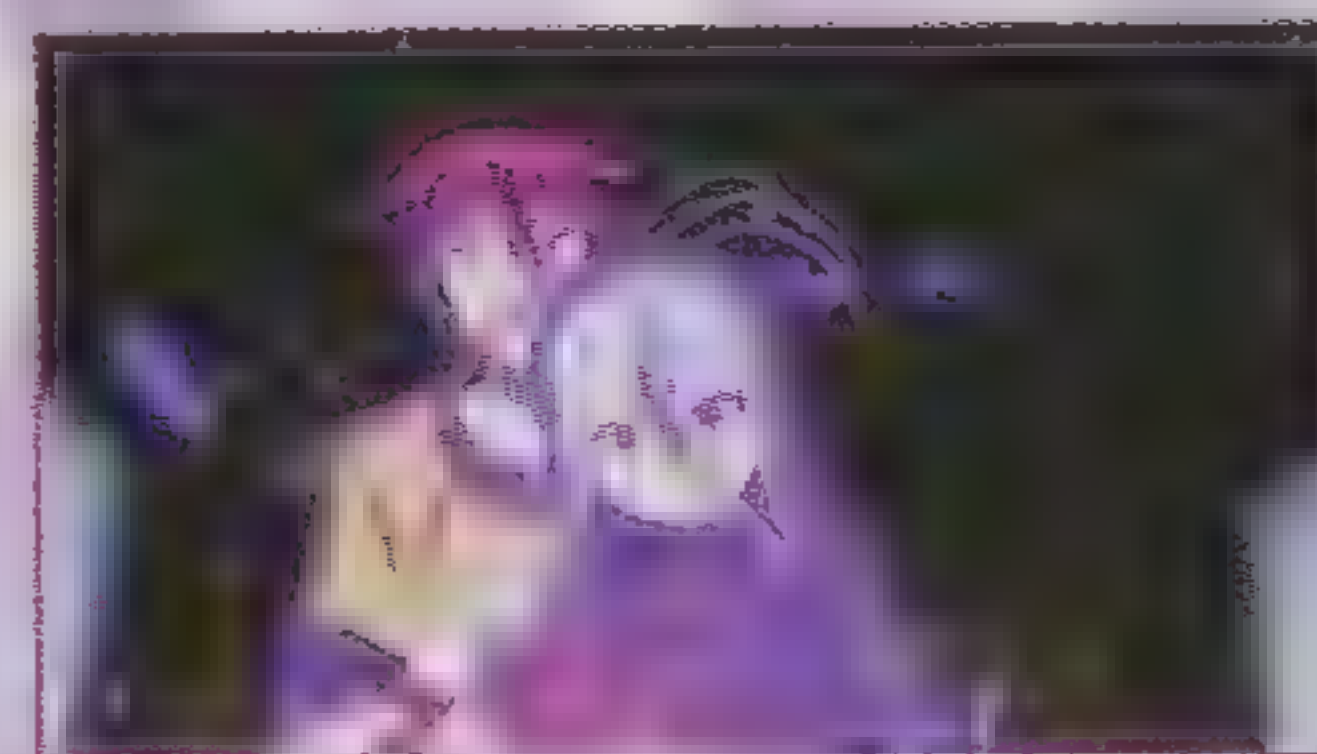

## SORA

The male and older half of [ ]. Being a recluse, he's never had a girlfriend, let alone friends. Nevertheless, he's more than content rocking the online gaming world with his sister, Shiro. Confident in his and his sister's abilities almost to the point of conceit, he can play mind games with his opponents as he snidely smiles. However, he's still got a bit of a nice side, as he's more than willing to help Stephanie Dora and the rest of Imanity claim back the land. Of course, he's got his ulterior motive, which is to be the best there is.

## SHIRO

She is the female and younger half of [ ]. A natural genius, she is good not only in games, but also in mathematics and languages. Although she is stoic most of the time, she definitely cannot hide her soft spot from her brother, who frequently dotes on her. Because of this, she has grown too needy of him. Still, she is an important part of [ ], so Sora keeps it that way, just how he likes it.

## STEPHANIE DORA

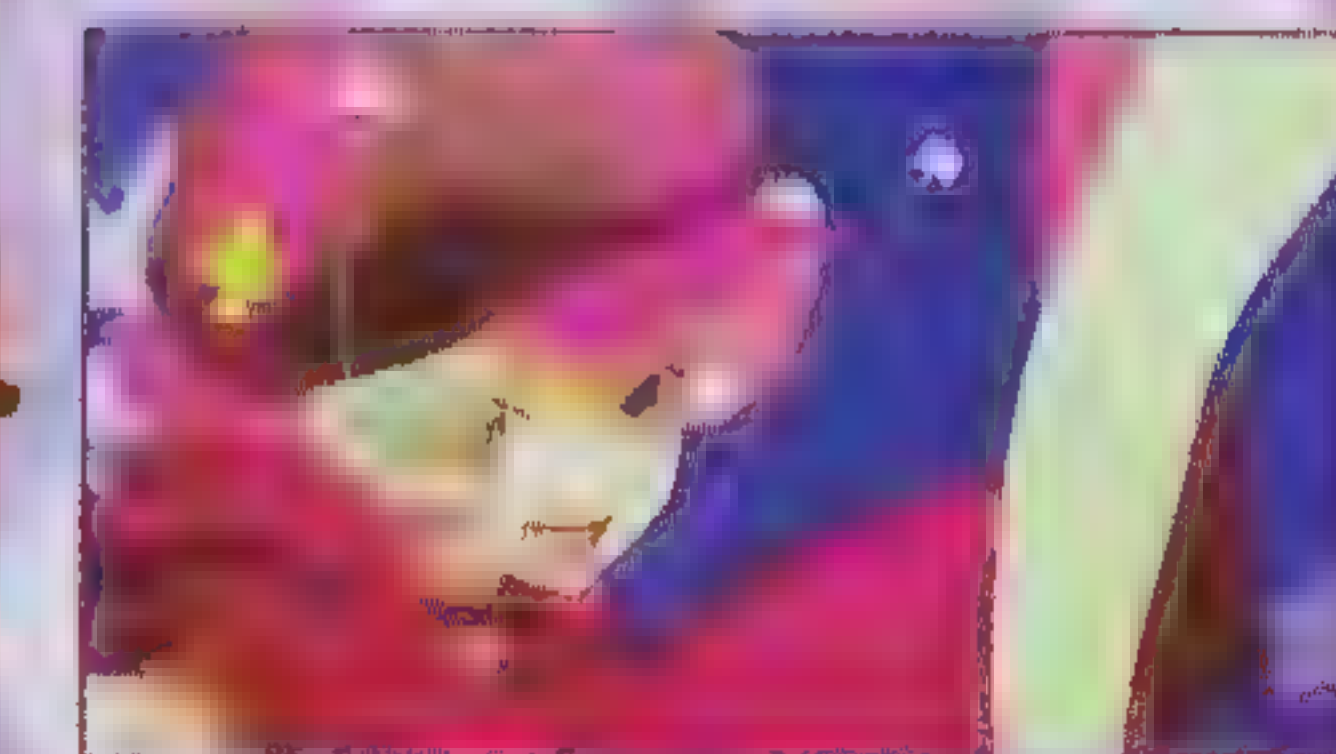

Stephanie is the granddaughter of the old king of Elcrae. Despite getting exemplary grades in her formal education, she isn't talented in playing games, as she lost in a card tournament for the throne of the kingdom. Thankfully, she met [ ]. Not only did she meet them, she has also fallen in love with Sora against her will, as it was one of his conditions. However, she does not seem to mind, because she has found hope for Imanity in our unlikely heroes.

## TET

Referred to as "God", he is the one responsible for bringing Sora and Shiro to the other world. Aside from the fact that he's a powerful deity who oversees the realm and enforces its unbreakable rules, not much is known about him.

In the internet, we love including emoticons in messages when relaying a juicy gossip to a friend, when texting your mom that you're already on your way home, or when telling your special someone how you miss them. # TIGER & BUNNY

## The Beginning

by Lizzie

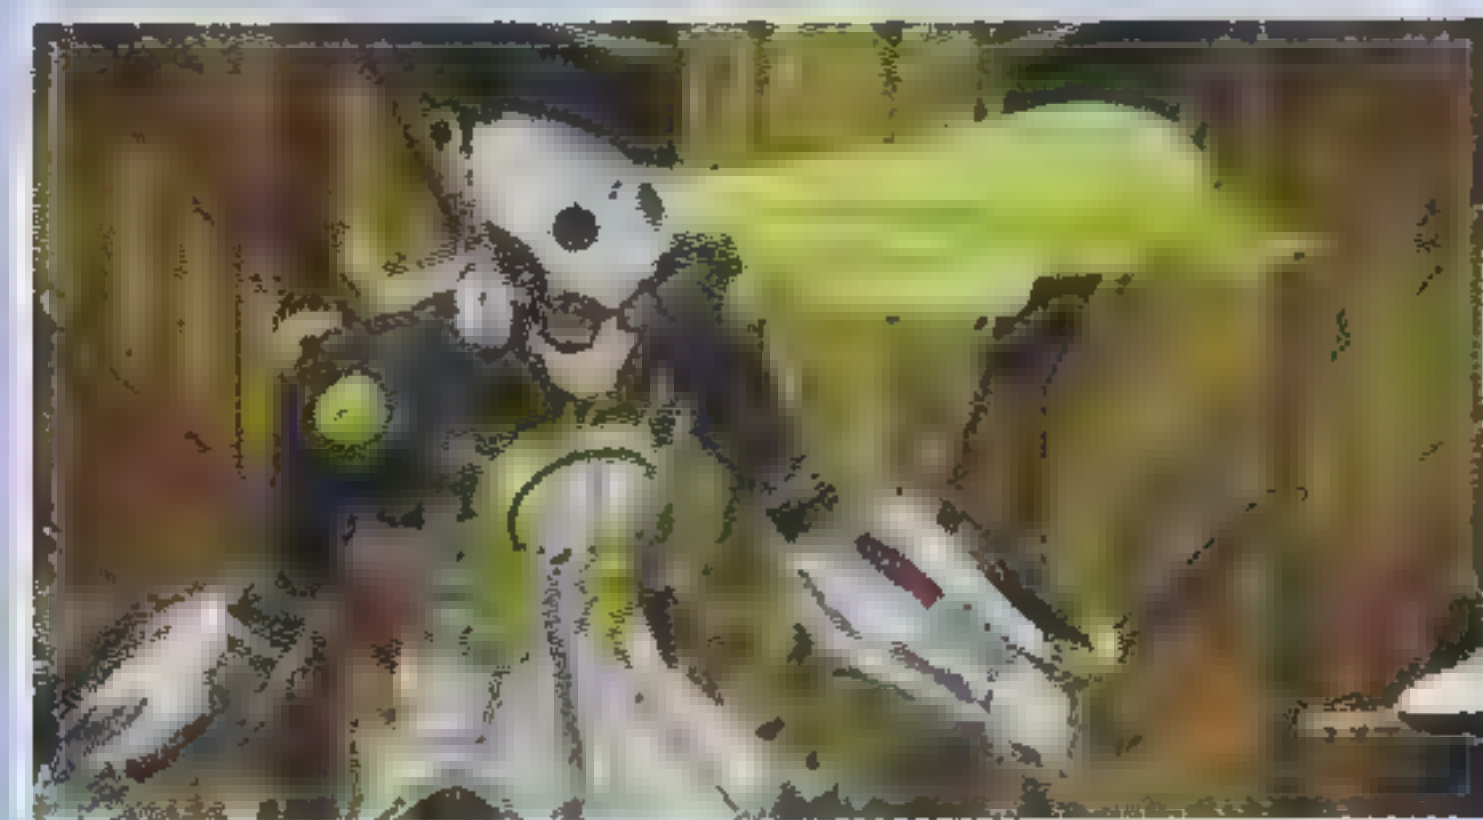

Where do you start after a certain phase in your life ends?

Key moments like the end of a school year or graduation, just like most of you have just gone through, are primarily the starting point of a new phase. This is also how **Kotetsu T. Kaburagi** deals with losing his wife, **Tomoe**. The mere memory of his wife's smiling face makes Kotetsu melancholic and even after five years since his wife's death, she still serves as an inspiration to Kotetsu, and he strives hard to start anew amidst problems.

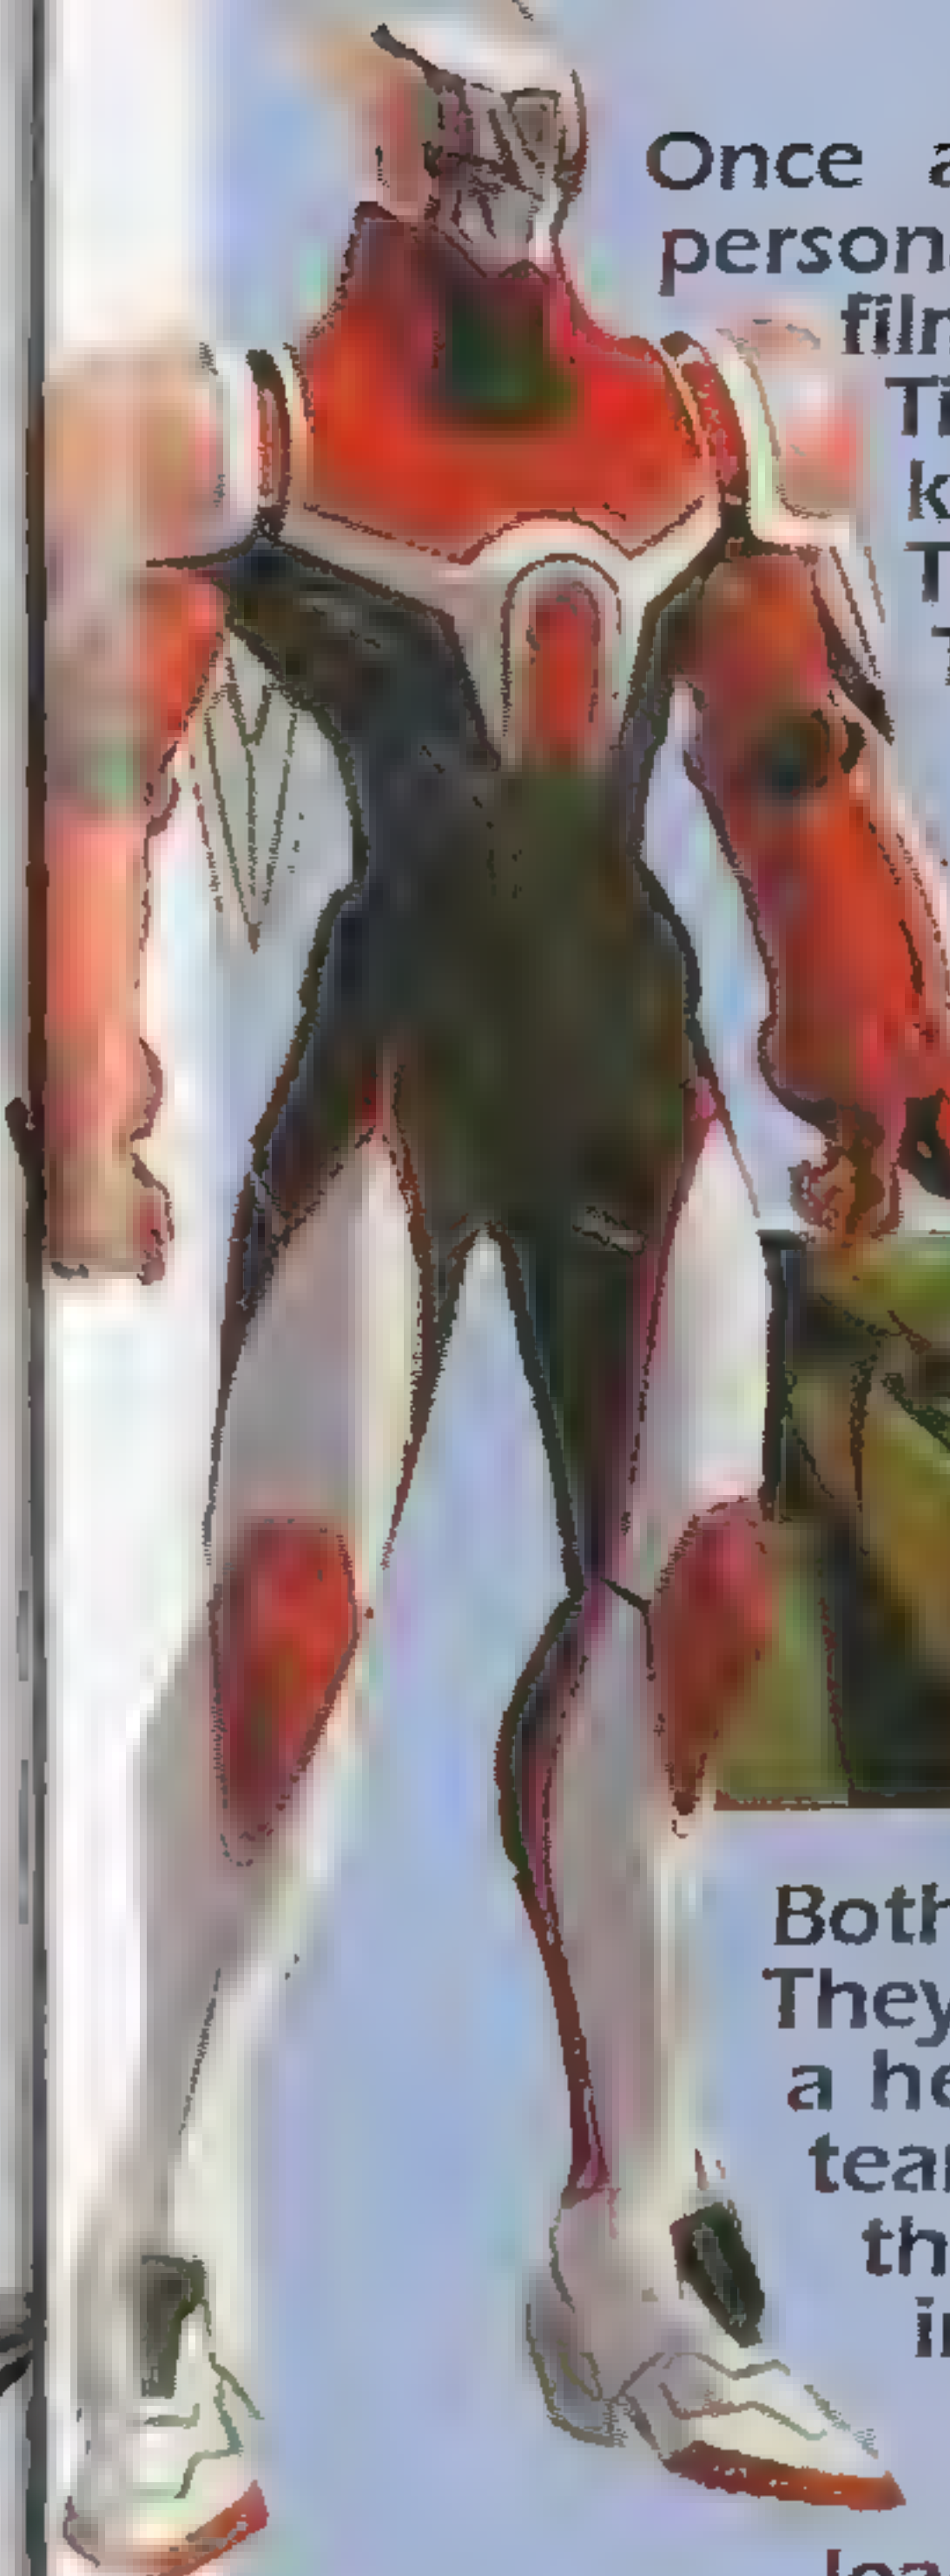

**Tiger & Bunny: The Beginning** highlights the progress of Kotetsu's promise to his wife: to be a commendable hero.

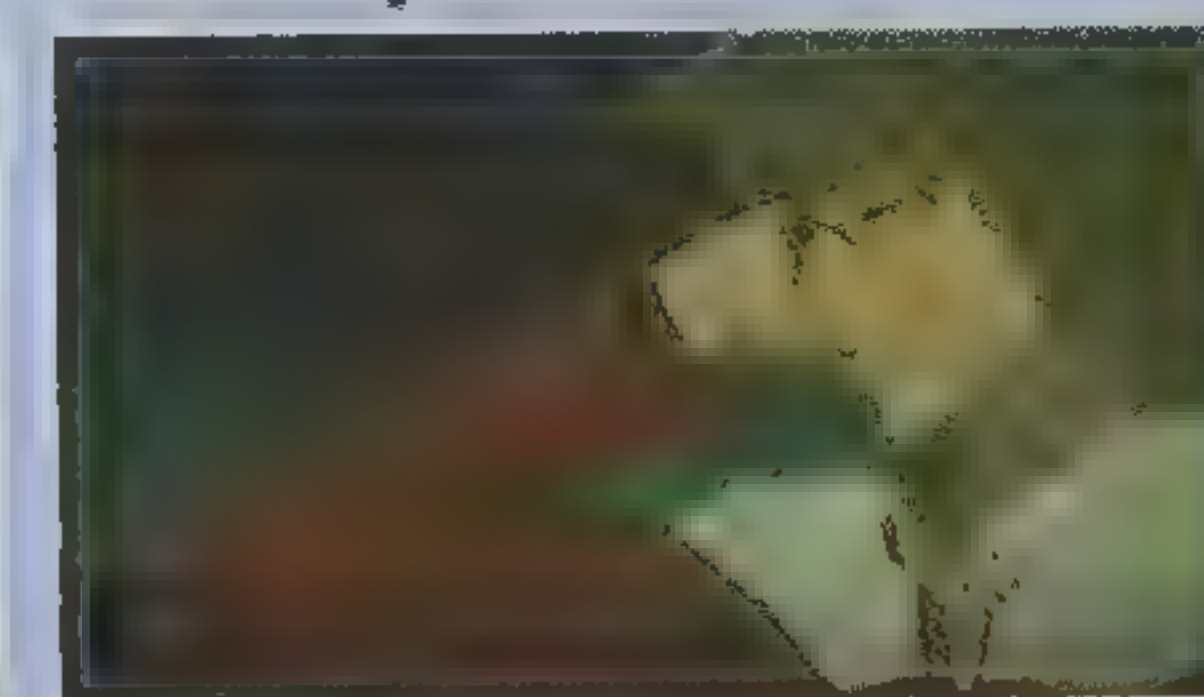

Known as "**Wild Tiger**" to his managers and colleagues, **Kotetsu** is a long-time hero managed and sponsored by **Top MaG**. His **NEXT** power was activated when he was kidnapped as a child. He appears in **Hero TV** which televises the battles of **NEXT** heroes with criminals. Kotetsu's limelight doesn't really shine on despite his experience as a hero, but he is helpful even at the absence of cameras. Meanwhile, **Barnaby** is a mysterious blonde who appears out of nowhere and saves Kotetsu in a dangerous encounter against robbers. For Kotetsu, Barnaby is a smug and boastful person. Meanwhile, for Barnaby, Kotetsu is just an old man who has no capabilities and always needs saving.

In the following days, Kotetsu discovers that **Alleron Media**, a huge media conglomerate bought **Top MaG**, compelling them to follow the new management. Their new employers want to build a popular duo comprised of **Wild Tiger** and the then independent contractor who's now part of their show, **Barnaby Brooks Jr.**. The duo's first huge assignment, together with other **NEXT** heroes, is to capture **Robin Baxter**. He is infamous for stealing world-renowned treasures, never getting caught even for once. With this challenging task at hand, how can **Wild Tiger & Barnaby** capture the criminal? Can Kotetsu continuously grant his wife's wish for him to be a hero, despite being anti-thesis with his new partner?

Once again, we are reminded of Kotetsu and Barnaby's contrasting personalities in **Tiger & Bunny: The Beginning**. The first few minutes of the film have been devoted to the re-narration of the first two episodes of **Tiger & Bunny** series. This is advantageous for people lacking the knowledge of the anime series. On the other hand, the audience of **Tiger & Bunny** series may feel déjà vu once they watch **Tiger & Bunny: The Beginning**, which may be a drawback of the film. However, revisiting Kotetsu and Barnaby's meeting is significant for the development of the story. The relationship of these two characters needs to be well-established in order for the audience to track their character development; what with the bad first impressions they have on each other and the constant bickering that comes before and after they become partners.

Both Kotetsu and Barnaby are hard-headed and prefer working alone. They are also fuelled by their passion to fulfil their dreams, Kotetsu being a hero, and Barnaby primarily for avenging his parents' death. In their team, both want to take lead. An unhealthy working relationship like theirs might not be able to build trust, which is one of the most important elements in teamwork. However, **Tiger & Bunny: The Beginning** has set a difficult task for the duo to perform, forcing them to acknowledge each other's presence, if not to work hand-in-hand, at least.

The film has recreated **Sternbild City** and their heroes with **NEXT** powers, showcasing the superb detailed animation done by the animation studio **Sunrise**. Other **NEXT** heroes are also present in the film, showing off their newly built costumes and heightened powers. They have been quite energetic in the film to show everyone that they're ready to fight the criminals in **Sternbild** while maintaining their healthy rivalry with one another.

**Tiger & Bunny: The Beginning** is a movie about the clash of old and new relationships, and how the characters deal with the promises they have made for their loved ones regardless of time. The film teaches us that even though some things ought to start bad, it opens up a new chance for us to try again, thus the birth of new beginnings.

## And The Magic Continues

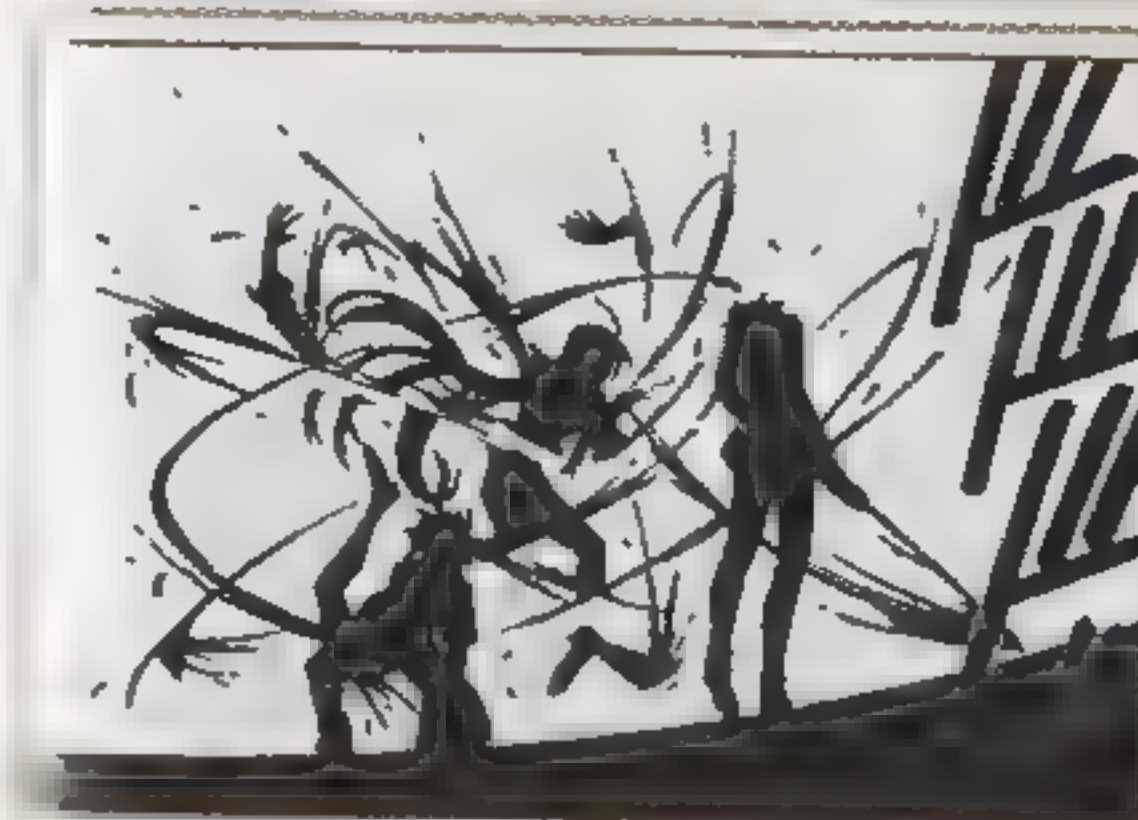

ユーキューホルダー! by james

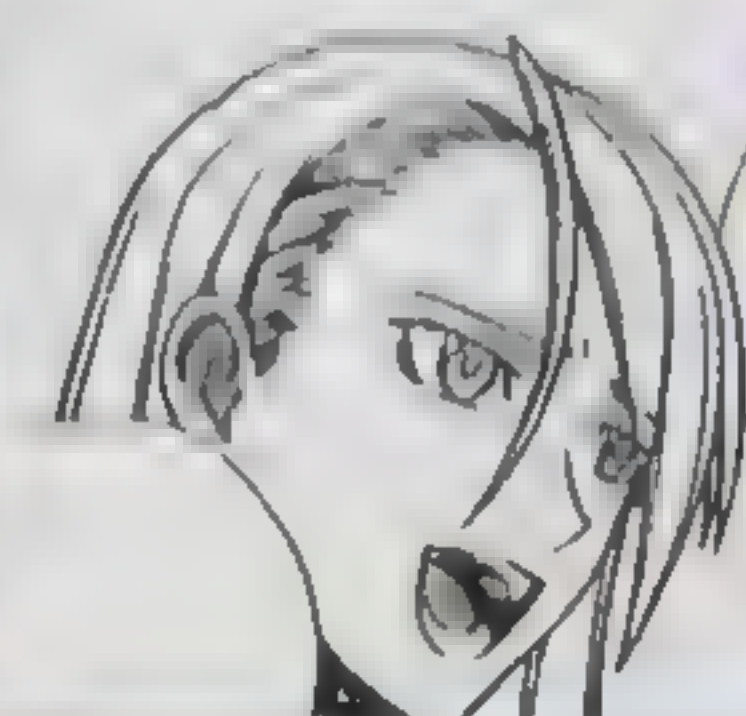

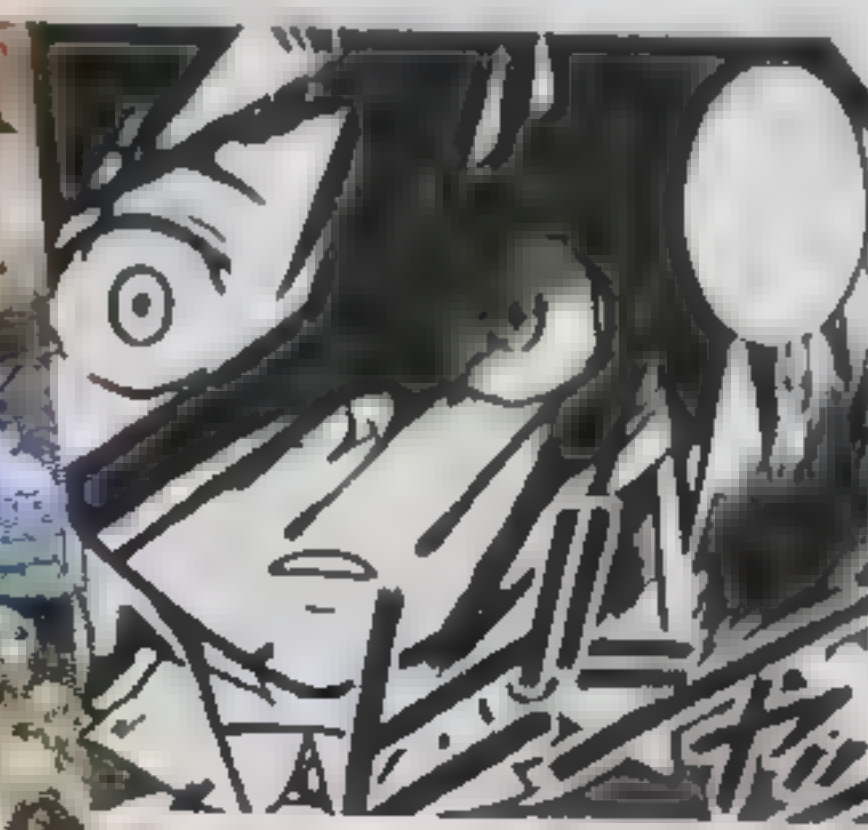

Life in the countryside may be peaceful and simple, but it can also be boring and uneventful. To change that, a little bit of magic might be in order. So, what kind of magic should we cast? Well, a little bit of courage should do the trick, for it is the real magic. And maybe we should throw in immortality and an epic adventure, just for safe measure. With all these things in the mix, you get UQ Holder.

Set in the year 2086, ten years since magic has been revealed to the world. Living in these wonderful times is Touta Konoe, an orphan who lives with his teacher Yukihiime. Touta dreams of leaving his hometown to discover what is atop the huge tower in the capital, but Yukihiime vehemently forbids him to do so unless he beats her in a fight. Unfortunately, Touta has never won against Yukihiime, not even once.

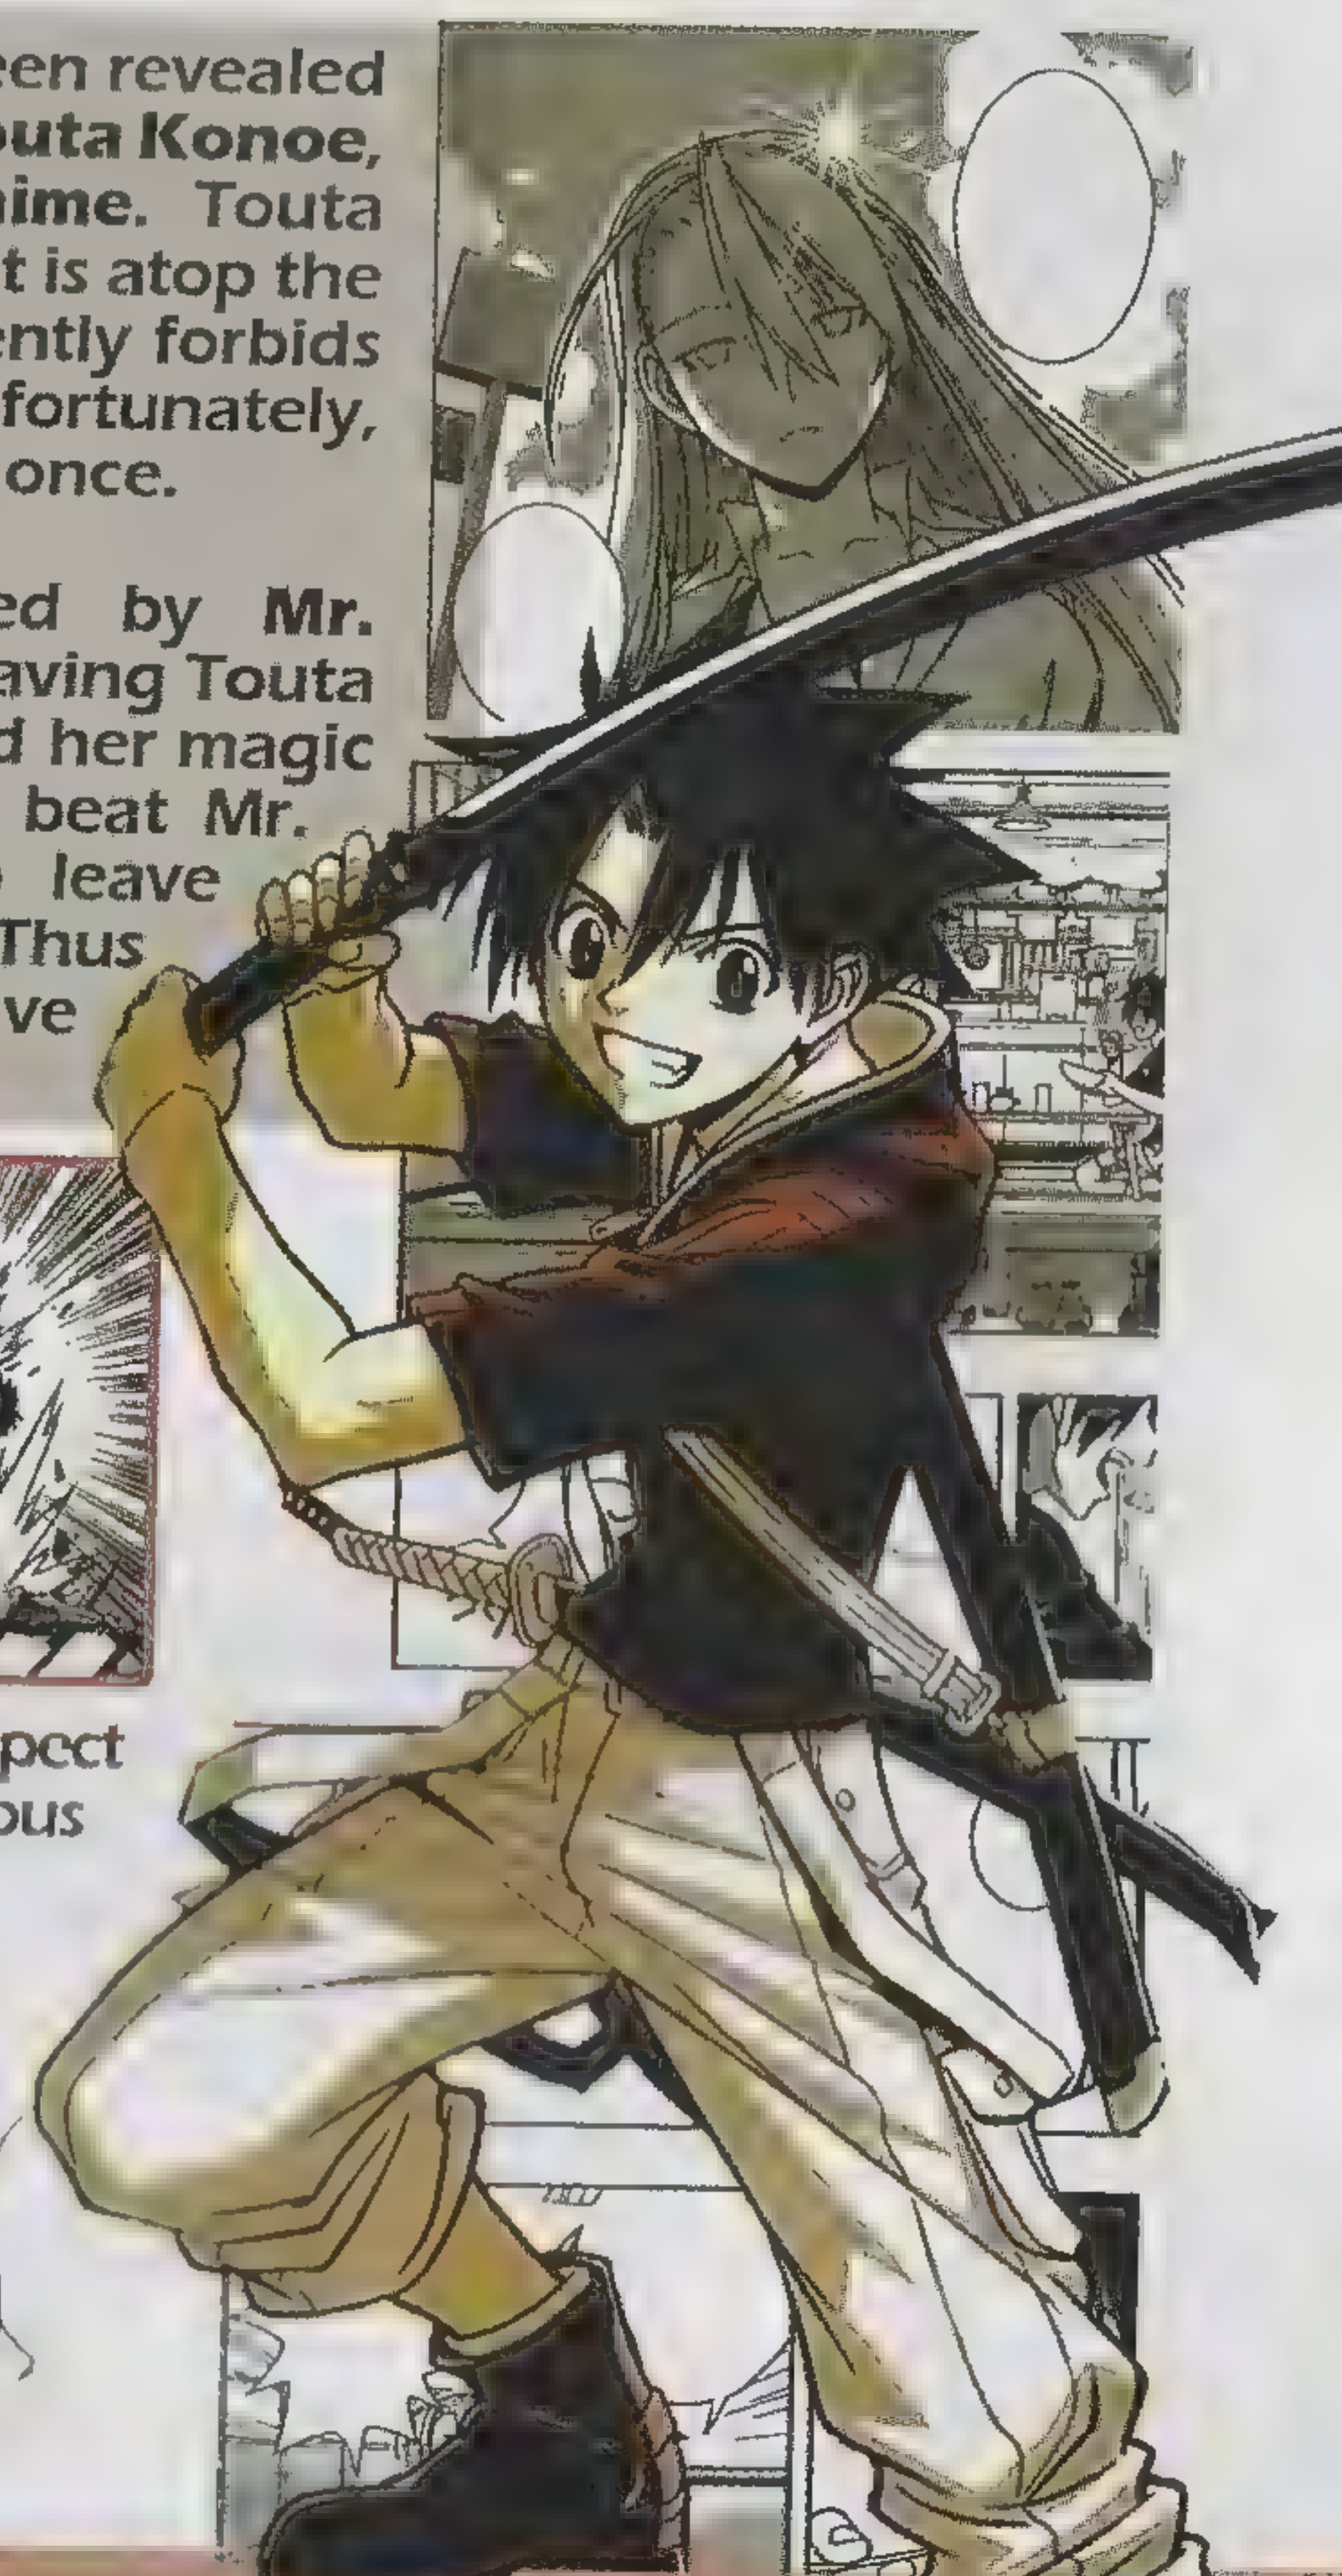

One day, Touta and Yukihiime got attacked by Mr. Tachibana, one of Yukihiime's fellow teachers, leaving Touta on the verge of death. Thankfully, Yukihiime used her magic and granted him immortality, allowing him to beat Mr. Tachibana. Yukihiime granted Touta's wish to leave town, but also revealed to him her true identity. Thus begins Touta's never-ending adventure in a brave new world full of wonders.

Another magical tale from mangaka Ken Akamatsu, expect a lot of shout-outs and recurring elements from his previous work Mahou Sensei Negima, as they share the same universe and timeline.

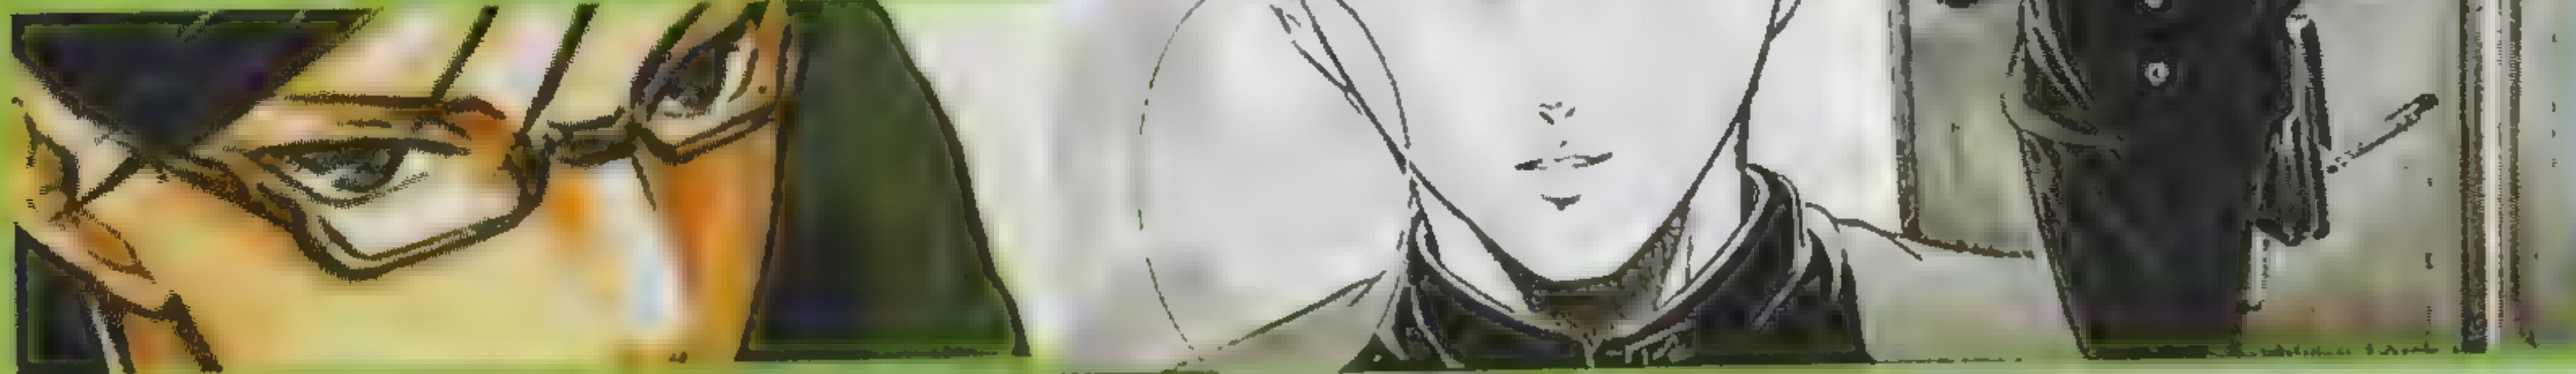

So if a lighthearted action-adventure manga is what you seek, then UQ Holder is definitely something you'll get hooked with.

## Nobody is Perfect, Except Sakamoto

By Mikelle Abubo

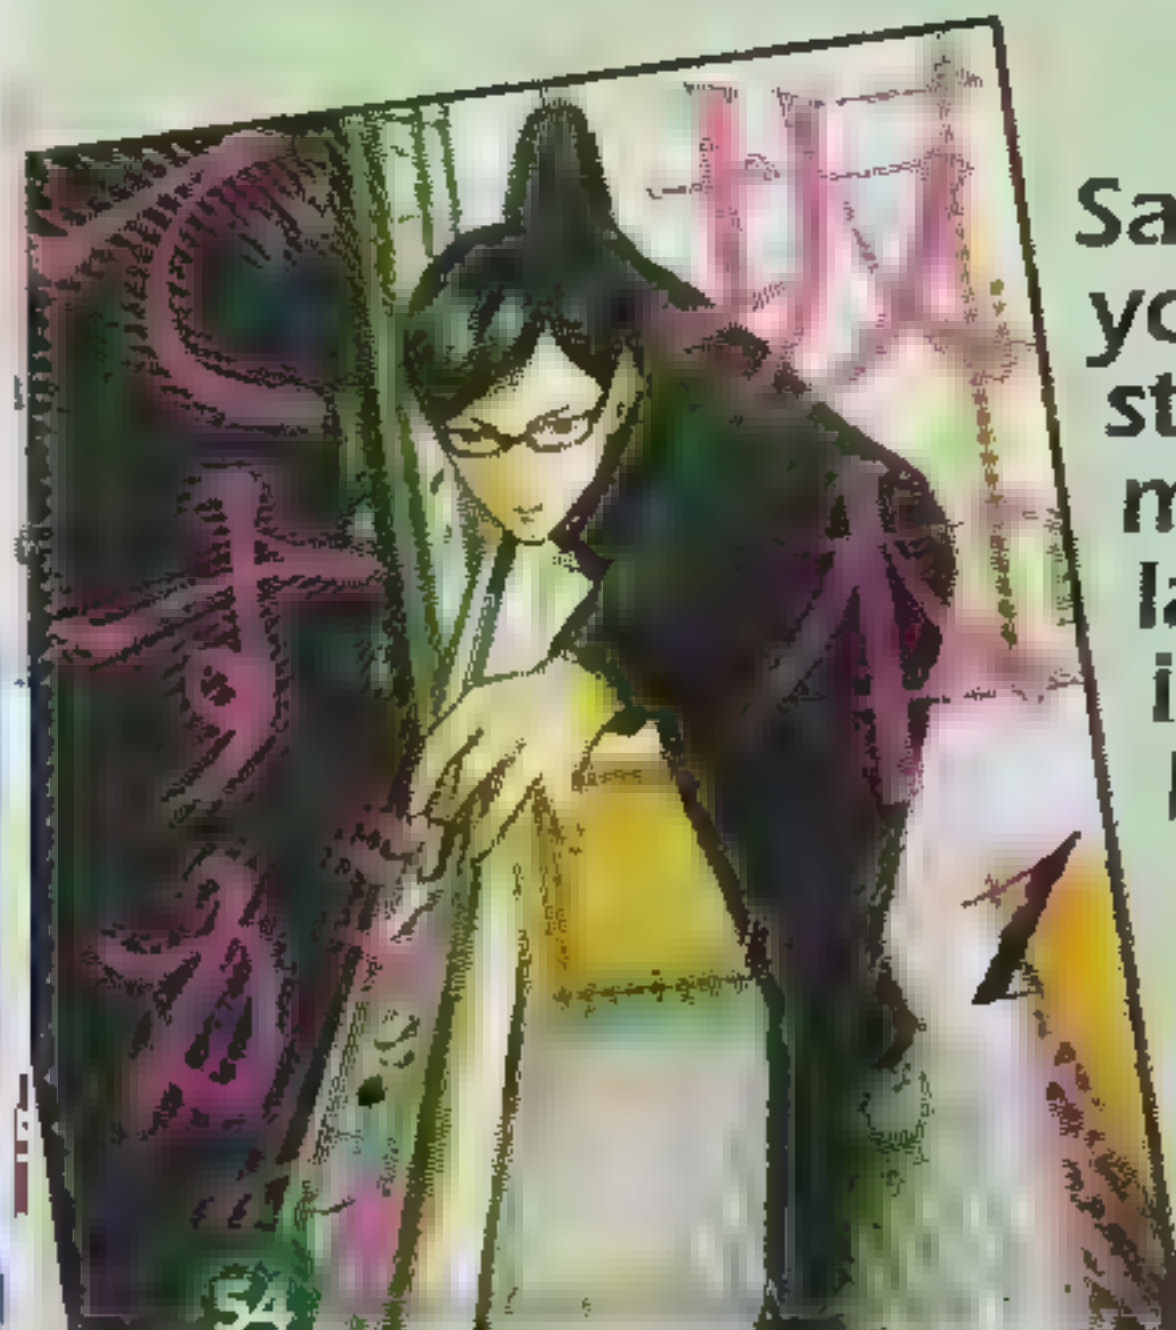

The term 'perfect' is defined as having all the desirable qualities and characteristics that could be pertained to an absolute or complete being. A simpler definition could also be someone that is free from faults that serve as the ideal person that most people adore due to respect or resent due to envy, which is exactly how most people view the first-year-high school student Sakamoto.

In a particular high school, a certain freshman name **Sakamoto** is revered not just as cool, but as the "coolest" student to ever walk the halls of their school. Sakamoto's popularity skyrocketed immediately after the start of the school year and almost everyone's attention are gazed at him. All the girls love him while most of the boys are jealous of him. Tons of delinquents have plotted against him just to make him fall from grace, but to no avail, none has yet to succeed for Sakamoto always foils their plans with ease.

Sakamoto also has the knack of helping people indirectly, from the bullies to the most unpopular people in class, and he treats everyone as equals even though he himself is treated differently.

**Sakamoto desu ga?** is an ongoing slice of life manga written and drawn by **Nami Sano** and published by **Enterbrain**. The pilot chapter first made an appearance in **Enterbrain's Fellows!** magazine back in 2011 while the full serialization followed the year after and the publication still continues up to present. The manga's 1st volume won the **2013 Comic Natalie Grand Prize** and was also dubbed as one of the best selling manga since its debut. The 2nd volume of the manga also reached 1st place on the Oricon weekly manga chart.

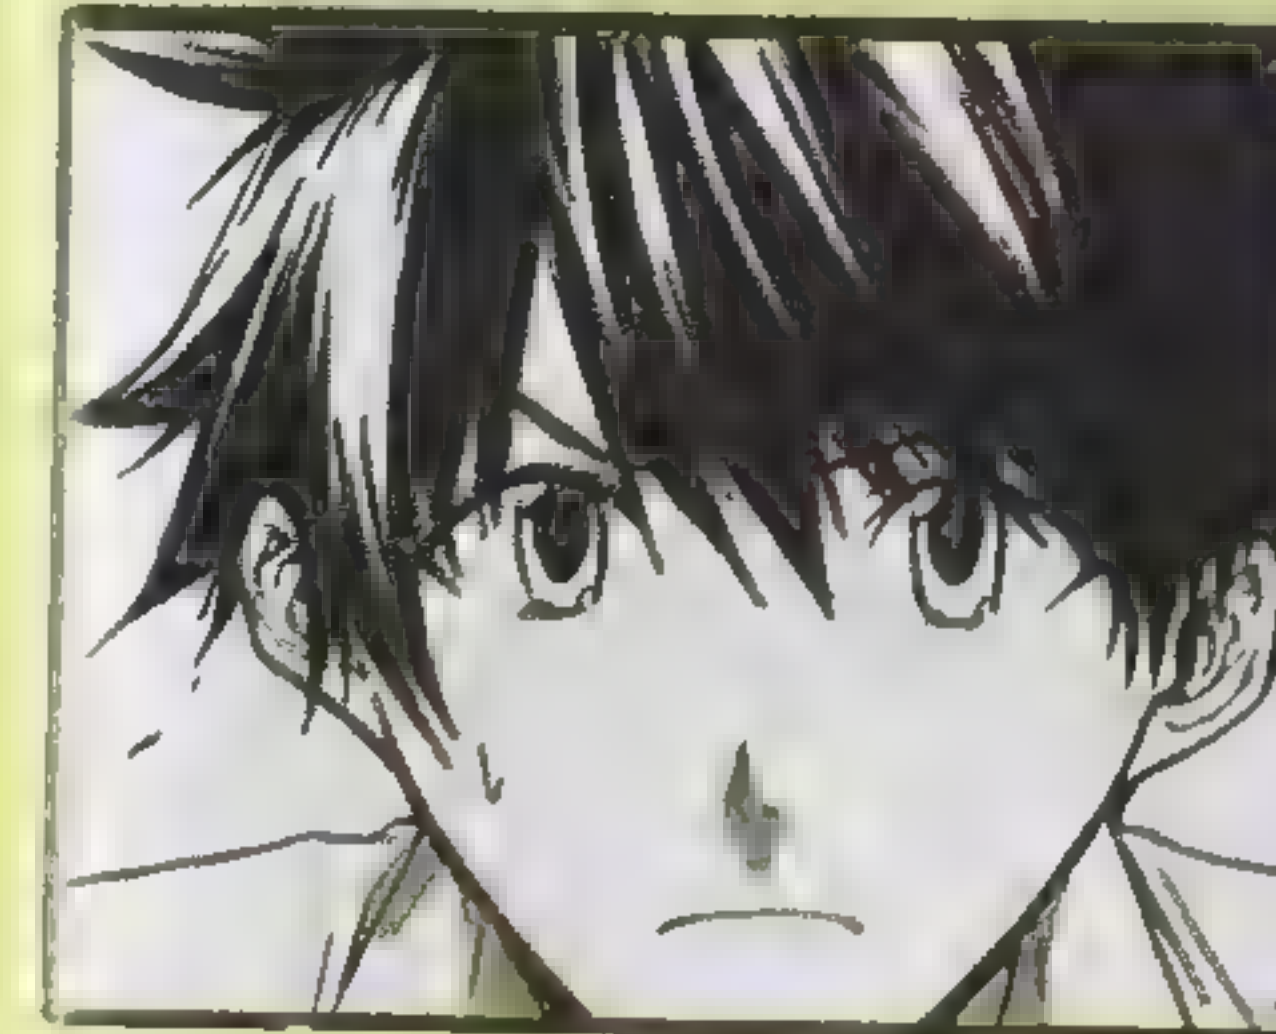

**Sakamoto degu ga?** is definitely one manga that you should not miss. Filled with an unorthodox storyline and a weird sense of humor, this manga will either keep you amazed or laughing at the edge of your seat. Sakamoto is certainly one of the coolest and most badass protagonist that you will encounter in this sort of genre. Can Sakamoto remain untouchable through his entire high-school life? Follow Sakamoto as he lives his high-school life with grace and confidence.

## Witch Craft Works

Have you ever wanted to meet a witch? Both the mystery and the danger attached to their name are inevitable. A witch's reputation is automatically tainted just by performing witchcraft, especially when people don't know whether their objectives are good or bad. Additionally, the connotation of the word "witch" in the Philippines is often associated with black magic and love potions. However, while there are ill-intended witches, some witches do protect people. Let's delve into the world of Witch Craft Works and follow the story of Takamiya Honoka and his meeting with an invincible witch, unbeknownst to him, is the most popular girl in his school.

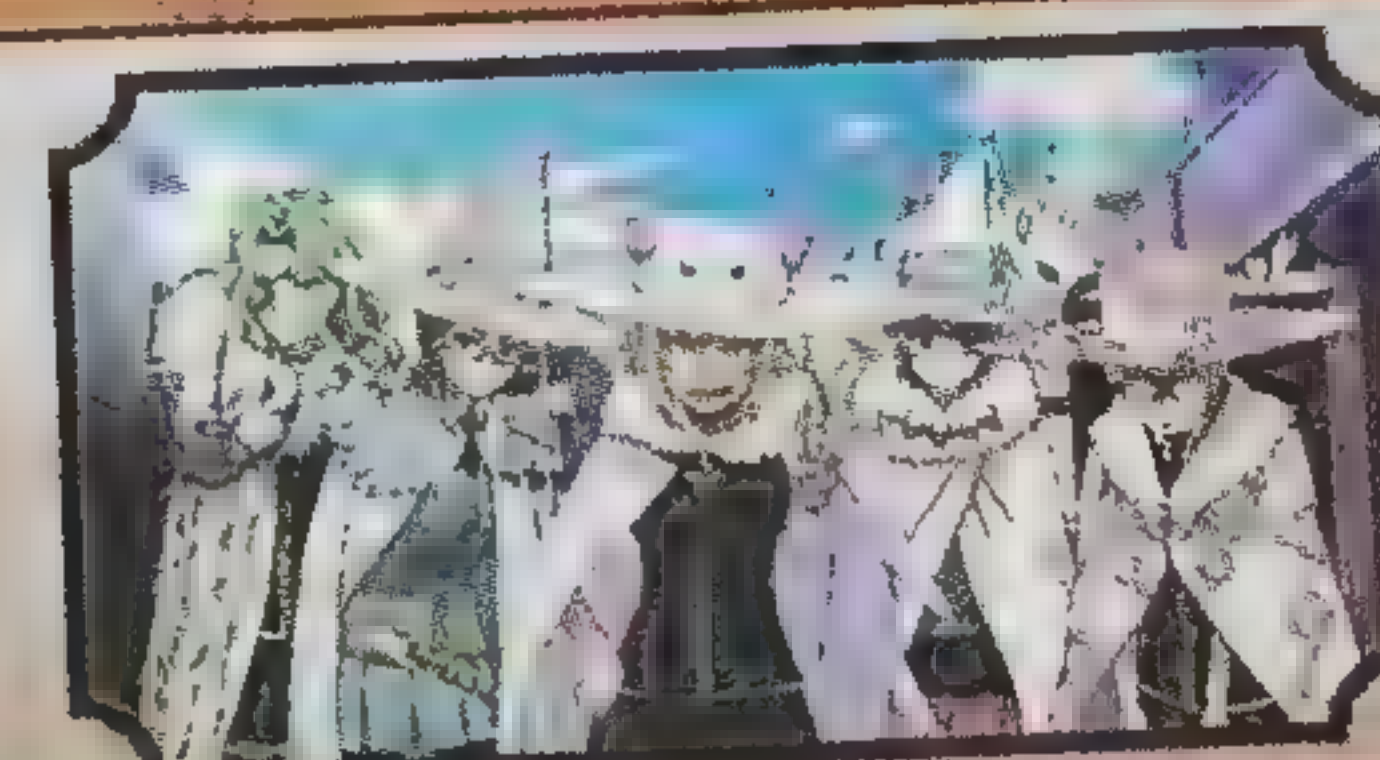

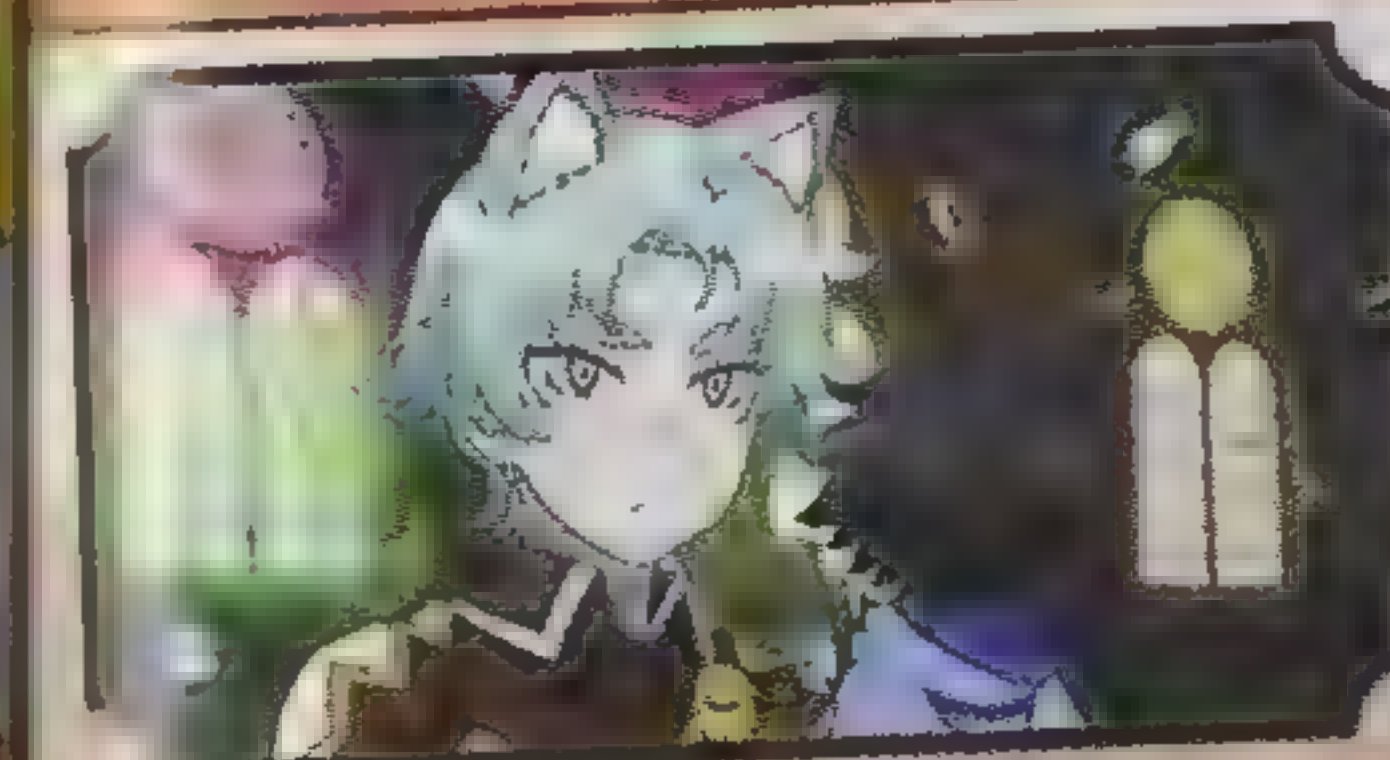

Takamiya Honoka knows he's an ordinary high school boy, so what are the odds that he's going to experience a supernatural phenomenon in an ordinary day? So far, his fate has been squeezed in the school bus and his personal space invaded in the classroom because of Kagari Ayaka's fans.

Witch Craft Works is originally an on-going manga from 2011, written by Ryuu Mizunagi and published by Kodansha. This 2014, an anime adaptation is produced under J.C. Staff studio. Since both the anime and manga are still on-going, we can expect more happenings and action-packed fight scenes among witches.

Ayaka is the most beautiful and most intelligent student in their school. Her rabid inboys and fangirls always meet up with her in the morning, during lunchtime, school duty, and class dismissal. Honoka has always been close in proximity to Ayaka. They are seatmates and have the same cleaning duty day, and that's why the two have never spoken to each other, though, despite how close they are all the time. It was Ayaka who first attempts to reach out to him by picking up the eraser he drops in class. Because of that incident, the poor boy has received some beating from Ayaka's fans.

Honoka somehow expected that treatment from her fans, but the unanticipated supernatural occurrence is when he falls victim into the hands of a Tower Witch whom he has no knowledge about. Imagine reading a paper with a weather report that read "buildings will fall today". And when you look up at the sky, the report indeed, did not lie. It was then that Ayaka's true intentions are slowly revealed while he protects the clueless Honoka.

## CHARACTERS

### Takamiya Honoka – The commoner

Honoka is an average high school student who's been living an ordinary life, until his fate entangles with that of Kagari Ayaka, the school idol. When his life is threatened by a Tower Witch, he gets saved by Ayaka. He has been called "hime-sama" twice by Ayaka, which confuses him in great deal. Although Honoka looks frail for a guy, not to mention the fact that Ayaka is way taller than him, he is brave amidst frightening situations. He also has a very straightforward nature, not afraid of telling Ayaka to pull back from saving him countless of times. Nonetheless, his looks are average which irritates Ayaka's fans greatly. The commendable thing about Honoka is he's very considerate of other people's feelings, to the point of being heroic for them.

## Kagari Ayaka – The Fire Witch

Ayaka is seen as the most popular girl in their high school. Aside from being the daughter of the School Chairman, she has a strong sense of duty and her confidence never falters. Ayaka belongs to the Workshop Witches generally known as the witches belonging to the good side. She vowed to protect Honoka by any means, but had to do it undercover. This is also the reason why she's always close to Honoka in class and even in the school bus to keep a close eye on him. When the Tower Witches' desire for Honoka's capture lets loose, she protects him publicly, infuriating each and every one of her fans.

Ayaka is known for being the invincible Fire Witch, and her perfect control of Fire defeats anyone. No matter what kind of contingency plan her enemies make, they could not defeat her. Subtle hints may lead us to believe that Ayaka likes Honoka romantically, but it is difficult to tell at this point because they've just gotten to know each other. The only thing so far that connects them to each other is when Honoka is injured, it is Ayaka who feels the pain.

## Ivory Quintet

Kanna Utsugi, Kotetsu Kasura, Tanpopo Kuraishi, Mei Menowa, Rin Kazari

The Ivory Quintet is a group of Tower Witches who have been assigned to capture Honoka and kill Ayaka, but they fail miserably all the time. Just when they thought they have created the perfect plan, Ayaka burns them with her power.

Each of them has varying skills and abilities. Their acting leader, Tanpopo Kuraishi, was the first one who attempted to eradicate Honoka. Her powers include calling an army of robotic bunnies called "Hunters". These bunnies can do anything they've been told to do. Other members have interesting abilities as well, such as defensive barriers and multiple familiars. Despite their constant loss against Ayaka, their self-belief does not waver.

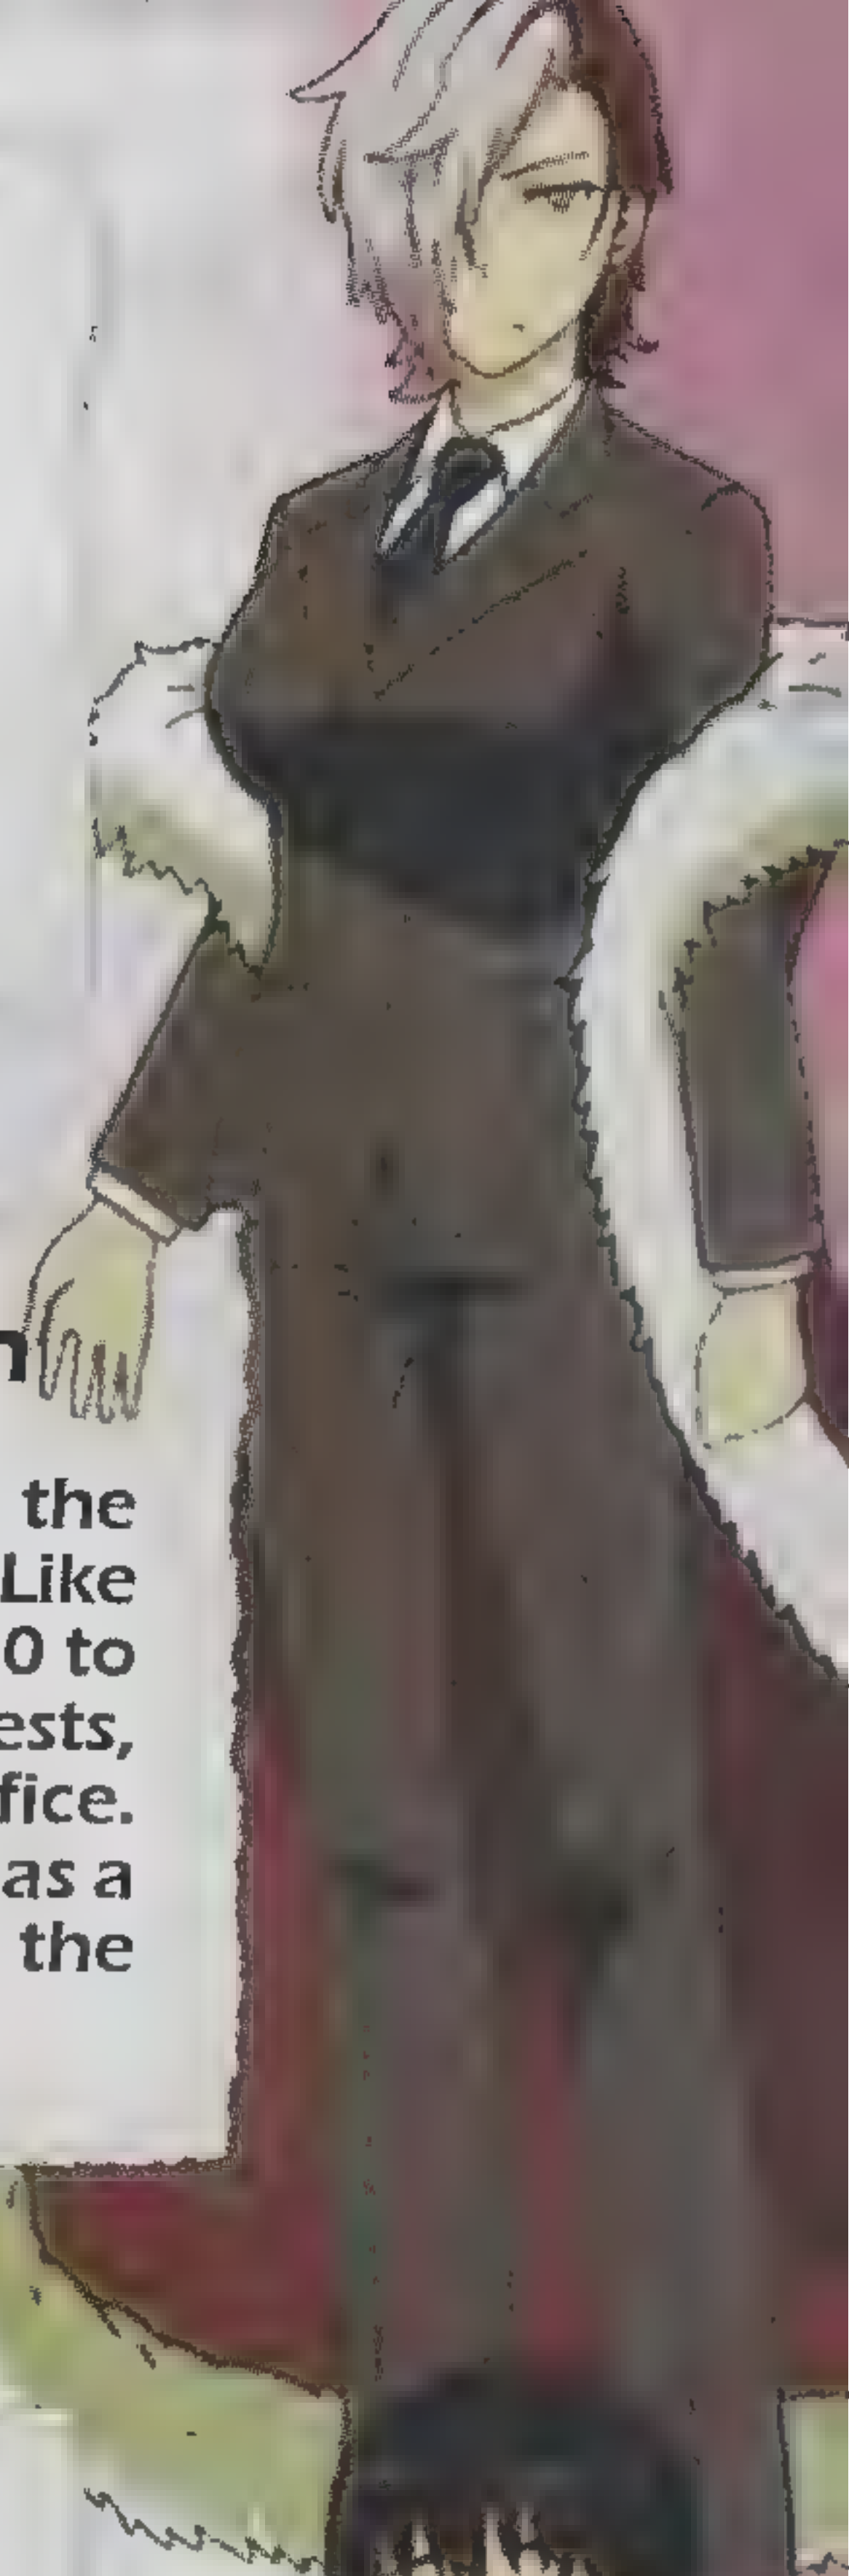

## Chronoire Schwarz VI – The Rival

She is a Tower Witch and the more powerful rival of Ayaka with a cool demeanor. She's not easily defeated because of her expertise in explosive magic. A long-time acquaintance of Kazane, Ayane's mother, she is believed to exist for over a hundred years now. Her knowledge of potions is exceptional, and has a strong potential of defeating Ayaka.

## Kazane Kagari – The Chairman

She is Ayaka's mother and the chairman of the school where Ayaka and Honoka study. Like Chronoire, her age is estimated to be around 140 to 150 years old. She is very accommodating to guests, as evident when Honoka came to visit her office. Despite her seemingly daunting attitude, she's has a kind personality. She's often seen staring at the scenery from her office.

## Kasumi Takamiya – The Sister

The pretty redhead Kasumi is Honoka's sister, who seems to have a brother complex even if she always seems to bully Honoka. Much to Honoka's surprise, Kasumi is a Workshop Witch who can manipulate colossal robots and dolls. Unlike their mother, Kasumi does not approve of Ayaka and Honoka's engagement, as she believes she won't be able to force her whims to her brother again.

## Komachi Takamiya – The Mother

Komachi is Honoka and Kasumi's cheerful and hospitable mother. Back in high school, she was very close to Kazane, and at some point the two of them wanted to get married. However, since it is not possible for them, they made an oath to engage their children instead. Komachi highly approves of Ayaka and Honoka to get married someday. Komachi is very supportive of their future relationship, but also respects their own discretion.

# WITCH CRAFT WEAPONS DO WORK OUT

## The Laughing Weapon

The anime has its fair share of humorous antics, particularly the solid group of Tower Witches wanting to eradicate Ayaka the Fire Witch. They've tried many times to attack her. However, they always end up getting caught in their own traps. The Tower Witches also expressed their desire to capture Honoka's body because "there's a white thing inside of him". This innuendo is hilariously presented in the anime, all the more when Honoka acknowledged its double meaning. The protagonist himself has funny reactions, and they're emphasized more whenever he's with Ayaka because they have exact opposite facial expressions. Honoka's aggressive sister and easygoing mother also add up to the humor of this series.

## The Annoying Weapon

There are many situations in this anime where you'll get annoyed for a reason. However, it should not be misinterpreted as the anime being generally a nuisance. The "annoying attack" in Witch Craft Works is a very important element in the story. In the first episode, the flock of girls forcing themselves upon Ayaka and their insensitivity when it comes to their surroundings, will definitely annoy almost anyone. We're all familiar with the fangirling culture, and sometimes it does go beyond the belt. It's a realistic representation of what is happening today in different fandoms. The bullies who are blinded by their love for their "Ojou-sama" are irritating as well. Do not be surprised by Ayaka's stoic face; we bet she's screaming internally every day because of how irrational some of her fans behave.

## The Drama Weapon

The dramatic component of this anime is primarily between Ayaka and Honoka. The invincible Fire Witch wanting to protect Honoka from Tower Witches, and Honoka also trying to protect Ayaka by doing things on his own. The drama weapon is effective in a way because it depicts an "against all odds" drama. It's almost as if they don't have their own families, and they only have each other. This drama weapon may actually lead to romance.

## The Action Weapon

Witch Craft Works requires fast-paced action, and J.C. staff has successfully fulfilled this part. The continuity of action in this anime is amazing and the flow of movements is quite smooth. Needless to say, the battles among witches and their showcase of abilities are something to look forward to.

## WORKSHOP WITCHES

The Workshop Witches set up patrolling points and watch over towns that might have bad witches in them.

They immediately take action against the evil-driven Tower Witches.

Workshop Witches work individually most of the time, but when they are called in for a meeting, it will be a one-time big-time event.

The advantage of being a Workshop Witch is practically siding with the good and protecting towns from evil witches.

The primary disadvantage is they cannot use magic all the time on ordinary citizens and they are also not compelled to protect people from their everyday troubles such as being mugged or bullied. Workshop Witches are also prone to being attacked by the Tower Witches.

# VS

## TOWER WITCHES

The goals of Tower Witches are unknown and the person they're working for is yet to be revealed. However, they are fuelled by selfish whims and that one mission to capture Honoka.

Tower Witches come in groups and collaboratively form strategies to fulfil their missions.

Tower Witches have a strong support group as they usually fight alongside their teammates.

The disadvantage of being a Workshop Witch is the continuous revision of their strategies for every Workshop Witch they encounter. Since Workshop Witches are much stronger because of Ayaka, they need to come up with several plans to achieve their mission.

Before the first quarter of 2014 ends, make sure you watch Witch Craft Works to see beautiful witches at work, showcasing their incredible powers. This anime offers playful yet profound narrative components in a Mahou series which you surely wouldn't want to miss.

# THE WITCH and THE HUNDRED KNIGHT

A century-long battle has waged between the Swamp Witch and the Forest Witch to find out who is more powerful, but everything changes when the Swamp Witch finds a trump card, the Hundred Knight. Will this knight deliver triumph to the hands of its master or will it remain a useless servant?

Published by NIS America, Inc., Nippon Ichi Software Inc.'s first 3D Action RPG The Witch and the Hundred Knight is set to be released for PlayStation 3 system on the 25th of this month in USA and on the 21st for Europe.

## Metallia The Swamp Witch

Noted as Witch Master by some, Metallia is the genius witch who swears to destroy the Forest Witch and cover the world with swamps. She is the Hundred Knight's master but even he has yet to discover the extent of her power that makes the other witches avoid her.

## The Hundred Knight

Summoned by the Swamp Witch, the Hundred Knight is the player mode whose legendary powers can be enabled in a variety of ways. One of these is its shifting facets that specialize in different tactics such as the Power Fortress, the Trick Screamer, and the Shinobi Assassin. Its normal facet is the Wonder Knight. As for its name, the Hundred Knight can enable the power of 99 more knights with its Tochka. It can summon Tochka allies that have powers ranging from bomb-type to arrow-type, and trap-type to fortress-type.

Set in the fantasy world of Medea, the game begins in the Swamp Witch's house on the Niblhenné Swamp where the player as the Hundred Knight serves the Swamp Witch as its master.

The player has to fulfill the Swamp Witch's ambitions of defeating her arch nemesis, the Forest Witch and turning the world into a great swamp wasteland. To accomplish the latter, the player must look for the hidden Pillars of Temperance and make them bloom so that the area turns into a swamp and gives the Swamp Witch more power. However, the difficulty lies in battling against the guardians protecting the pillars, and the Witch Soldiers wandering in the forest.

Alongside this main quest are the little tasks that the player must perform for his master. Some of these tasks include helping out tribes and forming allegiance with them, or raiding completely for the Swamp Witch's domination. It will also include the yearly Walpurgis Nighttime Soiree of the Great Witches of Medea.

## Malia The Forest Witch

Battling against the Swamp Witch is the Great Witch who keeps the Wudes forest free from the toxic fumes of Metallia's swamp.

There's definitely more to look forward to in this game. Watch out not only for 3D action but also plot twists that will change your view of good and evil.

In the beginning of the player's journey, he must look after his Giga Calories (Gcals), the Hundred Knight's hunger level; as it will drop the longer he is away from Metallia. If it drops to zero, the player will be forced to go back home. Still, the player can increase its Gcals by consuming a weakened opponent.

The Hundred Knight uses Tactical Conversion which enables it to have up to five weapons simultaneously and use them together to get a maximum 5-hit combo. Weapons available are sword, hammer, staff, lance and spear.

The player must also be wary of the attack elements he and his opponents possess because it will determine their strengths and weaknesses. These attack elements are Slash, Blunt and Magic.

Using sub actions like Mystical Dodge to slow time and become invincible in battle, and Extra Chain to attack opponents rapidly, the player can inflict greater damage. He can also unleash the Hundred Knight's secret ability, Chaos Revelation to accelerate consumption of Gcals against enemies.

# DRAMATICAL MURDER

written by: Levin

## A Love for Boys' Love

If you were given the ability to make other people do what you want, would you use it? Our protagonist would. And in his case, it's in his job description, and all he has to do is drop his voice to a certain inflection.

Dramatical Murder, styled as DRAMAtical Murder, is a Japanese yaoi game developed and published by Nitro+chiral. It was released on March 23, 2012 as a first press edition, and a regular edition was released on April 27, 2012.

Mankind and nature once coexisted in an island called Midorijima located to the southwest of the Japanese islands. However, the Tōe Company—a powerful corporation in Japan—purchased the island, and eventually converting one-third of it into a high-rolling amusement facility they called "Platinum Jail."

Powered by cutting-edge technology, Platinum Jail inevitably gathered attention. On the contrary, people who became victims of the forceful development are forced to live their lives in the "Former Residents' District," a place which is by no means prosperous.

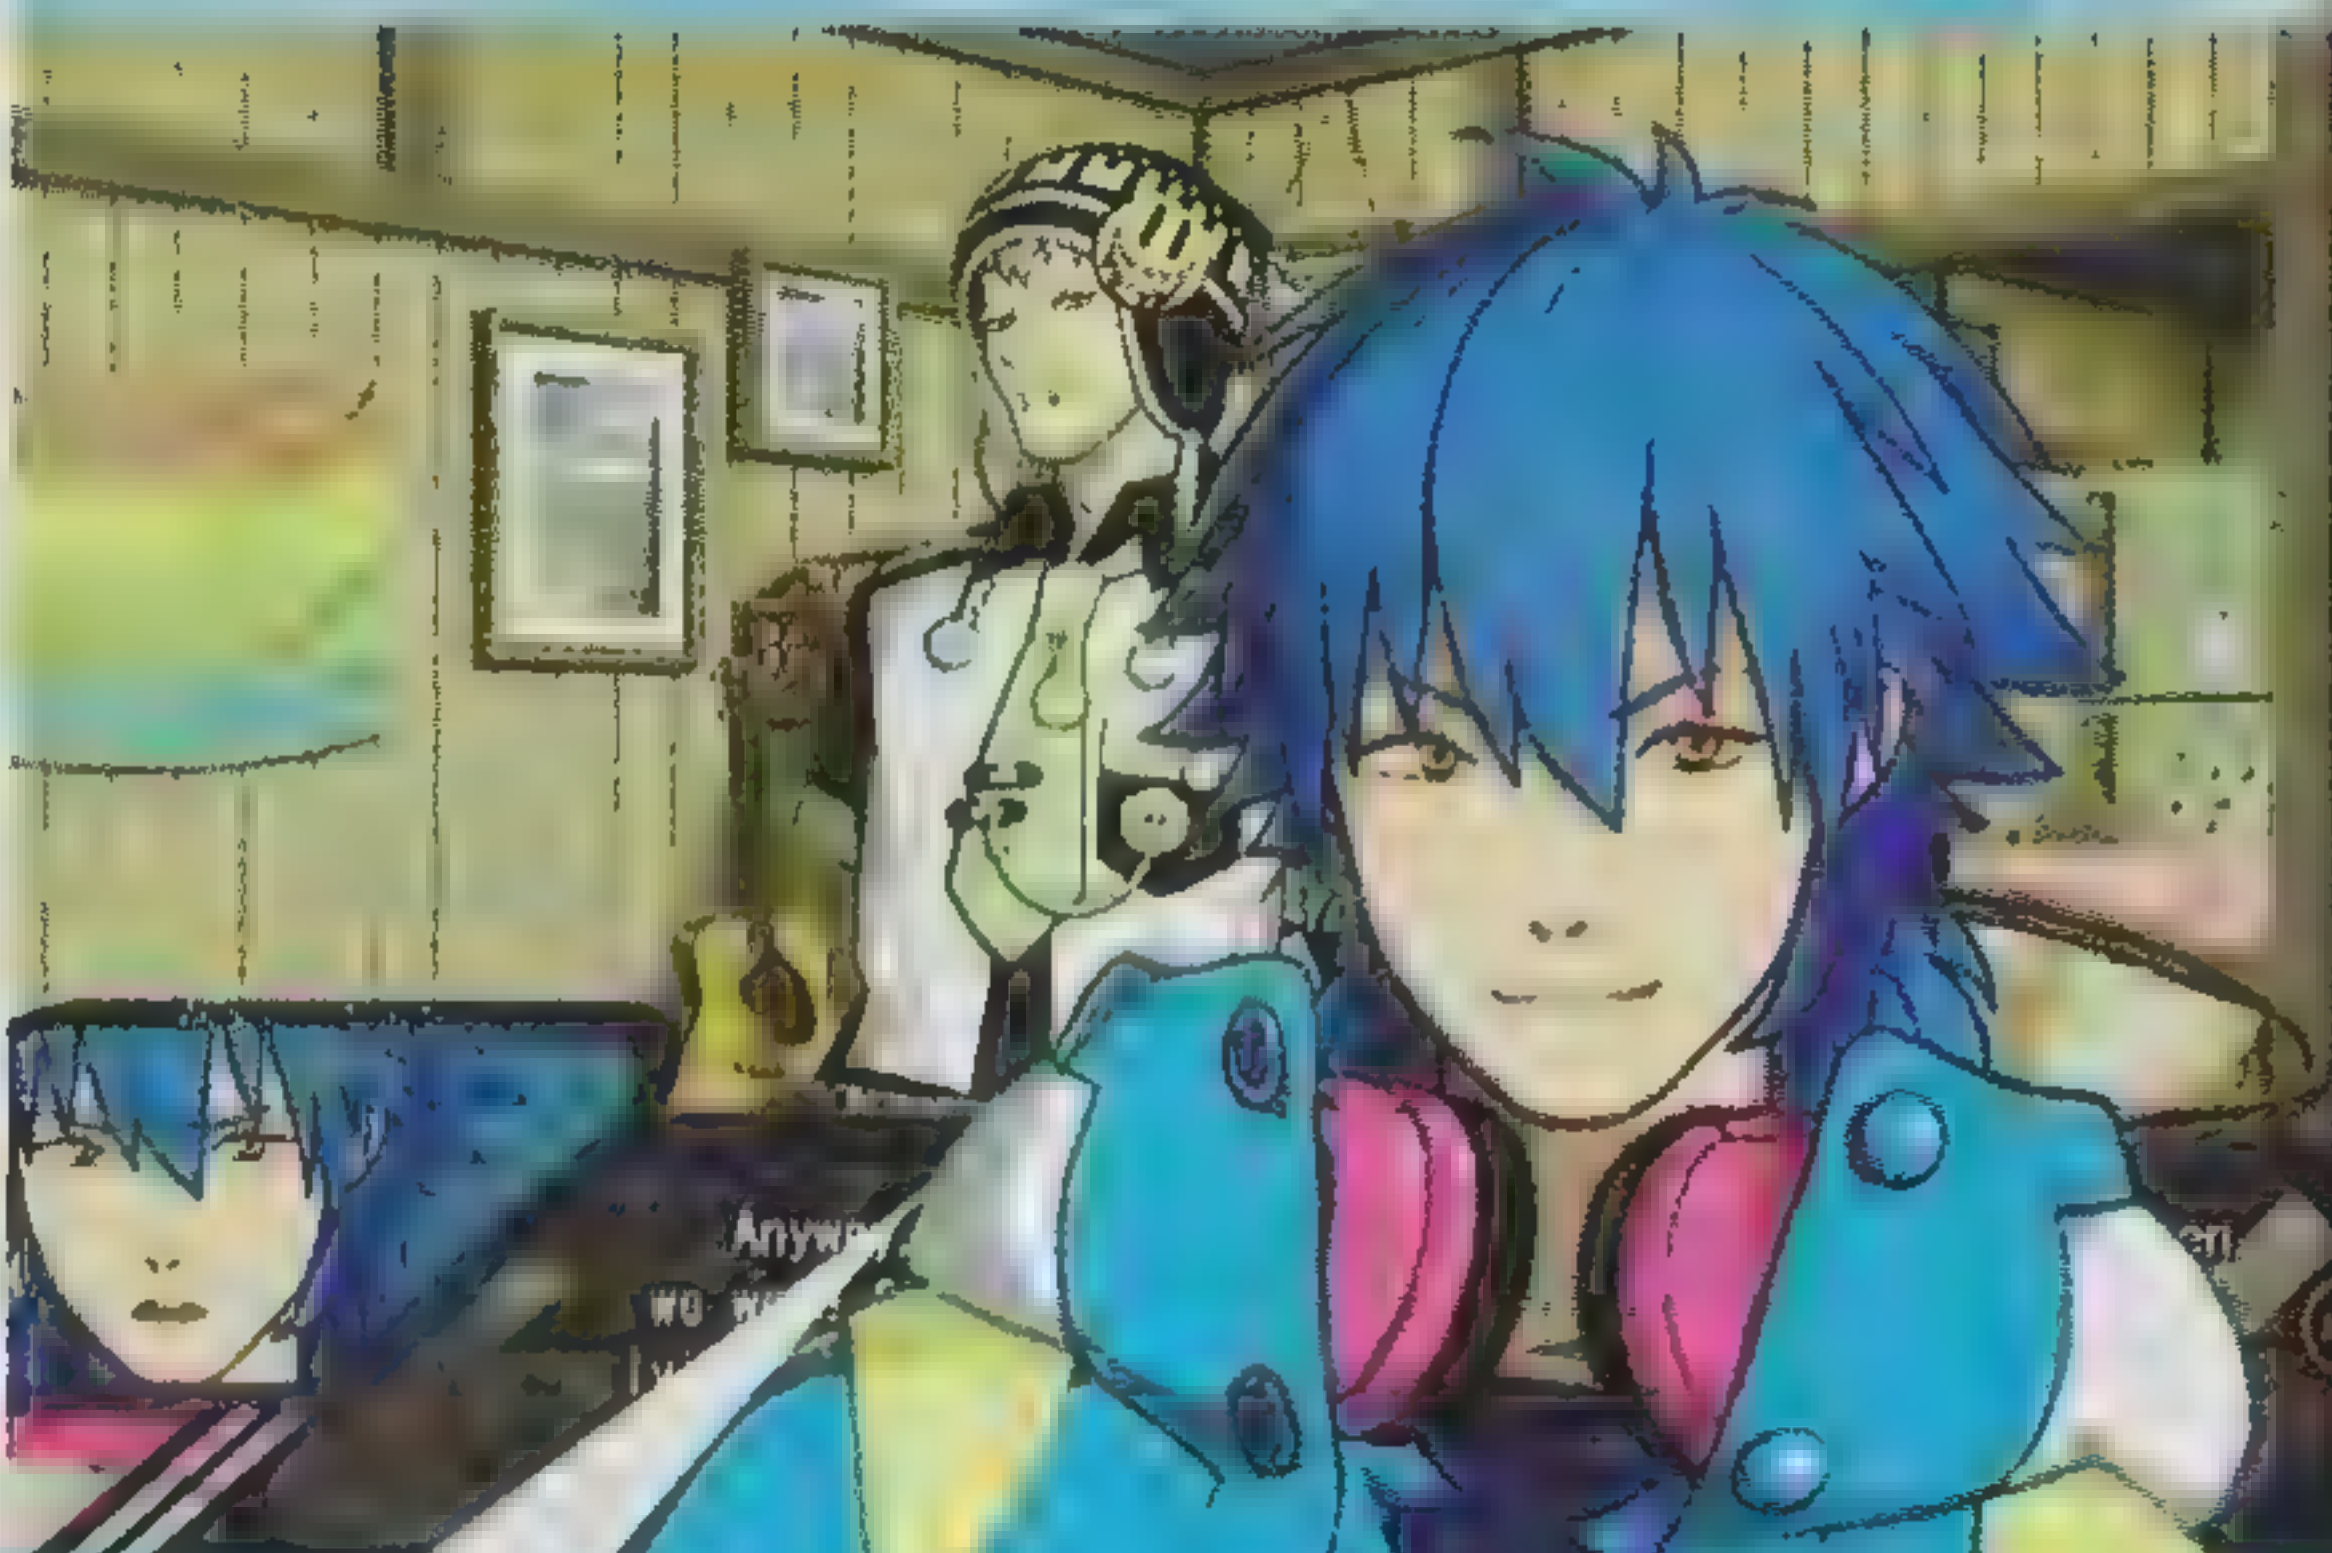

The story takes place in the future where the game called "Rhyme," a virtual fighting game, is very popular. People also possess convenient AI computers they call "All Mates."

## Aoba Seragaki

Aoba Seragaki, the game's protagonist, leads an ordinary life with his grandmother, Tae, while working as a part-timer at a junk shop named "Heibon." Unlike his friends, Aoba shows no interest in "Rhyme," as he just wants to live peacefully with his grandmother. However, a disaster is bound to turn those peaceful days upside-down.

With different endings for each character, DRAMAtical Murder can be enjoyed over and over again. So if you are a fan of BL games, then this is one game you can't afford to miss out on! This game may contain adult content, but nothing screams "boys' love" louder than four attractive boys all falling for the same guy.

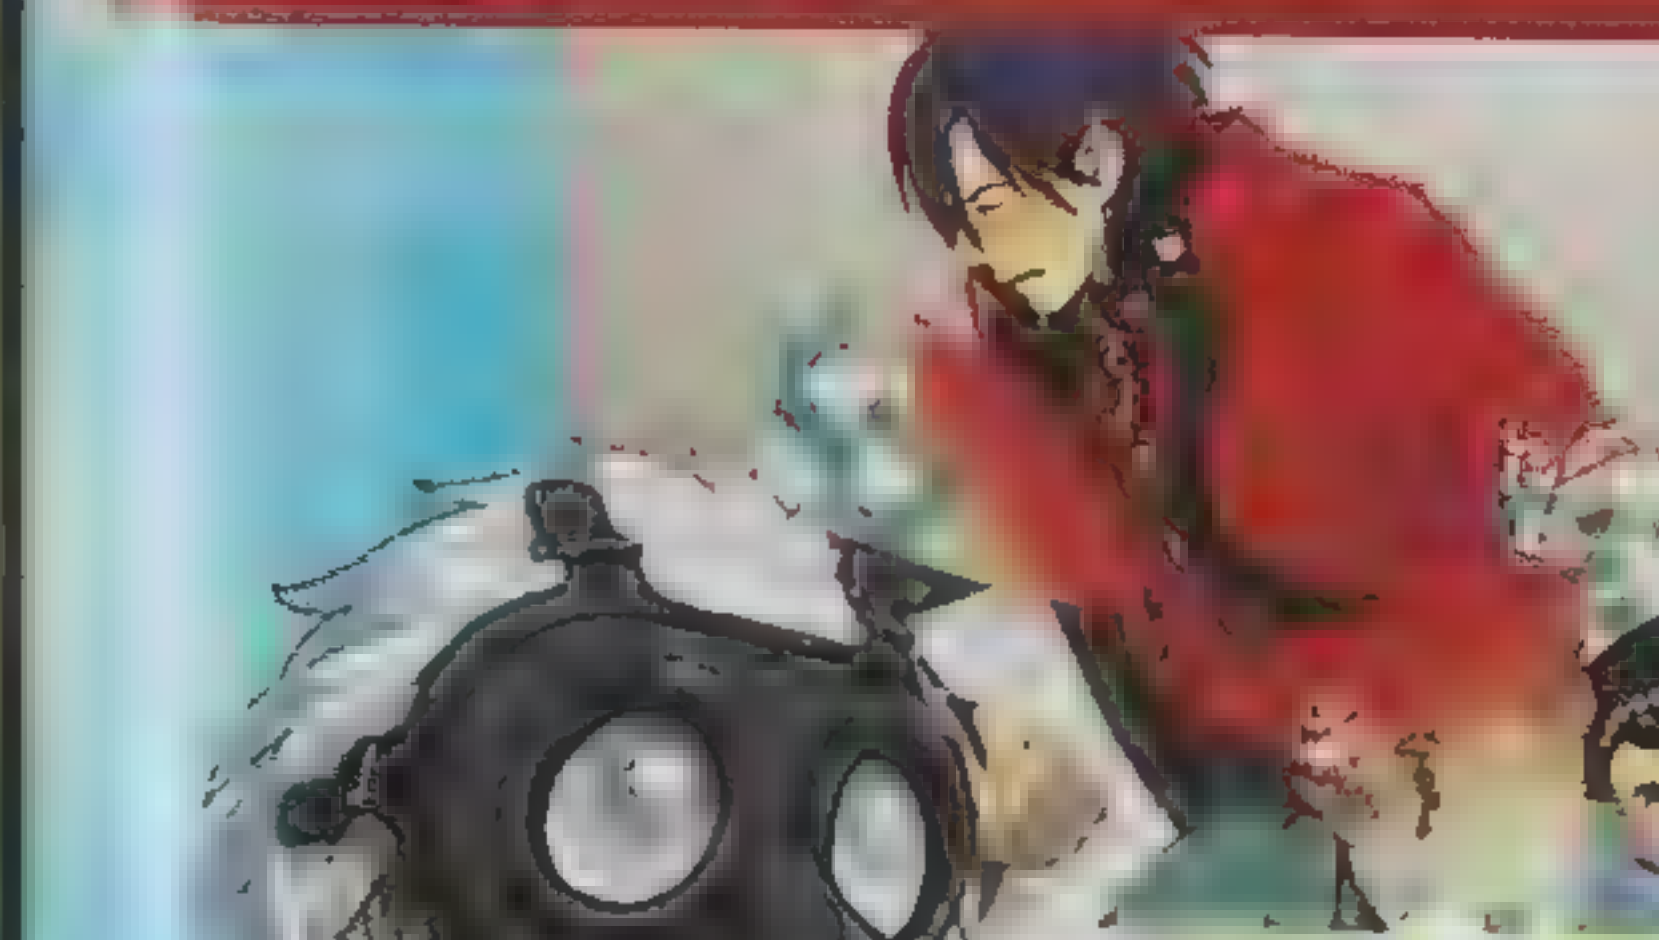

## NOIZ

Noiz is the leader of the group called "Ruff Rabbit." Noiz is from a wealthy family in Germany, living with his mother, father, and a younger brother. As a child, Noiz was impatient and unintentionally violent, though this was attributed to his lack of sense of feeling. For years, he lived alone in his own little house, isolated from everybody. And since then, he felt used to being alone.

## KOUJAKU

Koujaku, leader of the team "Benishigure," is Aoba's childhood friend, even though they didn't spend a lot of time together. They first met when Aoba was being picked on for looking feminine and having long hair, to which Koujaku immediately came to his defense. The two eventually formed a bond, but Koujaku, along with his mother, soon left Midorijima, upsetting Aoba in the process.

## CLEAR

Clear, before the main events of the game, served under Tōe along with his brothers. They were all designed to sing "Dye Music," a song that brainwashes people's minds into submission, literally "dyeing" their brains. He ended up being a defective unit, and was ordered to be disposed away. But the man in charge of the disposal took Clear away instead, kept it a secret and raised Clear as his own son until his death.

GAMER'S ARENA

# SOUND OF SILENCE

Sound of Silence is a new game, set to debut in early 2014, that will bring back the "real horror gaming" everyone has long been waiting for. The psychological game, which is not bent on "jumpscare" seen mostly on every horror game out there, will adapt the player's actions to analyze their fears, bringing a much scarier atmosphere as you progress through the game. Assume you prefer walking through lighted areas, the game may recognize your fear of darkness, resulting to more pitch black places being present.

Made by PathFinder Games team lead by Michael Chiniquy using Unity 3D and After Effects. A demonstration video showed a player waking up on an empty road. Sees a house with blood stains on the floor and enters.

The game takes a step towards the traditional horror games, particularly the kinds that make you want to hesitate to open a door in fears of what might be beyond it. Sound of Silence, though, is still under production, but with its impressive concept, we can all eagerly wait for something this interesting.

# 魔法戦争

## MAGICAL WARFARE

In the past, there used to only be one world filled with entropy and strife. A time ravaged by a war between magicians which caused permanent damage to the world, a war of attrition between the Ghost Trailers and the coalition that took arms and sought to stop their plans. At one point, the Trailer's leader attempted to erase all humans with the use of a grand spell called Last Requiem, but to his demise, it was prevented by 15 magicians by combining their powers which caused the world to split into two: the Living World and the Ruined World.

Flash forward to present, the story now focuses around a group of high school students that were living their normal lives until their encounter with a certain group of people put a halt to their normal days. Due to some circumstances, Nanase Takeshi and his friends have been turned into magicians and was dragged into a war that they did not sign up for. Will they be able to survive the harshness of the Ruined World, or will they take hold of their new found powers and survive?

### AIBA MUI

Mui is one of the female protagonists of the series. She is the one responsible for turning Takeshi into a magician when she accidentally shot a magical gun at him. Mui has been desperately trying to bring her brother back who was brainwashed by a group called Trailers.

Mui's Aspect is a gun named "Arthur" that shot magical bullets and is also a perfect combination with her acceleration magic.

### ISOSHIMA KURUMI

Kurumi is Takeshi's childhood friend and also one of the series' female protagonists. Due to a traumatic experience in the past, she formed a fake relationship with Takeshi in order to protect her.

After the incident at their high school, she was also turned into a magician and acquired transformation magic, her lipstick serves as her Aspect.

### NANASE TAKASHI

Takeshi is the series' male protagonist who was unknowingly dragged into the world of magicians. He used to be a normal high school student and a talented kendo practitioner. Takeshi has a dark past which caused him to have a cold relationship with his family.

After being turned into a magician, Takeshi gained an ancient evasive magic that enable him to predict enemies movements that puts him on par with experienced mages. He also acquired a magical sword called "Twilight" by the previous owner which served as his Aspect and gave him a tremendous boost in strength.

The anime adaptation was positively received by fans specially those that have read the manga and light novel prior to the anime's premiere. Brimming with fluid animations, great character designs and a carefully thought out storyline, Mahou Sensou is definitely one of the hottest anime that was released during the season. To add fuel to the fire, the anime's opening theme "Senkou no Prisoner" is performed by Yuuka Nanri and the ending theme "Born to be" by Nano.

# Solving Problems One Form at a Time

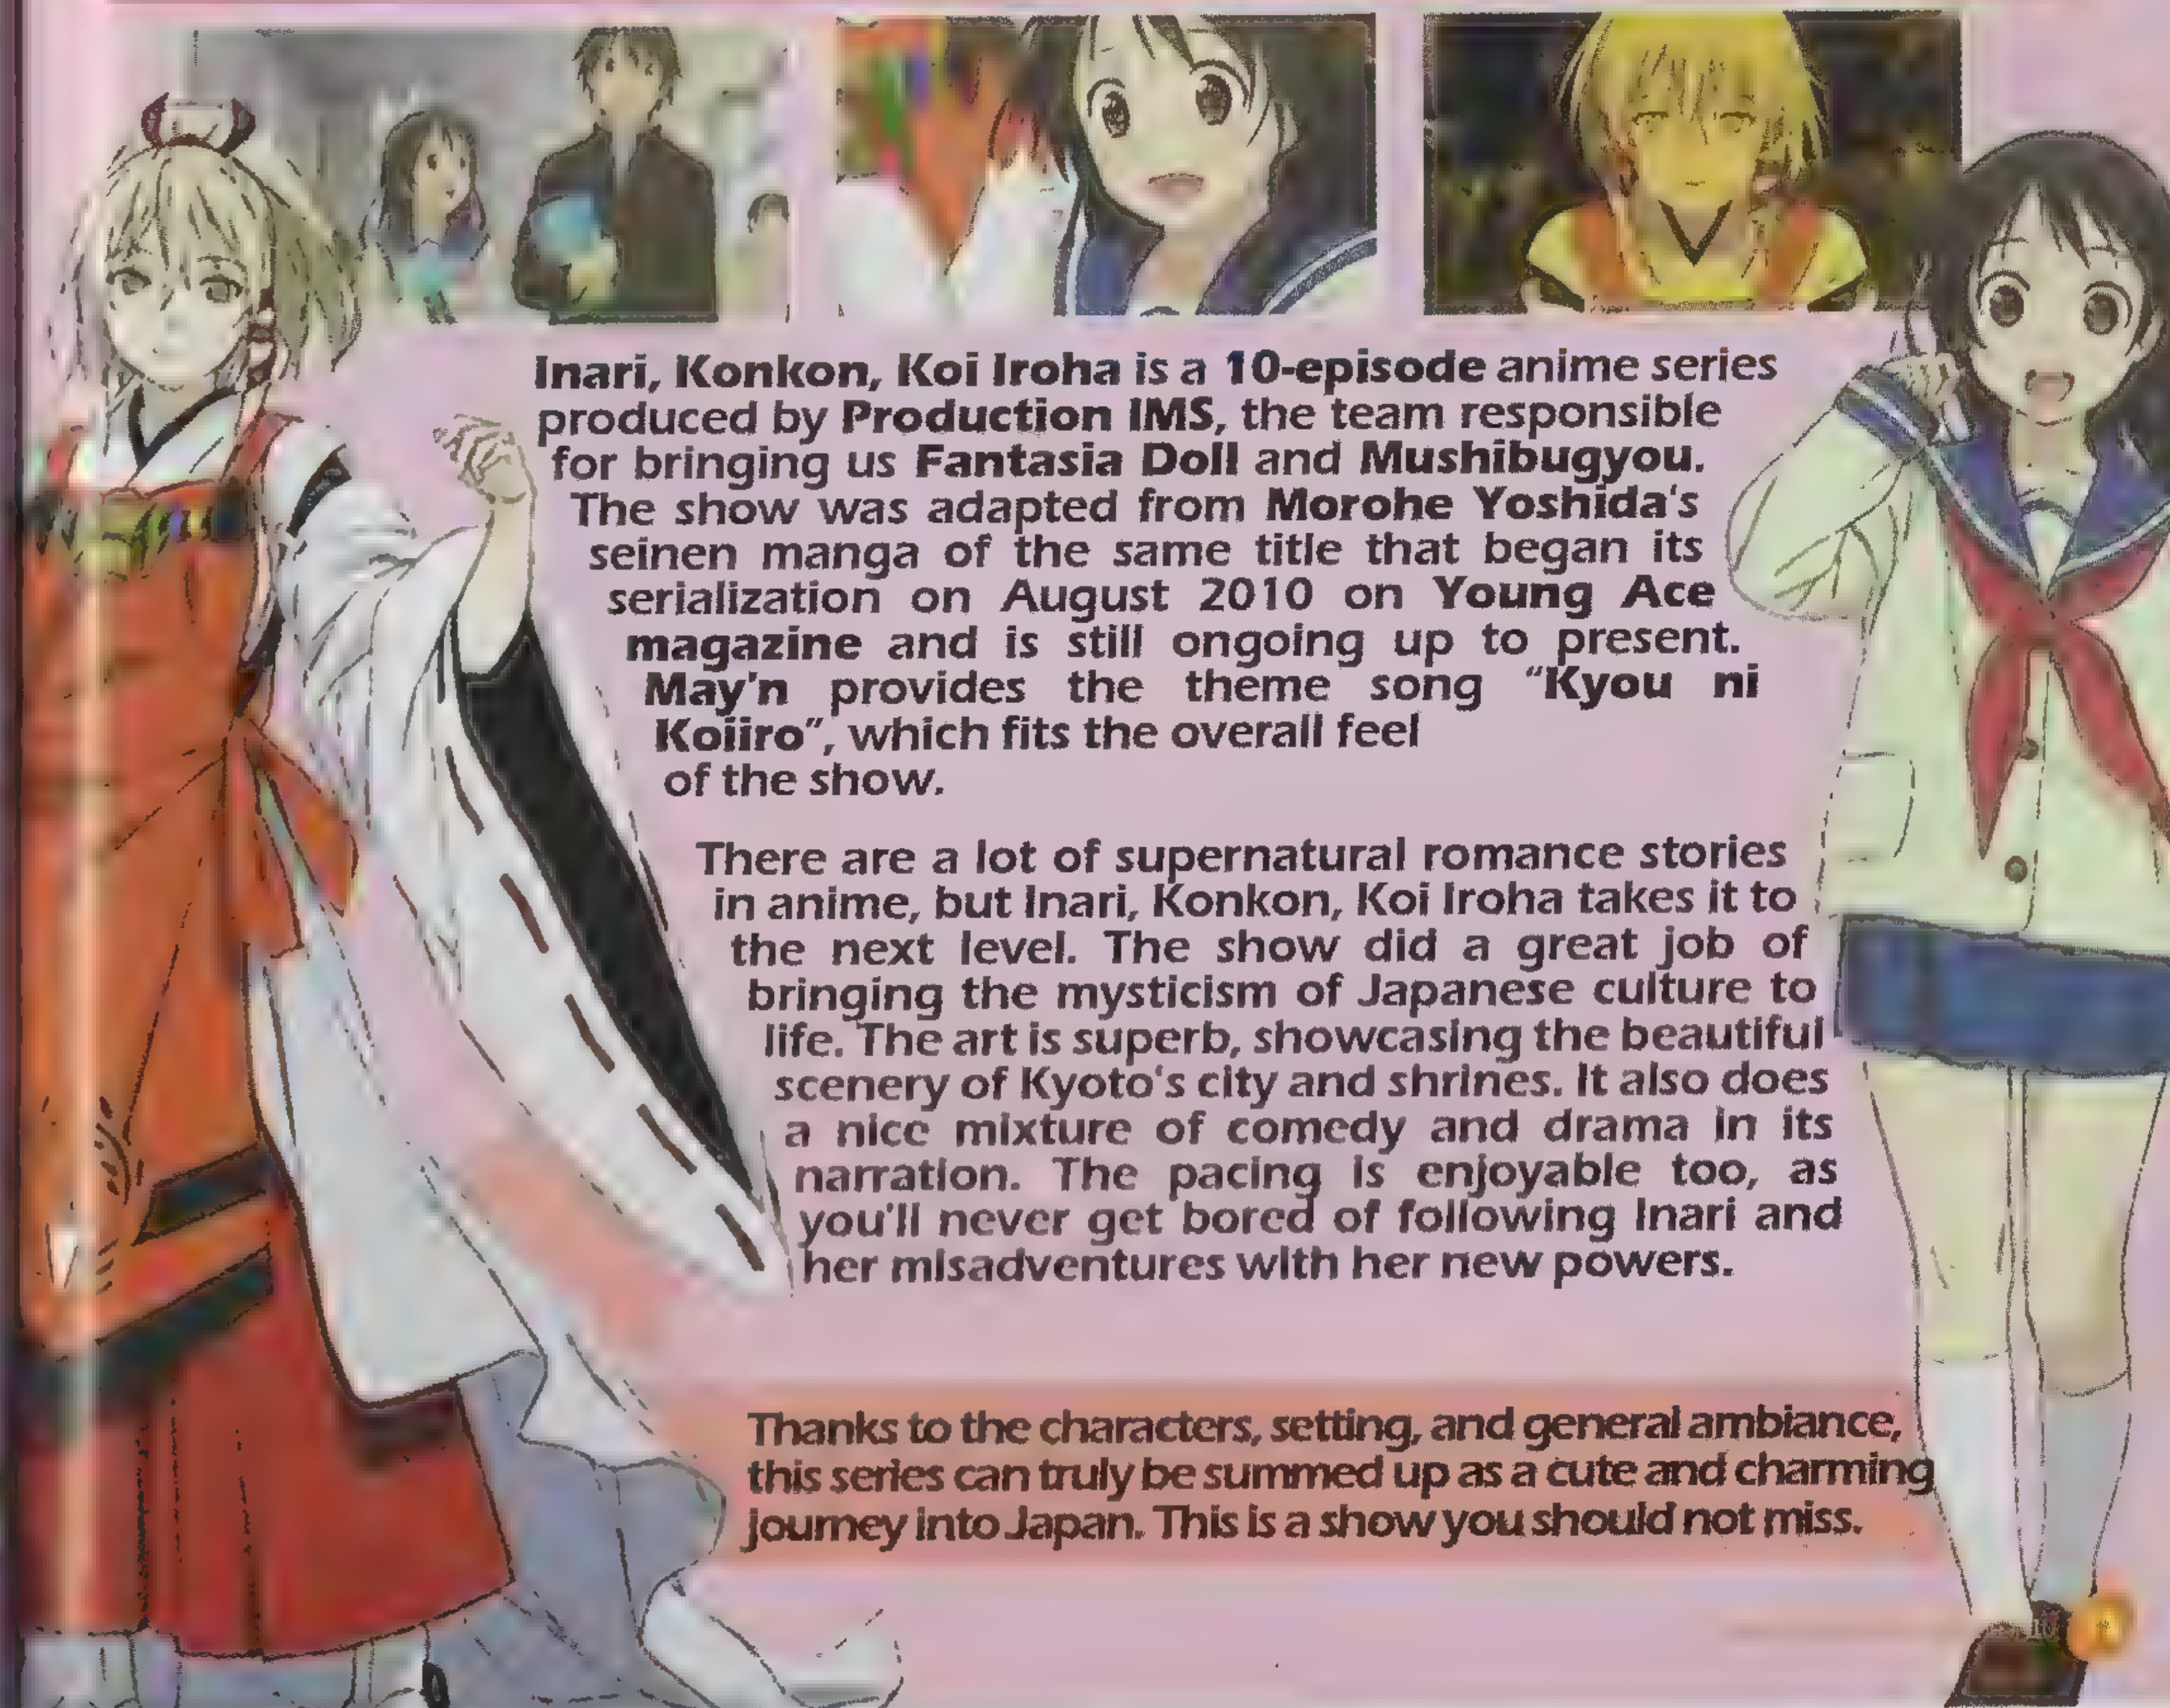

Have you ever found yourself wishing to be someone else? Maybe you could try praying for the power to transform. Who are we kidding? There's no way the gods are crazy enough to grant an outrageous wish such as that.

Yet, that's exactly what happens in **Inari, Konkon, Koi Iroha**!

**Inari, Konkon, Koi Iroha** is about **Fushimi Inari**, a cheerful girl in Kyoto with some confidence issues. After getting caught in an embarrassing situation with **Tanbabachi**, the boy she had a crush on, she desperately tried to make up with him to no avail. Concluding that her way out of this predicament was to become **Sumizome**, the girl **Tanbabachi** likes, she prayed for the gods' help. To her surprise, she was answered by the deity **Uka-no-Mitama-no-Kami**. In order to thank her for saving a fox pup, **Uka-sama** transformed her appearance into **Sumizome**.

Predictably, mayhem ensued, and **Inari** ended up regretting her wish. Instead of changing her back to her original form, **Uka-sama** had a better alternative – **giving her the ability to transform into any human**. Not only that, but the deity gave her a cute fox familiar to boot. Now, what other misadventures await her in this new life?

**Inari, Konkon, Koi Iroha** is a 10-episode anime series produced by **Production IMS**, the team responsible for bringing us **Fantasia Doll** and **Mushibugyou**. The show was adapted from **Morohe Yoshida's** seinen manga of the same title that began its serialization on August 2010 on **Young Ace** magazine and is still ongoing up to present. **May'n** provides the theme song "**Kyou ni Koiro**", which fits the overall feel of the show.

There are a lot of supernatural romance stories in anime, but **Inari, Konkon, Koi Iroha** takes it to the next level. The show did a great job of bringing the mysticism of Japanese culture to life. The art is superb, showcasing the beautiful scenery of Kyoto's city and shrines. It also does a nice mixture of comedy and drama in its narration. The pacing is enjoyable too, as you'll never get bored of following **Inari** and her misadventures with her new powers.

Thanks to the characters, setting, and general ambiance, this series can truly be summed up as a cute and charming journey into Japan. This is a show you should not miss.

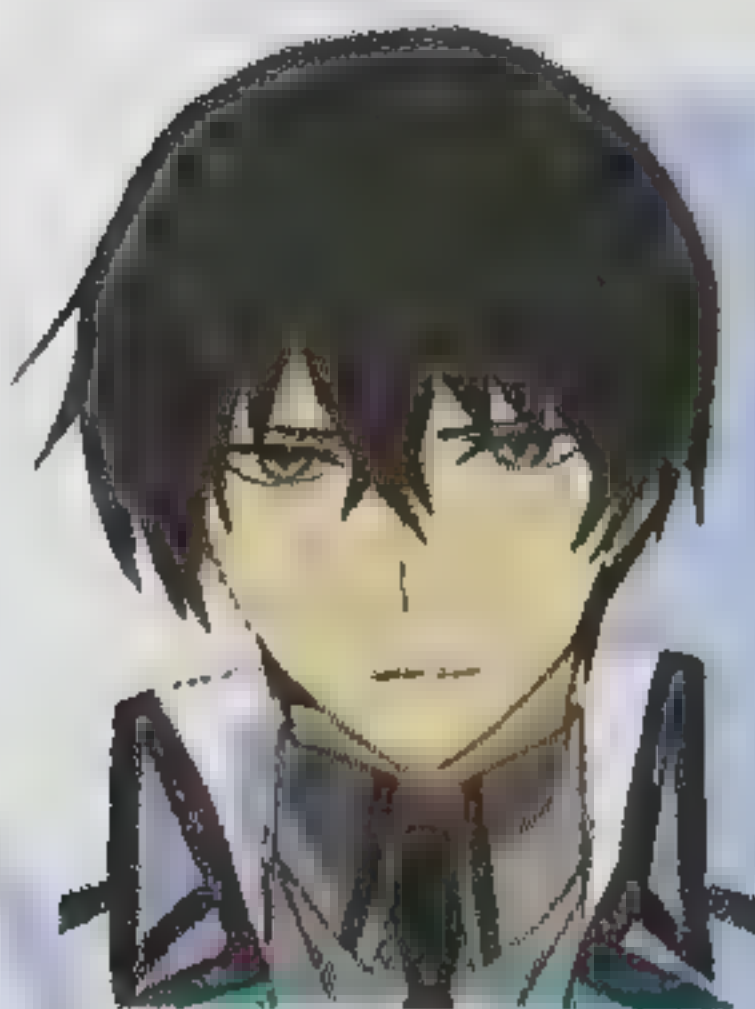

# Between the Weeds and the Blossoms

by james

Our abilities have a great effect on our success. However, they do not define a person's true worth and happiness. While that may be true, it is undeniable that our society greatly looks at them with such scrutiny that it is almost as if it does. That is very much true in our world as well as in the world where siblings Tatsuya and Miyuki exist - the world of *Mahouka Koukou No Rettousei*.

Translated as "*The Poor-performing Student of a Magical High School*", the story is set in the year 2095, a time when magic has finally been recognized as a systematized body of knowledge that is governed by science and technology, and the harnessing of it is dependent on the ability of each person. There are those who cannot control magic and those who can, and they are aptly called magicians.

Shiba Tatsuya and Miyuki are siblings who are both magicians that are enrolled in *First National High School*. And in their school, students are divided according to their performance when it comes to the practical application of magic. Those who fare well, called "*Blossoms*", are prioritized, while those who do not fall as reserve students and are labeled as "*Weeds*". Because of this, Blossoms look down and discriminate Weeds.

Among the two, **Miyuki is the Bloom**: more talented in the practical application of magic; **Tatsuya**, on the other hand, despite acing the entrance tests, is considered to be a **Weed** because of what the school deems as poor practical application of magic. With such a hostile environment against Weeds, will the closeness between Tatsuya and Miyuki be affected? That may be an important problem for our protagonists, but behind everything is a much more sinister plot that will reveal Tatsuya's true and fearsome power.

Animated by **Madhouse**, expect stunningly vivid animation and beautifully drawn characters. And there is more to this anime than mere eye candy, as it deconstructs the usual "magical school" subgenre, showing how a magical school would've turned out if magic is more closely related to a branch of science rather than being actually magic. Aside from that, it also shows how our society would turn out if magic actually existed through the use of its very diverse cast of characters.

*Mahouka Koukou no Rettousei* is easily and definitely one of the best and most memorable anime titles this season. Expect a lot of awesome magic and an equally awesome and deep plot.

The six main countries that conquered it have divided and ruled over the empire, and then finally signed a peace treaty, marking an end to the war. Living during these tranquil times is **Toru Acura**, a 20-year old retired soldier who lives with his sister **Akari**. Because of reasons still unknown, Toru refuses to work, adding that he will lose if he does so.

Then suddenly, out of nowhere and without warning, they were attacked by a unicorn. Thankfully, because of Toru's prowess in battle and Chaika's powerful magic, they were able to slay the beast. After that, Chaika paid her debt with Toru, and the two of them parted ways. But their destinies are intertwined, and so they meet once again when Chaika asks Toru's guild specifically for his services...

What sets this anime apart from other anime titles is its medieval high fantasy setting. With a solid backstory and rich in-universe magic and mythology, it truly immerses the audience into its rich and enchanting world that is just so visually beautiful - nothing less from the animation **BONES**. And not only is its setting beautiful, but also its characters, both aesthetically and personality-wise, as they are very much genuine with their thoughts, actions, and emotions, making the viewers relate and care for them.

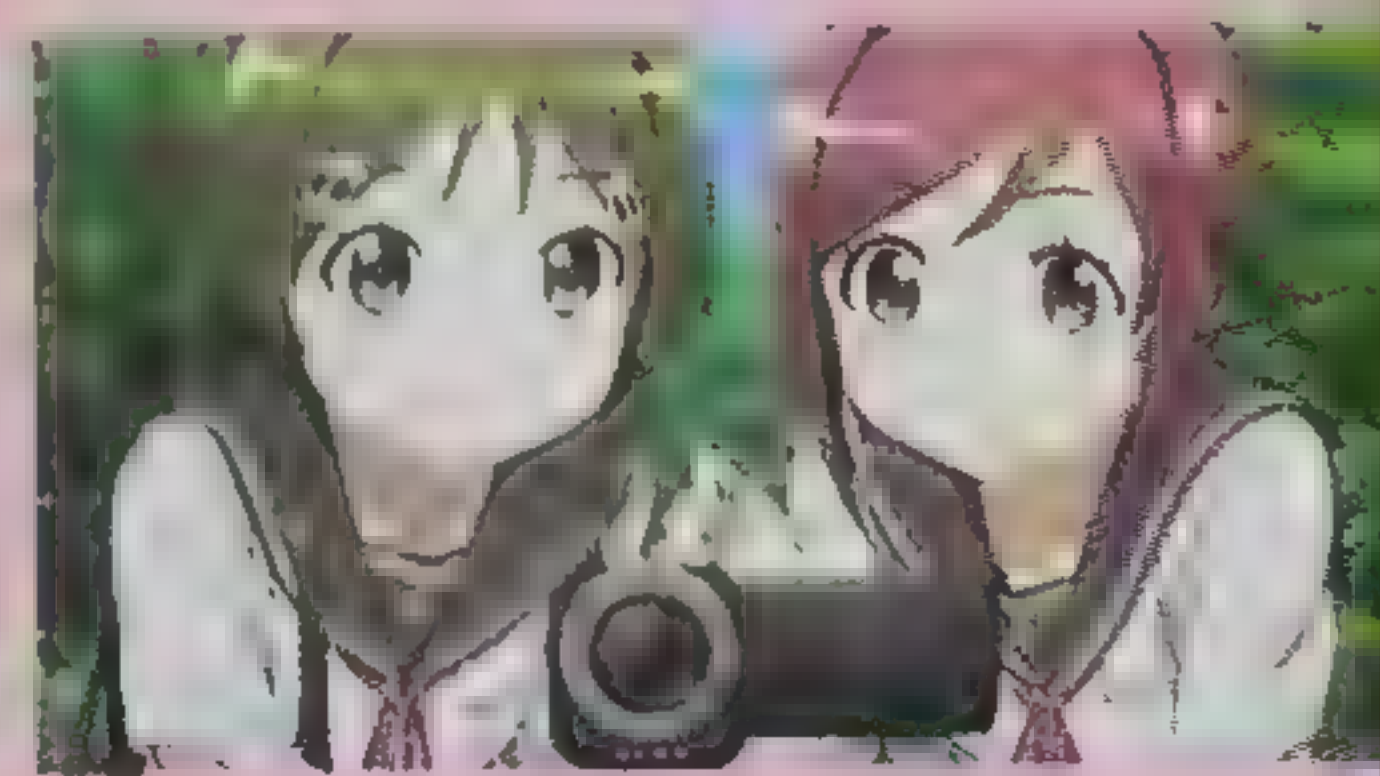

With a mysterious and mystical realm, cool yet relatable characters, and a lot of heart, *Hitsugime no Chaika* is an anime that will let you in its world and stay in yours.

# GO! GO! 575

Lyrical Poem or known as a Song has been entertaining and touching the world's heart with its tunes and heartfelt expression of words uttering in every lines. Creating songs to cheer everyone up, serenading your love and even food. What if a Tanka or a Haiku poem can be turned into a song? It's been built on to produce a decent music (idol-like) anime. The characters were fun and quite enjoyable, and memorable if they had more screen time to work with. Hence, even the third character would've been far more fun to see because of her Yuri fan girl in terms of personality. Even the art style and music were pretty great, even if the entire anime was only meant to promote the game.

Create a world full of songs out of tanka and haiku poems. Join in the Azuki and Maccha and watch Go! Go! 575

# SOUL EATER

written by James  
requested by Maka Duran

School usually means sitting down for long hours pretending to listen to the teacher in front as he or she bores you half to death, studying alien concepts until your brain bleeds, doing unnecessary homework when you could just be watching anime or playing video games, and then scratching your head until you go bald during exams. What a drag, right? Well, what if your course syllabus included slaying evil abominations, being partners with people that can turn to weapons, and having them eat souls so that they can gain greater power? Ladies and gentlemen, enter Soul Eater.

Set in a world where evil people can become evil soul-devouring demons called kishin, the god of death himself Shinigami founded the Death Weapon Masters Academy in order to train weapon masters, exceptionally talented fighters who wield demon weapons, people that turn into weapons, in order to prevent such a thing from happening. Aside from that, through the training of the weapon masters, the school also aims to have the demon weapons eat ninety-nine evil human souls and one witch soul to become a Death Scythe, powerful weapons worthy of being used by Shinigami himself.

The story revolves around three teams: the very driven Maka Albarn and her headstrong partner Soul; the not-so-stealthy yet formidable Black Star and his kunoichi weapon Tsubaki; and the obsessive-compulsive son of Shinigami Death the Kid and his twin pistols—the childish optimistic Patty Thompson and the cynically serious Liz Thompson. Together, they set to slay evil humans and witches and become full-fledged weapon masters and demon weapons.

With a simple yet enjoyable plot rife with crazy antics and fast-paced action, art that is stylistic, surreal, and warmly vivid, and characters with diverse and dynamic personalities, Soul Eater is definitely one of those delicious anime titles that will get your heart racing, your jaw dropping, and your stomach hurting. Bon appétit!

**OZINE FEST 2014**  
APRIL 25, 26 AND 27 2014  
CONVENTION CENTER MOA

Long lines, Mean guards, summer heat and over the top security.

Convention problems can't stop the anime fans from coming. We who have been waiting for a huge event this year looked forward to the one event in the PH everyone wants to go to.

And it came at the right time.

Ozine Fest 2014 was a great success for otakus and cosplayers alike. Held at the SMX Convention Center, Mall of Asia, Pasay city on April 25, 26 and 27.

The invited guests are Ying Tze, Yanbul, Jdoll, Aza Miyuko, Yazi and Misa. Sadly for the fans, Misa and her partner Yazi didn't make it to the Ozine Fest. Misa had her passport confiscated on Hong Kong and it will take two weeks to retrieve it from the authorities. The other guests, Aza, Yanbul and Jdoll or also known as the D.A.Y cosplayed as Ryuko, Satsuki and Mako from Kill la Kill while Ying Tze cosplayed Junko Enoshima from Dangan Ronpa.

There were a number of events at the con. To name a few; the karaoke contest, eating contest, maid cafe, battle of the bands, art contest, console games and the new trading card game, Vanguard. Animax showed us their upcoming anime shows for May and June. While the other sponsors gave merchandise for the auction.

Though the individual cosplay competition is not scheduled on the first and second day of the convention, the we observed that more people came than last year.

The line for the entrance to Ozine Fest already started as early as 8:00 am and most of the guests are cosplayers. There were several security issues that went viral after the event.

Ozine Fest or Otakuzine Festival is held two times a year which is usually observed during the first quarter and last quarter of the year. Check [www.ozine-events.com](http://www.ozine-events.com) for more updates and upcoming events.

# YUUSTOU SURVIVAL

They say opposites attract. Black and white, north and south, hot and cold – you know the drift. Of course, it's not always the case, especially if it's between the rich and the not-so-rich. And for Hirasawa Asako and Kazuki Sakuri, it probably never will be. Or maybe someday, through genuine it hopefully will.

The manga is about Hirasawa Asako, a girl who loves reading advertisement leaflets in order to help her parents discover cheaper deals. One day, she mentioned her passion to an affluent friend of hers, but that friend told her that more expensive things have higher quality, and even added that Asako must be really poor because she always chooses cheaper things. Ever since that day, she despised rich people.

Many years later, a girl named Kazuki Sakura, an obviously wealthy and snobbish young lady, moved in next door to Asako's family. Asako looked after Kazuki, only to find her to be a real pain because of her constant complaining, as Kazuki is unused to living in a "poor town" because of her background. Her ranting didn't stop there, as she acted like a self-entitled brat and refused to obey school rules regarding perfume and clothing, as it is what separates her from the rest. And to make matters worse, Asako was asked by the teacher to help Kazuki in adjusting to her new lifestyle, and Kazuki refuses to accept it.

Drawn and written by Nakamura Seiko, this precious little story of an unlikely, difficult, yet rewarding friendship is definitely worth the read.

# DEAD SOUL REVOLVER

We've always been warned to stay away from alleyways, especially after dark, because that is where good-for-nothing souls lurk and wait for their next victim. Apparently, nobody warned Kagami Kenichi, so one night, as he made his way in a dark alleyway, he saw what he never thought would see his entire life – a horrible demon that was devouring a woman after gruesomely dismembered her. Once the demon was done with his meal, he spotted Kenichi and decided to make him his next meal. Thankfully, a cute high school girl came to his aid and drove away the demon.

Because of what happened, Kenichi couldn't stop blabbing about it, even at school. Much to his surprise, he found the girl who rescued her in school, and she was looking for him. The girl, named Miyu, asked him to keep it a secret lest she kills him, and Kenichi agrees. And when their classmate Hirai turns out to be a demon and attacks them both, Miyu makes a contract with Kenichi, giving Miyu a greater power that is more than enough to slay the demon. However, the contract requires that those under it must always be together because refusal to do so spells death. Now he's got no choice but to stick with Miyu and confront demons whether he likes it or not, for his life depends on it, literally...

Written and drawn by Tomozo Kaoru, Dead Soul Revolver is a manga that has a lot of exciting exorcism action as well as a deep and mysterious plot that will surely get you hooked and wanting more. You've been warned...

# Starmarie

With lively dance moves and awesome vocals, a passionate fantasy story unfolds as Starmarie takes you on a life journey with their music.

Making their way in the J-Pop industry as well as the international music industry as gothic lolitas is the idol group called Starmarie. Its members are Aoki Shiori, Kishita Nozomi, and Shino Takamori or Shinohamu who is considered their leader.

This Tokyo-based group first started in July 2008 with its original members Arai Kaori, Sekine Saya, and Aoki who remained as a member of the current trio.

Starmarie participated in the Allover project, a Japanese idol group that started back in 2012 consisting of members from idol groups. Starmarie was under the Team α (alpha).

This indie idol group call themselves a fantasy unit because of how their songs tell fantasy stories that have a hot pot of emotions to pour to their listeners. They emphasize their performances that remain loyal to the content of the song as one of their differences from other idol groups. Some of their popular songs are Mitsuboshi Restaurant Paul kara no Shoutaijou (The Three-Starred Restaurant - Paul's Invitation) and Professor Honda's Dying Message.

In February 2009, they released their debut single Time Machine Love, while in July 2013 they made their first performance in the international scene at the Anime Expo AX in Los Angeles. They are also performed here in the Philippines on September 14-15, 2013 as one of the participating bands in Best of Anime.

To further promote their gothic lolita image, they collaborated with the brand "Opera the Dream House".

Their first album, Fantasy World! was released in February 2011 while Fantasy World! 2 was released in December 2012. Just last year, they released Fantasy World! 2.5 and this coming April, they will launch Fantasy World! 3.

This March, they are going to participate in the W music festival in Austin, Texas, and after which, they will perform at Japan Nite US Tour 2014 in New York.

Indeed, Starmarie has a long way to go but it seems that these girls will make it a worthwhile journey to let their story be told.

The new Sailor Moon series, retitled Pretty Guardian Sailor Moon Crystal will be premiere in July and will be streaming worldwide on the NicoNico Douga website. The producer, Atsutoshi Umezawa claims that the new Sailor Moon is not a remake of the classic anime. Moreover, the story will still be based on its original manga storyline.

Munehisa Sakai, who is the director of One Piece and Suite Precure will direct the new series under Toei Animation. Expect the new anime series with new art and scenes in the flow of the story. The costumes of each guardian are still the same, the timeless sailor uniform. The guardians of the Sailor Moon Crystal would be more adult-like but a lot cuter than the previous series and the visual atmosphere promises to be completely different.

Sailor moon originated as a manga written and illustrated by Naoko Takuechi in 1992. It was made into an anime which became popular worldwide because of its theme concerning magical girls. The story revolves on Usagi Tsukino, who was chosen to become a sailor guardian, and the other sailor guardians, tasked to look for the moon princess and protect Earth against the evil villains.

The classic anime series promises to retain the quality and twist of the story that makes it popular in the recent decade. Be sure to check out this new adaptation and look forward for its newest art designs that will again, capture every otaku especially the Sailor Moon fans.
